On page 1 of the printed bill, strike out all of lines 1 to 12, inclusive, and insert in lieu thereof the following:

"SECTION 1. A new section is hereby added to the Political Code to be numbered 3480c and to read as follows:

3480c. (1) Whenever any reclamation district shall have been in default for more than one year in the payment of any maturity of its bonds or any maturity of its interest coupons thereon, then any holder of any bond or any coupon or any warrant of said district may petition the reclamation board of the State of California to undertake to reorganize, refund and adjust the finances and obligations of the district; and under the same circumstances the reclamation board itself may initiate such proceedings. The board of trustees of a district may also file such petition at any time. Thereupon the reclamation board shall set a time and place for a hearing thereon and shall give a notice thereof not less than ten days prior to said hearing by mailing such notice to the district at its office, and by posting such notice in five public places in the district. The notice shall state how the proceeding has been started and what the purpose of it is. The place for the hearing shall be either at the office of the district or at some place within the district or at some convenient place within the county in which the district is located. On the hearing the reclamation board shall examine into the financial affairs of the district; and anyone interested in any land in the district and any creditor of the district may take part in the hearing and may introduce relevant evidence. Thereupon the reclamation board shall make and enter its order whether it does or does not undertake to reorganize, refund and adjust the finances and obligations of the district.

(2) If sixty-five per cent or more of the land in the district has been sold for delinquencies in payment of calls on assessments and remains unredeemed, then the reclamation board, either on the hearing hereinabove provided or after a hearing in said manner and after said notice, may make and enter its order that the district and its trustees and other officers shall be subject to the control of said board; and said order, duly certified, shall be filed with the board of supervisors and the county treasurer of each county within which lands of the district are located and thereafter said trustees and other officers shall follow all directions and shall observe all orders that shall be issued to them or any of them by the reclamation board concerning the performance of their duties as officers of the district, and also thereafter the reclamation board shall have the power to declare, and it may declare, vacant the office of any officer of the district and appoint another person to fill such office. Any appointee of the reclamation board to any office shall have only such qualifications as shall be prescribed by such board. An appointee of the reclamation board shall hold office only at the pleasure of such board; and notwithstanding any other provision of law said office shall not be otherwise filled either by election or by appointment until the reclamation board shall enter its order discontinuing its efforts to reorganize, refund and adjust the finances and obligations of the district. Anyone who is aggrieved by any order subjecting the district, its trustees and officers to the control of the reclamation board or declaring any office vacant may commence an action in the superior court of the county in which the greater part of the district is located to have said order annulled. Said action must be commenced within thirty days after said order is made; otherwise no action or defense shall thereafter be maintained attacking the legality of said order. During the pendency of said action said order shall remain in full force and effect for all purposes and the reclamation board shall be entitled to have immediate possession of all properties, records, papers, books, seal and engineering and other data belonging to the district and displaced officers shall not interfere with appointees to their places and shall not attempt further to perform the duties of the offices from which they have been removed.

(3) The reclamation board, acting either directly or through the board of trustees of the district, shall adopt a plan to reorganize, refund and adjust the finances and obligations of the district in the manner herein provided. The plan shall at least provide:

(a) For the issuance of refunding bonds hereunder and for the maturities of the refunding bonds which, however, must mature within fifty years from the date when authorized by the election herein provided;

(b) For the interest rate on said refunding bonds which may be made to vary from time to time or may be omitted for a time, but which shall not exceed six per cent per annum payable semiannually;

(c) For the deposit of the bonds to be refunded with such depository as may be designated by the reclamation board and for the time within which said deposit shall take place;

(d) For extensions of time for deposit of said bonds, but the total time allowed for deposit thereof shall not exceed two years from the date of the election herein provided;

(e) For application of moneys on hand in the bond and other funds of the district or to be received therein from any sources;

(f) For the amount of refunding bonds to be issued and for the exchange thereof for bonds being refunded either on pro rata or a bond-for-bond basis; and

(g) For such other things incidental to the process of refunding said bonds and not inconsistent herewith as may be proper or necessary.

The plan may provide for the sale of said refunding bonds at any specified price and the application of the proceeds. Said plan may include for refunding any outstanding warrants or other obligations of the district; but it shall be optional with the reclamation board whether or not obligations incurred for maintenance or warrants issued in payment of such obligations shall be included in the plan. Bonds, coupons, warrants, and other obligations may be refunded whether in default or not in default. Upon the adoption of such plan the reclamation board or the trustees, as such board may direct, shall call an election in the district and shall submit to the qualified voters therein the question whether or not refunding bonds shall be issued as provided by the plan. In the notices of election the terms of the plan shall be generally described. All proceedings appertaining to said election shall be in accordance with section 3480 of the Political Code as said section shall be when said election is held. Where title to any lands has vested in the county treasurer, as trustee, said lands shall be voted by the treasurer at said or any other election held in the district. If the majority of the votes cast at said election shall be in favor of said plan, then the reclamation board shall proceed to carry said plan into effect. Except as herein specially provided, said refunding bonds shall be in terms substantially as provided in section 3480a of the Political Code as said section shall be when said election was held; but they shall state that they are issued under this section of this act. The deposit of bonds, coupons, warrants and other obligations under the plan shall bind the depositors thereof to the terms of the plan; and whenever bonds, coupons, warrants and other obligations of the district have been fully deposited as required by said plan then:

(a) Lands that have been deeded under sales for delinquencies shall be sold for cash at such prices as the commission shall specify and moneys realized from the sale of said lands shall go into the proper bond fund, irrigation fund, warrant interest fund or general fund of the district, as the case may be.

(b) Moneys in the bond funds of the district shall be used as specified by said plan.

(c) Moneys in any warrant interest fund or irrigation fund shall be applied, first, on account of registered warrants in order of registration, and thereafter pro rata upon unregistered warrants against such fund, and any balance shall be carried into the general fund;

(d) Moneys in the general fund of the district shall be applied, first, on account of registered warrants in the order of registration, and thereafter pro rata upon unregistered warrants against such fund, and thereafter pro rata upon obligations of the district other than bonds, coupons and warrants. Thereafter the reclamation board or the trustees, as such board may direct, shall fix by order the amount of refunding bonds to be issued under the plan and shall report the amount and purpose thereof, together with said plan, to the board of supervisors of the main county, in which lands of the district are located. Thereupon, by proceedings as provided in sections 3456a, 3461, 3462 and 3463 of the Political Code, an assessment shall be levied upon the lands in the district in the amount specified in said report. Said assessment shall be security for the payment of the said refunding bonds and shall be collected and applied for that purpose in the manner prescribed in section 3480 of the Political Code as said section shall be when action is taken thereunder. Whenever the assessment roll for said assessment has been filed as provided by law all assessments underlying any bond issue being refunded and underlying or being available for the payment of any outstanding warrants or other obligations being refunded shall be null and void and no further proceedings shall be taken thereunder; *provided, however*, that deeds may issue thereafter on any sales thereunder for delinquency where the times for issue of said deeds have then already expired

or where said sales have been made to purchasers for cash and the times for redemption have not yet expired.

(4) Additional moneys for said bond fund for application under said plan may be provided by voluntary contribution and refunding bonds may be issued therefor. Unless funds are provided in the county treasury either in the manner herein specified or as may be provided by agreement to pay any bonds, coupons and registered warrants which are not deposited under said plan, the reclamation board shall not carry out said plan.

(5) Whenever any plan to reorganize, refund and adjust the finances and obligations of the district has been fully executed then the reclamation board shall enter its order releasing the district, its trustees and other officers, from all further supervision, control, or direction hereunder and certified copies of the order shall be filed with the board of supervisors and the county treasurer of each county wherein lands of the district are located.

(6) Except as any thereof can not be applied hereunder, or is inconsistent herewith, the provisions of section 3480 of the Political Code as said section shall be when action is taken hereunder from time to time, are hereby incorporated herein as a part of this section of this act and are made applicable to said assessment and to said refunding bonds and are available in proceedings hereunder.

(7) Nothing herein contained shall limit or affect the duties and powers of the county treasurer in enforcing any assessment to meet outstanding bonds, coupons or warrants of the district.

(8) If any plan is rejected at said election then successive plans may be adopted and submitted until approval of some plan has been obtained."

Sec. 8. (a) The term "employee" as used in sections 6 to 31, inclusive, of this act shall be construed to mean: Every person in the service of an employer as defined

by section 7 hereof under any appointment or contract of hire or apprenticeship, express or implied, oral or written, including aliens, and also including minors, whether lawfully or unlawfully employed, and all elected and appointed paid public officers, and all officers and members of boards of directors of quasi public or private corporations while rendering actual service for such corporations for pay, but excluding any person whose employment is both casual and not in the course of the trade, business, profession or occupation of his employer, and also excluding any employee engaged in household domestic service, farm, dairy, agricultural, viticultural or horticultural labor, in stock or poultry raising and also excluding any person engaged in vending, selling, offering for sale, or delivering directly to the public, any newspaper, magazine or periodical where the title to such newspaper, magazine or periodical has passed to the person so engaged, and any person holding an appointment as deputy clerk, deputy sheriff or deputy constable appointed for the convenience of such appointee, who receives no compensation from the county or municipal corporation or from the citizens thereof for services as such deputy; *provided*, that such last exclusion shall not deprive any person so deputized from recourse against any private person employing him for injury occurring in the course of and arising out of such employment. Nothing herein contained shall be deemed to alter, amend or repeal the provisions of chapter 824, statutes of 1927.

(b) Any person rendering service for another, other than as an independent contractor, or as expressly excluded herein, is presumed to be an employee within the meaning of this act. The term "independent contractor" shall be taken to mean, for the purposes of this act: any person who renders service, other than manual labor, for a specified recompense for a specified result, under the control of his principal as to the result of his work only and not as to the means by which such result is accomplished. A working member of a partnership receiving wages irrespective of profits from such partnership shall be deemed an employee within the meaning of this section.

(c) The term "casual" as used in this section shall be taken to refer only to employments where the work contemplated is to be completed in not exceeding ten working days, without regard to the number of men employed, and where the total labor cost of such work is less than one hundred dollars. The phrase "course of the trade, business, profession or occupation of his employer" shall be taken to include all services tending toward the preservation, maintenance or operation of the business, business premises or business property of the employer. The words "trade, business, profession or occupation of his employer" shall be taken to include any undertaking actually engaged in by him with some degree of regularity, the trade name, articles of incorporation or principal business of the employer to the contrary notwithstanding.

(d) Watchmen for nonindustrial establishments, paid by subscription by several persons, shall not be held to be employees within the meaning of this act. In other cases where watchmen, paid by subscription by several persons, have at the time of the injury sustained by them taken out and maintained in full force and effect insurance upon themselves as self-employing persons conferring benefits equal to those conferred by this act, the employer shall not be liable under this act.

(e) It shall not be a defense to the state, or any political subdivision or institution thereof, or public or quasi public corporation, that a person injured while rendering service for it was not lawfully employed by reason of the violation of any civil service or other law, rule, or regulation respecting the hiring of employees.

(f) Workmen associating themselves under a partnership agreement, the principal purpose of which is the performance of the labor on a particular piece of work, shall be deemed employees of the person having such work executed, and, in the event the average weekly earnings are not otherwise ascertainable, shall be deemed to be employed at an average weekly wage of twelve dollars; *provided, however*, that if such workmen shall have taken out and maintained in full force and effect insurance, in an insurance carrier as defined in this act, insuring to themselves and all persons employed by them benefits identical with those conferred by this act, the person for whom such work is to be done shall not be liable as an employer under this act.

AMENDMENT NUMBER TWO.

Strike out all of Senate Bill No. 825 after the enacting clause, and insert in lieu thereof the following:

"SECTION 1. Water conservation districts may be organized and established by the board of supervisors of any county in this state, as herein expressly provided, when the conditions stated in this act are found to exist, and may exercise the powers herein expressly granted, or necessarily implied. Such districts may be entirely within unincorporated territory or partly within unincorporated and partly within incorporated territory, and within one or more counties of this state.

Whenever either five hundred, or five per cent or more, of the qualified electors of a proposed water conservation district comprising the whole or a part or parts of one or more watersheds of any stream or streams of water or unnavigable river or rivers, or territory adjacent to such watershed or watersheds, or deriving such district's water supply, in whole or in part, from such stream or streams, or river or rivers, or the subterranean supply of waters therefrom, shall desire to conserve the waters of such stream or streams or unnavigable river, or rivers, they may propose the organization of a water conservation district under the provisions of this act, and, when so organized, such district shall have the powers, rights and duties conferred, or which may be conferred, by law, upon such water conservation districts. All electors residing within the proposed district, whose names appear on the register of voters of the last general election, or at any time within thirty days preceding the presentation of a petition for the organization of a water conservation district under the provisions of this act, shall be presumptively qualified signers of said petition and bona fide electors of said district.

SEC. 2. Any water conservation district organized and established as herein provided shall have power:

1. To have perpetual succession;
2. To sue and be sued, except as otherwise provided herein, or by law, in all actions and proceedings in all courts and tribunals of competent jurisdiction;
3. To adopt a seal and alter it at pleasure;
4. To take by grant, appropriation, purchase, gift, devise, condemnation, or lease, and to hold, use, enjoy, and to lease or dispose of, real and personal property of every kind, within or without the district, necessary to the full exercise of its powers and to the accomplishment of the purposes of this act;
5. To make surveys and investigations of the water supply and resources of the district; to conserve and store water by acquiring dams, dam sites, reservoirs and reservoir sites, canals, ditches and conduits, and constructing dams and reservoirs for the storage of water and by spreading and sinking water, to build, construct, or acquire the necessary dams, dam sites, reservoirs and reservoir sites, canals,

7. To vote bonds, cause assessments to be levied, cause elections to be held for the voting of bonds, or on the question of special assessments, and if said special assessments are voted to cause the same to be levied, as herein provided, for the purpose of paying any obligation of the district, and for the purpose of raising of money, to further accomplish the purposes of this act in the manner herein provided;

8. To make contracts, to employ labor, and to do all acts necessary for the full exercise of the powers herein granted.

SEC. 3. In order to propose the organization of a water conservation district a petition shall be presented to the board of supervisors of the county, in which the lands within the proposed district, or the greater portion thereof, are situated, signed by five per cent or five hundred electors within such proposed district, which petition shall set forth and particularly describe the proposed boundaries of such district, and shall pray that the same be organized under the provisions of this act, and propose a name by which such district shall be known. The territory to be included within the district need not be contiguous. The petition shall be presented at a regular meeting of said board of supervisors, and shall have been published once a week for at least three weeks before such presentation in some newspaper printed and published in the county where the petition is presented, together with a notice stating the date of the meeting of said board at which the petition will be presented; and if any portion of the proposed district lies within another county, or counties, then said petition and notice shall be likewise published in a newspaper printed and published in each of said counties. Such petition may consist of any number of separate instruments, and, when contained upon more than one instrument, one copy only of such petition need be published, but the names of all the petitioners shall be published the same as if appended to the original petition. All such copies of petition, filed prior to the hearing of said petition, shall be considered by the board of supervisors the same as though filed with the petition first placed on file. Where a vote to create a district is lost, no petition for the formation of a district comprising any portion of the same territory shall be presented or considered for a period of twelve months thereafter.

SEC. 4. When such petition is presented, the board of supervisors shall hear the same, and may adjourn such hearing from time to time. If any hearing or continued hearing shall be continued to a time more than sixty days from the date of the order making such continuance, a notice of such continued hearing shall be published, in some newspaper or newspapers printed and published in each of the counties in which any portion of the proposed district lies, once a week for at least two weeks immediately prior to the time appointed for such continued hearing. On the final hearing said board shall make such changes in the proposed boundaries as may be deemed advisable, and shall define and establish such boundaries. But said board shall not modify said boundaries so as to exclude from said proposed district any territory which would be benefited by the formation of such district; nor shall any land be included within such proposed district which will not, in the judgment of said board, be benefited by the organization of such district. Any person whose lands would be benefited by such district may, upon his application and in the discretion of the board of supervisors, have such lands included within such proposed district. Upon such hearing of such petition the board of supervisors shall determine whether or not said petition complies with the requirements of sections 1 and 3 of this act, and for that purpose must hear all competent and relevant testimony offered in support thereof or in opposition thereto. No defect in the contents of the petition, or in the title to or form of the notice, or signature, shall vitiate any proceedings thereon, provided such petition or petitions have a sufficient number of qualified signatures attached thereto. The determination of the board of supervisors shall be entered upon the minutes of said board.

SEC. 5. When, under the provisions of the preceding sections, the boundaries of the proposed district are defined and established, said board shall make an order dividing said district into three or five or seven divisions, as requested in the petition. Such divisions shall be as nearly equal in area as practicable and shall be numbered consecutively, and one director, who shall be an elector of the division, shall be elected from each division by vote of the electors of the division in which such director resides. No person may be elected a director who shall not be a qualified elector of the district, and who shall not be a resident of the county, or of one of the counties in which the district is situated.

SEC. 6. Said board of supervisors shall then call an election within the proposed district for the determination of the question whether such proposed district shall or shall not be organized, and also to elect the number of directors which shall be prescribed pursuant to the next preceding paragraph of this act. Said board of supervisors shall divide said district, and the divisions thereof, into convenient precincts and fix a polling place in each precinct; *provided*, there shall be at least one precinct in each division of the district, where the district is divided into divisions. The board of supervisors shall appoint an inspector, a judge and two clerks for each of the precincts thus established to conduct said election. The inspector, judge and clerks of election in each precinct shall constitute the board of election for such precinct. The inspector shall be chairman of the election board, and may administer all oaths required in the progress of an election, and appoint judges and clerks, if, during the progress of the election, any judge or clerk cease to act. Any member of the board of election may administer and certify oaths required to be administered during the progress of the election. If the board of election, or any member thereof, fails to appear at the opening of the polls on the morning of the election, the electors of the precinct present at that hour may appoint a board or supply the place of an absent member thereof. The election must be held within forty days from the date of the order calling the election, and within one hundred twenty days of the date of filing said petition.

Such election shall be called by publication of notice thereof in a daily or weekly paper in each of the counties in which the district is situate, if there be one, at least once a week for three weeks previous to such election, and by posting notice thereof in three public places. Such notice shall designate a name for such proposed district, and describe the boundaries thereof and designate the respective election precincts and the polling place in each, and the election officers, and the time of the election, and the hours during which the polls will be kept open; *provided*, that the polls must be opened not later than eight o'clock a.m. and kept open until seven o'clock p.m.

The board of supervisors shall require the clerk of said board to provide and furnish ballots for said election. No particular form of ballot shall be required except that the same shall contain the words "Water conservation district—yes" or "Water conservation district—no," or words equivalent thereto, and shall also contain the names of candidates for the position of director of the district who shall have been endorsed by a petition to said board of supervisors containing the names of ten or more electors of the district, petitioning that the names of candidates designated in the petition be placed upon the ballot to be voted on at such election; *provided*, that, such nominating petitions for a director in any division must be signed by ten or more electors entitled to vote in such division; and *provided*, that, in any case, such petitions be filed with the board of supervisors calling said election within fifteen days from the first publication of the notice calling said election. The ballots shall contain instructions that the voters shall write or print or stamp a cross after the words that indicate his choice. The ballots shall contain as many blank spaces for the names of directors as there are directors to be elected, and the writing of the name of any qualified person in any of said spaces shall be deemed to be a vote for such person.

Said election shall be conducted in accordance with the general election laws of this state so far as applicable, and except as herein otherwise provided. The election officers shall publicly count the votes immediately after close of the election, and make a report of the result of said election to the board of supervisors within five days subsequent to the holding thereof.

SEC. 7. The said board of supervisors shall, on the first Monday succeeding such election, if then in session, or at its next meeting, general or special, proceed to canvass the votes cast at such election, and, if upon such canvass it determines that a majority of all the votes cast are "Water conservation district—yes," the board shall by an order entered in its minutes declare such territory duly organized as a water conservation district, under the name theretofore designated, and shall declare the persons receiving, respectively, the highest number of votes for director to be duly elected to such offices.

SEC. 8. The board shall then cause a copy of such order, duly certified by the clerk of said board of supervisors to be immediately filed for record in the office of the county recorder of any county in which any portion of the lands embraced in such district shall be situated, and must also immediately forward a copy thereof to the clerk of the board of supervisors of each of said last mentioned counties. From and after such filing, the organization of the district shall be complete.

SEC. 9. Such election on organization may be contested by any person holding property within the proposed district liable to be assessed for the raising of funds to carry out the purposes of the district. The directors elected at such election shall be made parties defendant. Such contest shall be brought in the superior court of the county where the petition for organization is filed; *provided*, if more than one contest be pending, they shall be consolidated and tried together. The court having jurisdiction shall immediately try such contest, and determine, upon the hearing, whether the election was fairly conducted and in substantial compliance with the requirements of this act, and enter its judgment accordingly. Such contest must be brought within twenty days after the canvass of the votes and declaration of the result by the board of supervisors. The right of appeal is hereby given to either party to the record within thirty days from entry of judgment. The appeal must be heard and determined by the supreme court within sixty days from the time of filing the notice of appeal.

SEC. 10. The directors elected at the election hereinbefore provided for shall immediately enter upon their duties as such upon qualifying in the manner herein-after provided. Such directors shall hold office respectively until their successors are elected and qualified.

SEC. 11. The directors of any district who shall be thus elected, on the first Tuesday after their election, after they shall have qualified, shall meet and classify themselves by lot into two classes, as nearly equal in number as possible, and the term of office of the class having the greater number shall expire at the next general February election in this act provided for; and the term of office of the class having the lesser number shall terminate at the next general February election thereafter. After such classification, said directors shall organize as a board, shall elect a president from their number, and appoint a secretary, who shall each hold office during the pleasure of the board. The secretary need not be one of the directors. The salary of the secretary and the amount of the bond to be given for the faithful performance of his duty shall be fixed by the board of directors. The bond of the secretary of the district shall be recorded in the office of the recorder of the county in which the district is organized and then filed with the district.

SEC. 12. In each district organized as herein provided an election shall be held on the first Tuesday in February of each odd numbered year, after the organization of the district, at which directors for the district, as provided in sections 5 and 6 of this act, shall be elected to fill the offices of the directors whose terms of office shall then expire, in accordance with the provisions of this act. Vacancies occurring in the board of directors, by reason of death, resignation or otherwise, shall be filled by appointment by the supervisors of the county where such district is organized. A director so appointed shall hold such office for the unexpired term of his predecessor. The person receiving the highest number of votes for the office to be filled at such election is elected thereto. Within ten days after receiving their respective certificates of election, or notice of appointment, each person who shall be elected or appointed to the office of director shall qualify as such by taking and subscribing an official oath and filing a bond as herein provided. Each director shall execute an official bond in the sum of one thousand dollars which shall be approved by the judge of the superior court of the county where the organization of the district was effected, and shall be recorded in the office of the county recorder of such county, and then, together with his official oath, filed with the secretary of the board of directors. All official bonds herein provided for shall be in the form prescribed by law for the official bonds of county officers.

SEC. 13. On the first Tuesday in March next following the election, the directors shall meet and organize as a board, elect a president and appoint a secretary, who shall each hold office during the pleasure of the board. The full term of office of directors is hereby fixed at four years. The office of the board of directors of any such district may be established by said board of directors at some proper and convenient place within or near the district, but after the office is once established, it shall not be changed without giving notice thereof by posting in three public places in the district and by publishing a similar notice for thirty days in some newspaper of general circulation published in the county where such district is organized.

SEC. 14. At a meeting of the board of directors of the district, to be held not less than twenty days before the time for any biennial election of officers, the board shall divide the district into convenient election precincts, appoint election boards, and do all things applicable thereto for the holding of such election, in the manner herein required to be done by the board of supervisors for the holding of an election on the question of formation of district. The clerk of the board of directors shall cause notice of such election to be given by having such notice published and posted in the manner required by this act for giving notice of election on formation of district, excepting that the notice shall be published once a week for not less than two weeks and posted for not less than fifteen days prior to the election. A notice shall also be posted in a conspicuous place in the office of the board of directors. Such notice shall designate the directors to be elected, the term for which each is to be elected, the respective election precincts and the polling place in each, the election officers, the time of the election and the hours during which the polls will be kept open. No particular form of ballot shall be required to be used. The clerk shall, however, furnish ballots which shall contain the names of the candidates for the

offices who shall be endorsed by petition signed as hereinbefore provided and filed with the clerk of the board of directors within seven days after the first publication of the notice of election. The ballot shall contain as many blank spaces as there are directors to be elected. The election shall be conducted in the manner herein required for the conduct of elections on the formation of districts.

SEC. 15. As soon as all the votes are read off and counted, a certificate shall be drawn up on each of the papers containing the poll lists and tallies, or attached thereto, stating the number of votes each one voted for has received, and designating the office to fill which he was voted for, which number shall be written in figures and in words at full length. Each certificate shall be signed by the election officers. One of said certificates with the poll list and the tally paper to which it is attached shall be retained by the inspector, and preserved by him at least six months. The ballots shall be strung upon a cord or thread by the inspector during the counting thereof in the order in which they are entered upon the tally list by the clerks; and said ballots together with the other of said certificates, with the poll list and tally paper to which it is attached, shall be sealed by the inspector in the presence of the judges and clerks and endorsed "election returns of (naming the precinct) precinct" and be directed to the secretary of the board of directors and shall be immediately delivered by the inspector, or by some other safe and responsible carrier designated by said inspector, to said secretary, and the ballots shall be kept unopened for at least six months, and if any person be of the opinion that the vote of any precinct has not been correctly counted he may appear on the day appointed for the board of directors to open and canvass the returns and demand a recount of the vote of the precinct that is so claimed to have been incorrectly counted.

SEC. 16. No list, tally paper, or certificate from any election, shall be set aside or rejected for want of form if it can be satisfactorily understood. The board of directors must meet at its usual place of meeting on the first Monday after each election to canvass the returns. If, at the time of the meeting, the returns of each precinct in the district in which the polls were opened have been received, the board of directors must then and there proceed to canvass the returns; but if all the returns have not been received, the canvass must be postponed from day to day until the returns have been received, or until six postponements have been had. The canvass must be made in public and by opening the returns and determining the vote of the district for each person voted for and declaring the result thereof.

SEC. 17. The secretary of the board of directors must, as soon as the result is declared, enter in the records of the board a statement of such result, which statement must show: (a) the whole number of votes cast in the district and in each precinct thereof if there be more than one precinct; (b) the names of the persons voted for; (c) the office to fill which each person was voted for; (d) the number of votes given in each precinct to each of said persons; (e) the number of votes given in each division for the office of director. The board of directors must declare elected the persons having the highest number of votes given for each office. The secretary must immediately make out and deliver to each of such persons a certificate of election, signed by him and authenticated with the seal of the board.

SEC. 18. The board of directors shall hold regular meetings in their office on the first Tuesday in March, June, September and December, and such special meetings as may be required for the proper transaction of business. Special meetings may be ordered by the president or by a majority of the members of the board, specifying in writing the business to be transacted, which call for such special meeting shall be entered in the minutes of the board. Three days' notice to any member not joining in the order must be given by the secretary, by mailing same to him at his last address, and only the business specified in the order must be transacted at such special meeting. All meetings of the board must be public, and a majority of members shall constitute a quorum for the transaction of business. A minute of all proceedings of the board shall be kept by the secretary, and all records of the board shall be open to public inspection during business hours. The board of directors shall, on the first Tuesday in March of each year, make and render a verified statement of the financial condition of the district, showing particularly the receipts and disbursements of the last preceding year, together with the source of such receipts and purpose of such disbursements. Such statement shall be placed on file in the office of the district and be opened to public inspection during office hours.

SEC. 19. The board of directors shall have the power and it shall be its duty to manage and conduct the business and affairs of the district; to make and execute all necessary contracts; to adopt a seal for the district to be used in the attestation of proper documents; to provide for the payment, from the proper fund, of all the debts and just claims against the district; to cause such work to be done and to acquire such property as it shall deem necessary or advisable to accomplish the purposes of the district, and to estimate the cost thereof, together with rights of way for the purpose of ingress to and egress from the works of the district; to appoint and employ such engineer or engineers and such attorney or attorneys as the board may deem necessary or advisable to accomplish the purposes of the district; to employ and hire such men, teams, tools, implements, machinery and equipment as the board of directors may deem expedient or advisable to perform the work which it shall deem necessary or advisable to accomplish the purposes of the district; and generally may perform all acts as shall be necessary to fully carry out the purposes of this act.

Provided, however, that the powers of this act vested in the board of directors are vested subject to the conditions, restrictions and limitations imposed by the act of the State of California creating the water commission of the state, and subject to the powers therein vested in the said water commission.

SEC. 20. In addition to those herein conferred, the district through its board of directors may exercise the following powers:

(a) The board of directors of the district, whenever it may deem it to be to the advantage of the district so to do, may enter into contracts with municipalities, sanitary districts or other incorporated bodies, either within or without the district, providing for the delivery to the district of sewage and or storm water produced by or coming from such incorporated bodies, and to treat, purify and reclaim the same for beneficial use, and to store, distribute, sell or otherwise dispose of the water and by-products resulting from such treatment, purification or reclamation. The district may construct and operate the works necessary therefor, and may acquire and/or construct and maintain pipe lines, flumes, ditches and reservoirs suitable or adaptable for the prevention of the wastage of water. Whenever the district shall receive a revenue from the sale of water and by-products in excess of the cost of operating and maintaining the works herein authorized, it may, for the purpose of enlarging, extending or improving such works, issue its certificates of indebtedness payable out of such excess revenues, and pledge the same for the payment of the indebtedness so created.

(b) The board of directors of the district may enter into contracts with municipalities, water districts, counties, cities and counties, the State of California, or the government of the United States, under such terms as may be mutually advantageous, for the acquisition and/or construction of the works authorized by this act to be acquired or constructed, and each of the parties to such contract may contribute to the cost of such acquisition and/or construction such sums of money as may be therein agreed upon. Such contracts shall provide for the operation and maintenance of the property thus acquired and for the distribution and sale of any water that may be stored or controlled by the parties thereto. Any surplus revenue derived from such sale, after paying the cost of the operation and maintenance of the property, may be distributed to the parties to the contract in such proportions as may be agreed upon, or used for extensions and improvements.

SEC. 21. No claim shall be paid by the treasurer until allowed by the board of directors, and only upon a warrant of the county auditor drawn upon an order signed by the president and countersigned by the secretary of the board of directors.

SEC. 22. Each member of the board of directors shall receive ten dollars for each day's attendance at the meetings of the board and actual and necessary expenses and a per diem not exceeding ten dollars per day, while engaged in official business under the order of the board.

SEC. 23. No director or any other officer named in this act shall in any manner be interested, directly or indirectly, in any contract awarded or to be awarded by the board of directors, or in the profits to be derived therefrom; and for any violation of this provision, such officer shall be deemed guilty of a misdemeanor, and such conviction shall work a forfeiture of his office, and he shall be punished by a fine not exceeding five hundred dollars or by imprisonment in the county jail not exceeding six months, or by both such fine and imprisonment.

SEC. 24. The board of directors shall have no power, except as herein provided as to certificates of indebtedness, special assessments, and the issuance of bonds by the district, to incur any debt or liability whatever, in excess of the express provisions of this act; and any debt or liability incurred in excess of said express provisions, except as to certificates of indebtedness, special assessments, and the issuance of bonds, shall be and remain absolutely void; except that for the purposes of organization, or for any of the purposes of this act, the board of directors may incur, before the collection of the first assessment, an indebtedness not exceeding in the aggregate an amount equivalent of twenty-five (25) cents for each acre of land in the district, and it may cause warrants of the district to issue therefor bearing interest at seven per cent (7%) per annum from date of issue until the treasurer shall have available funds for the payment thereof. The expenses of organization, including the fees of attorneys and others employed to conduct the organization proceedings, shall be deemed to be a charge upon the district, and be payable by the district.

SEC. 25. The board of directors, when it deems it advisable or for the best interests of the district and for the convenience of the electors thereof, may at any time, but not less than sixty days before an election to be held in the district, change the boundaries of the divisions of the district; *provided,* such changes shall be made to keep each division as nearly equal in area as may be practicable. Such changes of boundaries of the divisions must be shown on the minutes of the board. Before any such change of the boundaries of the divisions shall be made, the board of directors shall give notice of its intention to make a change or changes therein. Such notice shall specify, in a general way, the changes which the board proposes to make and a time and place at which any owner of land in the district may appear before the board and object to the making of the proposed change or changes, or

petition that a change be made otherwise than as proposed, and at which the board will hear any such objection or petition. Such notice shall be published at least once a week for two weeks, before the time appointed for the hearing, in some newspaper or newspapers published in each of the counties in which any part of the district is situated. At the time and place appointed for such hearing, or at the time and place to which such hearing may be adjourned, the board shall hear all such objections and petitions which may be presented to the board, and, thereupon, the board may make such change or changes in the boundaries of the divisions as it may determine to be for the best interests of the district.

SEC. 26. In case of condemnation proceedings, the board shall proceed in the name of the district, under the provisions of title seven, part three, of the Code of Civil Procedure of this state, which said provisions are hereby made applicable for that purpose, and it is hereby declared that the use of the property which may be condemned, taken or appropriated under the provisions of this act, is a public use, subject to regulation and control of the state in the manner prescribed by law.

SEC. 27. The legal title to all property acquired by the district under the provisions of this act shall immediately and by operation of law vest in such district, and shall be held by such district in trust for and as hereby dedicated and set apart for the uses and purposes set forth in this act. And said board is hereby authorized and empowered to hold, use, acquire, manage, occupy and possess said property as herein provided. The said board is hereby authorized and empowered to take conveyances or other assurances for all property acquired by it under the provisions of this act, in the name of such water conservation district, to and for the uses and purposes herein expressed, and to institute and maintain any and all actions and proceedings, suits at law or in equity, necessary or proper in order to fully carry out the provisions of this act, or to enforce, maintain, protect or preserve any and all rights, privileges and immunities created by this act, or acquired in pursuance thereof. And in all courts, actions, suits or proceedings the said board may sue, appear and defend in person or by attorneys, and in the name of such water conservation district.

SEC. 28. The board of directors must, on or before the fifteenth day of August of each year, furnish the board of supervisors and the auditor of the county wherein the district is situated, or if such district is not entirely within one county, then, as hereinafter provided, to the supervisors and auditors of each county in which any portion of the district is situated, an estimate in writing of the amount of money needed for the purposes of the district for the ensuing fiscal year. This amount must be sufficient to raise a sum of money which shall be sufficient to pay the incidental expenses of the district, and the costs of the work of spreading and sinking waters which the board of directors may deem advisable to be done during the ensuing year; the estimated cost of repairs to and maintenance of any property or works of the district, the estimated amount necessary for the payment of the costs of any action or proceeding which may be taken by the district, including the cost of employment of attorneys and engineers; and if bonds have been voted by the district the board of directors shall include in said estimate an amount sufficient to raise the interest due or that will become due on all outstanding bonds of the district on the first day of the next ensuing January, and the first day of the next ensuing July, or that the board of directors believes will become due on either or both of said dates on bonds authorized but not sold; also sufficient to pay the principal of all bonds of the district that have matured or that will mature before the close of the next ensuing calendar year; and also if said district shall have voted a special assessment as provided in section 35 hereof, the board shall include in said estimate the amount of the installment of said special assessment to be levied each year; and such estimates may also include such an amount as the board of directors may deem advisable to expend in the acquisition or construction of settling basins, wells, and other works for the storing, spreading and sinking of waters, together with necessary rights of way for use of same; *provided, however*, that if at the time of making said estimates herein referred to the district shall not have voted a special assessment as provided for in section 35 hereof and said district shall not have voted bonds as in this act provided, then the assessment levied during any year for the raising of said funds shall not exceed one and one-half ($1\frac{1}{2}$) mills on each one hundred cents of the assessed values of the lands within the district, according to the last assessment rolls, but if a special assessment has been voted or if bonds have been voted by the district then the assessment for the payment thereof shall be in excess of the one and one-half ($1\frac{1}{2}$) mills on each one hundred cents of the assessed values of the lands within the district.

SEC. 29. When a district is in more than one county the total estimate as provided for in the preceding section shall be divided by the board of directors in proportion to the value of the land of the district in each county. This value must be determined from the equalized values of the last assessment rolls of such counties, as revised by said board of supervisors. When such division of the estimate has been made, the board shall furnish the supervisors and auditors of the respective counties a written statement of the part of the estimate apportioned to that county.

SEC. 30. The board of supervisors of each county wherein is situated a district, or any part thereof, organized under the provisions of this act, must, annually, at the time of levying county taxes, levy an assessment to be known as the "-----" (name

of district) water conservation district assessment," sufficient to raise the amount reported to them as herein provided by the board of directors. The supervisors must determine the rate of such assessment by deducting fifteen per cent for anticipated delinquencies from the total assessed value of the land in the district within the county, as it appears on the assessment roll of the county, and then dividing the sum reported by the board of directors, as required to be raised, by the remainder of such total assessed value; *provided*, that if a fraction of a cent occur on a valuation of one hundred dollars, it shall be taken as a full cent.

SEC. 31. The assessment so levied shall be computed and entered on the assessment roll by the county auditor, and if the supervisors fail to levy the assessment provided in the preceding section, then the auditor must do so. Such assessment shall be collected at the same time and in the same manner as state and county taxes, and when collected shall be paid into the county treasury for the use of said district.

SEC. 32. The provisions of the Political Code of this state, prescribing the manner of levying and collecting assessments and the duties of the several county officers with respect thereto, are, so far as they are applicable and not in conflict with the specific provisions of this act, hereby adopted and made a part hereof. Said officers shall be liable upon their several official bonds for the faithful discharge of the duties imposed upon them by this act.

SEC. 33. If the district is in more than one county, the treasury of the county where the district was organized shall be the repository of all the funds of the district. For this purpose, the treasurers of any other counties wherein is situated a portion of said district, must, at any time, not oftener than twice a year, upon the order of the board of directors, settle with said board and pay over to the treasurer of the county where the district was organized all moneys in their possession belonging to the district. Said last named treasurer is authorized and required to receive and receipt for the same, and to place the same to the credit of the district. He shall be responsible upon his official bond for the safe keeping and disbursement, in the manner herein provided, of these and all moneys of the district held by him.

SEC. 34. The treasurer shall pay out the moneys of the district only upon warrants of the county auditor, drawn upon order of the board of directors signed by the president and attested by the secretary. Upon presentation of any matured bond, or any matured interest coupon on any bond of the district, the treasurer shall pay the same from the bond fund. If funds are not available for the payment of any such matured bond or interest coupon, it shall draw interest at the rate of seven per cent per annum from the date of its presentation for payment until notice is given that funds are available for its payment, and it shall be stamped and provision made for its payment as in the case of a warrant for the payment of which funds are not available on its presentation. The treasurer shall report in writing at each regular meeting of the board of directors and as often thereafter as requested by the board the amount of money on hand, the amount of receipts since his last report, and the amounts paid out; such reports shall be verified and filed with the secretary of the board.

SEC. 35. The board of directors may at any time call an election and submit to the qualified electors of the district the question whether a special assessment shall be levied for the purpose of raising money to be applied to any of the purposes of this act or of any act supplementary hereto. Such election must be called upon the notice prescribed, and the same shall be held and the result thereof determined and declared in all respects in conformity with the provisions of section 6 of this act. The notice must specify the amount of money proposed to be raised, and the purpose or purposes for which it is intended to be used, and it may state that said assessment shall be levied in two, three or four annual installments and specify the amount of the installment to be levied in each year. At the election the ballots shall contain the words "Assessment—yes" or "Assessment—no," or words equivalent thereto. If a majority of the votes cast are "Assessment—yes," the board of directors shall at the time of the annual estimate under section 27 hereof, include in said estimate the amount voted, or if the notice of election shall have provided for levying said assessment in annual installments, the board of directors shall, at the time of the annual estimate in each of the years specified in said notice include in said estimate the amount of the installment provided in said notice to be raised in said year. Said special assessment shall be levied as generally provided by sections 29, 30, 31 and 32 of this act and when collected shall be paid to the treasurer of the county in which the district was organized for the purpose or purposes specified in the notice or notices calling the respective elections at which they were voted.

SEC. 36. The district may incur a bonded indebtedness for any purpose for which the board of directors is authorized to expend the funds of the district in the manner in this act set forth.

The board of directors, whenever the interest of the district shall require, may cause a report to be made to the effect that the acquisition of certain property or works or the construction of such works is convenient or necessary to serve or fulfill the purpose for which the district was created and that the cost of such property or works can not be paid for out of the annual revenue of the district. Such report shall be in such detail and be accompanied by such exhibits as will disclose the purpose sought to be accomplished and the means to be employed therefor. Such report shall be printed in convenient form for distribution to the electors of the district.

After the printing of said report the board of directors by resolution adopted by a majority of the members of the board may call an election to be held in the district for the purpose of authorizing the incurring of a bonded indebtedness by the district. Such resolution shall specify the purpose for which the indebtedness is to be incurred, the amount of bonds which it is proposed shall be issued, the rate of interest and the number of years, not exceeding twenty, the whole or any part of said bonds are to run until maturity. It shall further provide for submitting the question of the incurring of such indebtedness to the qualified electors of the district at an election called for that purpose, and the words to appear upon the ballot shall be "Bonds—yes," and "Bonds—no," or words of similar import, together with a general statement of the amount and purpose of the bonds to be issued. Several propositions may be submitted at the same election. None but qualified electors of the district shall be permitted to vote thereat.

The manner of holding and conducting such election, the selection of officers to conduct the same, the designation of precincts and polling places, the preparation of ballots and the receipt, counting and return of the same, and the canvassing and determining the results thereof shall be as provided for the election of directors as provided in this act as nearly as practicable, and in particulars not so provided shall be in accordance with the general laws of the state relative to elections whereat propositions are submitted and voted upon. In the event that such election has been fairly held and conducted, no informality nor omission to perform a prescribed duty shall be held to invalidate or affect the legality of any bonded debt authorized to be incurred.

If a majority of the votes cast upon the proposition shall have been marked and counted "Bonds—yes" or appear to favor the proposition submitted, then such proposition shall be deemed to have been accepted by the voters and to authorize the incurring of a bonded debt and the issuance of bonds therefor to the amount of and for the purpose stated in the proposition.

Thereafter the board of directors of the district may issue the bonds of the district for the whole or for any part of the amount of the indebtedness so authorized, and may, from time to time, provide for the issuance of such amounts as the necessity therefor shall appear, until the full amount of such bonds authorized shall have been issued. Each separate issue shall be given a serial number or letter.

The board of directors shall, by a resolution adopted by a majority of its members, prescribe the form of the bonds and the form of the coupons attached thereto and fix the time when the whole or any part of the principal shall become due and payable. The payment of the first installment may be deferred for a period not longer than five years from the date of the bond, and not less than five per cent of the principal sum shall be paid each year at and following the date when the first installment becomes due and payable. The bonds shall bear interest at a rate not exceeding six per centum per annum, payable semiannually.

The denomination of the bonds shall be stated in the resolution providing for their issuance, but shall not be less than one hundred nor more than one thousand dollars. The principal and interest shall be payable in gold coin of the United States at the office of the treasurer of the county or such other place as may be designated or at either place at the option of the holder of the bond.

The bonds shall be dated, numbered consecutively, and be signed by the president of the district and attested by the secretary with the official seal of the district. The interest coupons shall bear the actual or facsimile signature of the president of the district.

The bonds as the same shall be issued may be sold at such times and in such amounts as the board of directors shall deem expedient, after a notice inviting bids therefor shall have been given by publication in a newspaper of general circulation published in the district for a period of at least ten days prior to such sale. A certified check payable to the district for at least five per cent of the amount of the bonds offered shall accompany each bid conditioned that the bidder will accept and pay for the bonds bid for if awarded to him, otherwise such check shall be forfeited to the district and the amount thereof paid into the treasury. In case no bids are received the bonds offered may be sold at private sale.

No bonds shall be sold to an amount which, together with the amount of bonds outstanding and unpaid, shall exceed five per cent of the total assessed value of the lands within the district as the same shall appear upon the last assessment rolls of the county or counties within which the district is situated.

The proceeds arising from the sale of bonds shall be paid into the treasury of the district and placed to the credit of a special fund and expended only for the purpose for which the indebtedness was created.

It shall be the duty of the board of supervisors of the county or counties within which the district is situated to provide for the levy and collection of an assessment tax upon the lands within the district as in this act provided sufficient and in season to pay any installment of principal and all interest that may become due during the year following the levy of such assessment tax.

At any time the board of directors may apply to the commission authorized by law to approve bonds of irrigation and other districts for certification as legal investments for savings banks or for other purposes specified in the act creating such commission and when such certification shall have been given, the bonds of the

district shall be acceptable for investment and surety purposes to the same extent as are county or municipal bonds.

SEC. 37. The boundaries of any water conservation district organized or existing under the provisions of this act may be changed to include additional land within such district as hereinafter in this act provided, and the inclusion within any district of any land not contiguous thereto shall be deemed to effect a change of the boundaries of said district; but no change in the boundaries of any district shall impair or affect its organization or its right in or to property or any of its rights or privileges of whatsoever kind or nature, nor shall it affect, impair, or discharge any contract, obligation, lien or charge for or upon which it was or might become liable or chargeable had such change of its boundaries not been made.

SEC. 38. The holder or holders of title, or evidence of title, or a majority of the holders of title, or evidence of title of, to any tract of land may file in the office of the board of directors of any water conservation district a petition praying that said tract of land be included within said district; *provided*, that if there is more than one holder of title or evidence of title of said land, the petitioners must include the holders of the title or evidence of title of at least one half of the area of said land. If any petitioner is the owner of an undivided interest in said land, or any of it, he shall be deemed to be the owner of such proportion of the area of the land in which he has an interest as his interest bears to the whole of such land. Each signature to such petition shall be acknowledged or proved as provided by law to signatures to an instrument to entitle it to be recorded.

SEC. 39. The secretary of the board of directors shall cause a notice of the filing of said petition to be given and published in the same manner and for the same time as notices of elections for the issuance of bonds are required in this act to be given and published. The notice shall state the purpose of the petition and describe the boundaries of the tract of land proposed to be included and give the names of the petitioners, and it shall notify all persons interested in or that may be affected by the proposed inclusion of said land within the district to appear at the office of said board at a time named in said notice for the hearing of said petition and objections thereto and show cause in writing, if any they have, why said land or any of it should not be included as proposed in said petition. The time to be specified in the notice for the hearing of said petition and any objections thereto shall be the regular meeting of the board next after the expiration of the time for the publication of said notice. The petitioners shall advance to the secretary sufficient money to pay for the publication of said notice, which shall be refunded to said petitioners in case said petition is granted in whole or in part.

SEC. 40. The board of directors at the time and place mentioned in said notice, or at such other time or times to which the hearing of said petition may be postponed, shall proceed to hear the petition and all the objections thereto presented in writing by any person showing cause as aforesaid why said proposed change of boundaries of the district should not be made. The failure by any person interested in said district or in the matter of the proposed change of its boundaries, to show cause in writing as aforesaid, shall be deemed and taken as an assent on his part to a change of the boundaries of the district as prayed for in said petition, or to such a change thereto as will include a part of said lands. The filing of such petition with said board as aforesaid shall be deemed and taken as an assent on the part of each and all of such petitioners to such a change of said boundaries as may include the whole or any portion of the lands described in said petition.

SEC. 41. The board of directors to whom such petition is presented may require, as a condition precedent to the granting of the same, that the petitioners shall severally pay to such district such respective sums, as nearly as the same can be estimated, (taxes and amounts to be determined by the board), as said petitioners or their grantors would have been required to pay to such district as assessments had such lands been included in such district at the time the same was originally formed.

SEC. 42. If the board of directors, after the hearing provided for in section 40 hereof, shall determine that said petition complies with the requirements of section 38 hereof and that the inclusion within the district of the tract of land described in said petition, or some portion or portions thereof, will be for the best interests of the district and if no protest against the inclusion of such land is made as provided in section 43 hereof, or if such protest be made and enough signatures be withdrawn therefrom so that said protest is no longer sufficient, the board shall order the boundaries of the district to be changed so that said tract of land, or such portion or portions thereof as the board shall deem it for the best interests of the district to include, shall be included in the district, and if the board determines that only a portion or certain portions of the tract of land described in said petition should be included said petition shall be dismissed unless the petitioners include a majority of the holders of title or evidence of title of said portion, or of each of said portions, of said tract, representing also at least one-half the area of said portion, or of each of said portions, or unless, within sixty days from the time such determination is made, there shall be filed with the board the consent in writing, acknowledged or proved as required in section 38 hereof, of a majority of the holders of title or evidence of title of said portion, or of each of said portions, of said tract of land, representing also at least one-half of the area of said portion or each of said portions. The order shall describe the boundaries of the land so included within the district.

and if said land adjoins any portion of the district the order shall also describe that portion of the boundary of the district which coincides with the boundary of the land so included, and for the purposes of said order the board may cause a survey to be made of such portions of said boundaries as may be deemed necessary. If more than one petition for the inclusion of land has been presented, the board may in one order include within the district any number of separate tracts of land. Any public land of the United States of America may be included within any water conservation district by such order of the board of directors on any petition therefor, except as may be provided otherwise, by the laws of the United States.

SEC. 43. If a protest against the inclusion of such lands, signed by not less than three per cent of the holders of title of evidence of titles to lands within the district, and holding the title or evidence of title to not less than three per cent in value of the lands within the district according to the last equalized assessment roll of the county within which said lands are situated, shall have been presented to the board of directors and upon the hearing of said matter said protest shall not be withdrawn, or after the withdrawal therefrom of any signatures it shall still be signed by not less than three per cent of the holders of title or evidence of title to lands within the district and holding the title or evidence of title to not less than three per cent in value of the lands within the district according to the last equalized assessment roll of said county within which said lands are situated, or if the board of directors deem it not for the best interests of the district to include therein the lands described in said petition for inclusion, or any of them, the board shall adopt a resolution stating the facts and describing the boundaries of the tract of land proposed to be included in the district; but before calling the election provided for in the next section the board may require an undertaking, with sufficient sureties from the petitioners for the inclusion of said land conditioned that the petitioners or the sureties will pay all the costs of holding such election in case such inclusion shall be denied.

SEC. 44. Upon the adoption of the resolution mentioned in the last preceding section, the board shall order that an election be held within said district, to determine whether the boundaries shall be changed as mentioned in said resolution; and shall fix the time at which such election shall be held, and cause notice thereof to be given and published. Such notice shall be given and published, and such election shall be held and conducted, the returns thereof shall be made and canvassed, and the result of the election ascertained and declared, and all things pertaining thereto conducted, in the manner prescribed by said act in case of a special election to determine whether bonds of a water conservation district shall be issued. The ballots cast at such election shall contain the words "for change of boundaries," or "against change of boundaries," or words equivalent thereto. The notice of election shall describe the proposed change of the boundaries in such manner and terms that it can readily be traced.

SEC. 45. If a majority of all the votes cast at such election shall be against such change of the boundaries of the district the board shall order that said petition be denied, and shall proceed no further in said matter. But if a majority of such votes be in favor of such change of the boundaries of the district, the board shall thereupon order that the boundaries be changed in accordance with said resolution adopted by the board. The said order shall describe the entire boundaries of said district and for that purpose the board shall cause a survey of such portions thereof to be made as the board may deem necessary.

SEC. 46. Upon a change of the boundaries of a district being made, a copy of the order of the board of directors ordering such change, certified by the president and secretary of the board, shall be filed for record in the recorder's office of each county within which are situated any of the lands of the district, and thereupon the district shall be and remain a water conservation district, as fully and to every intent and purpose as if the lands which are included in the district by the change of the boundaries, as aforesaid, had been included therein at the original organization of the district.

SEC. 47. Upon the filing of the copies of the order, as in the last preceding section mentioned, the secretary shall record in the minutes of the board the petition aforesaid; and said minutes, or a certified copy thereof, shall be admissible in evidence with the same effect as the petition.

SEC. 48. A guardian, executor or administrator of an estate, who is appointed as such under the laws of this state, and who, as such guardian, executor or administrator, is entitled to the possession of the lands belonging to the estate which he represents, may, on behalf of his ward or the estate which he represents, upon being thereunto authorized by the proper court, sign and acknowledge the petition in this act mentioned, and may show cause, as in this act mentioned why the boundaries of the district should not be changed.

SEC. 49. In case land is included within any district as aforesaid, the board of directors thereof shall, but not less than thirty days before any election in such district, reestablish the boundaries of the divisions and election precincts within such district, so as to include such lands therein and so as to make such divisions as nearly equal in area as may be practicable. In case of the inclusion of any land less than thirty days before an election within such district, the inhabitants of the land so included shall not be entitled to vote at such election.

SEC. 50. Any such district may be dissolved by the board of supervisors in the county in which it is organized in the manner following: Upon receiving a petition signed by ten per cent of the electors of the district, or by the owners of one-half of the lands comprising the district, requesting the dissolution of the district, the board of supervisors shall publish a notice once a week for two weeks in some newspaper in the county in which the district was organized, and also in each county in which any part of the district lies, giving notice that such petition has been filed with said board of supervisors, and that the board will hear said petition, and all objections thereto, at the next regular meeting of said board after the expiration of the time of publishing said notice (specifying the date), and directing all persons interested therein to show cause at such time, if any they have, why such district should not be dissolved. At the time appointed for such hearing, or at any time to which the same may be adjourned, the board of supervisors shall hear and pass upon said petition, and may grant or deny the same, and, if its decision shall be against the dissolution of the district, such decision shall be final and conclusive.

If such petition be granted, the board of supervisors shall, by resolution, provide for and order the holding of a special election in such district, and shall submit to the qualified electors of the district the proposition whether or not the district shall be dissolved. The resolution shall recite the filing of the petition for dissolution, and the approval of the same by the board of supervisors, and fix a time for the holding of such election. Such election shall be noticed, conducted, and the returns thereof made and canvassed, in the same manner as is provided in this act for the election upon the question whether or not the district should be organized, excepting that the ballots to be used at said election shall contain the words, "Dissolution of district—yes" or "Dissolution of district—no," or words equivalent thereto. If votes representing sixty per cent of the total number of votes cast are cast in favor of the dissolution of such district, then the board of supervisors shall enter an order to that effect upon its minutes, declaring such district dissolved, and upon the entry of such order said district shall be dissolved; *provided, however*, if there shall be any outstanding indebtedness of such district, at the time of the dissolution thereof, the board of supervisors shall levy assessments for the payment of such indebtedness in like manner as though such district had not been dissolved, until all such indebtedness shall be fully paid, and shall cause such obligations to be paid according to their tenor out of the moneys raised from such assessments.

Upon the dissolution of any such district, any and all real property belonging to the district, shall become and be the property of the county in which the same is situate; and the personal property belonging to the district shall be sold by the board of supervisors of the county in which the district was organized, and the proceeds from such sale, together with all moneys of the district, remaining after the payment of all of the obligations of the district, shall be paid into the general funds of the counties in which any part of the district lies in the same proportions that the assessed values of the lands (according to the last assessment rolls) within the district in each of said counties bear one to the other.

SEC. 51. This act shall be liberally construed to carry out the purposes and intent hereof.

SEC. 52. In case any section or sections, or a part of any section, of this act shall be found to be unconstitutional, the remainder of the act shall not be invalidated thereby, but shall remain in full force and effect.

SEC. 53. This act shall not be construed as repealing the existing conservancy act of California, approved May 16, 1919, or any part thereof or any other existing law of this state, but shall be treated as, and shall be in effect, an alternative act thereto.

SEC. 54. It is hereby declared that this act is a reenactment of chapter 166 of the statutes of 1929, and known as the "Water conservation act of 1929," and is to be construed as a continuation of said act.

All water conservation water districts that have been organized after an election has been held pursuant to said statute and declared to have been organized in accordance with its provisions are hereby declared to have been duly and legally organized and all proceedings relative thereto are hereby validated and confirmed. Such districts shall continue to exist and exercise and enjoy all the powers, rights and privileges conferred by this act."

CONSIDERATION OF COMMITTEE AMENDMENTS.

Pursuant to the report of the Committee on Judiciary, the following amendments to Senate Bill No. 91 were read and adopted:

AMENDMENT NUMBER ONE.

Strike out the title of the printed bill, and insert in lieu thereof the following: "An act to amend section 763 of the Code of Civil Procedure, relating to partition."

AMENDMENT NUMBER TWO.

On page 1 of the printed bill, strike out lines 1 to 22, inclusive, and insert in lieu thereof the following:

"SECTION 1. Section 763 of the Code of Civil Procedure is hereby amended to read as follows:

763. If it appears by the evidence, whether alleged in the complaint or not, that the property or any part of it is so situated that partition can not be made without great prejudice to the owners, or where property is subject to a life estate and the remainder is a contingent remainder, the court may and in the latter case must order the sale thereof; otherwise, upon the requisite proofs being made it must order a partition according to the respective rights of the parties as ascertained by the court, and appoint three referees therefor, and must designate the portion to remain undivided for the owners whose interests remain unknown, or are not ascertained; or the court, with the consent of the parties, may appoint one referee instead of three, and he when appointed, has all the powers and may perform all the duties required of three referees; and the court must appoint as referee any person or persons to whose appointment all the parties have consented, and no person shall be appointed as referee who is disqualified from acting as an appraiser under the provisions of the Probate Code.

When the site of an incorporated city or town is included within the exterior boundaries of the property to be partitioned, the court must direct the referees to survey and appraise the entire property to be partitioned by actual lots and subdivisions then existing in the actual possession of the several tenants in common, exclusive of the value of improvements thereon, first setting apart necessary portions of the property for ways, roads and streets, as in section 764 provided, and to report such survey and separate appraisement on each lot and subdivision to the court.

The court may confirm, change, modify, or set aside the report in whole or in part, and if necessary appoint new referees.

When, after the final confirmation of the report of such survey and appraisement, it appears by evidence to the satisfaction of the court that an equitable partition of the whole property is impracticable, and a sale of the site of such city or town, or any portion thereof, will be for the best interests of the owners of the whole property, it must order a sale thereof; *provided*, that within sixty days thereafter any tenant in common or tenants in common, having improvements erected on any town or city lot or subdivision included in such order of sale, shall have the prior right to purchase the same at such appraised valuation, and may pay into court the amount so appraised as the value thereof, and upon such payment the title shall vest in such purchaser or purchasers, and the court shall cause to be executed by such referees a deed for such lot or subdivision in fee and in severalty to such purchaser or purchasers; such further proceedings shall then be had as to the remainder of the property, and the money so paid to the court, as by this chapter provided.

If, during the pendency of this section, any of the parties die, or become insane, or otherwise incompetent, the proceedings shall not for that cause be delayed or suspended, but the attorney who has appeared for such party may continue to represent such interest; and in case any such party has not appeared by an attorney, the court must appoint an attorney to represent the interest which was held by such party, until his heirs or legal representatives, or successors in interest, shall have appeared in the action; and an attorney so appointed must be allowed by the court a reasonable compensation for his services, which may be taxed as costs against the share or interest represented by such attorney, and may be adjudged a lien thereon in the discretion of the court."

The petition may consist of any number of separate instruments, and must be accompanied with a good and sufficient undertaking, to be

approved by the state engineer, in double the amount of the probable cost of organizing such district as estimated by said state engineer, conditioned that the sureties shall pay all of said costs in case said organization shall not be finally effected, and said state engineer shall have power to require the furnishing of any additional undertaking, or undertakings, or payments of money, in case he should deem the same necessary. Upon the presentation and filing of said petition and undertaking in the office of the said state engineer the said engineer shall forthwith fix a time and place at which he will hear said petition, which place shall be either the office of the state engineer at Sacramento or some place within the county, or one of the counties, within which any portion of the lands of said proposed district are situated and which time shall be not less than thirty nor more than sixty days after the presentation and filing of said petition. Said petition, together with a notice stating the time and place of the hearing so fixed by said engineer, shall be published in each county in which any of the lands of said proposed district are situate by said state engineer once a week for three successive weeks before said hearing. Said notice shall be issued by said state engineer, shall refer to said petition, and shall be directed to the persons named as petitioners therein, and to all other persons holding title or evidence of title to any lands included within the resort district proposed in said petition, and to all other persons who may be interested in or affected by the project contemplated in said petition, and shall be substantially in the following form:

Before the state engineer, State of California.

To the persons named as petitioners in the foregoing petition, to all persons holding title or evidence of title to lands included within the resort district proposed therein; and to all other persons who may be interested in or affected by the project contemplated in said petition:

You, and each of you, are hereby notified that the foregoing petition was filed with the state engineer on the ----- day of -----, -----, and will be heard by said engineer at ----- on the ----- day of -----, -----, at the hour of ----- m. of that day, at which time and place said engineer will hear and receive evidence in support of said petition or any objections which may be presented thereto, and will hear and determine the right of all parties holding title or evidence of title to lands not included in the resort district proposed in said petition, but which lands are already served or susceptible of being served by the same system of improvements or works for either sewage disposal and/or drainage and/or fire protection and/or roads and/or trails as are particularly referred to and described in said petition, to have said lands included in said district.

This notice is given pursuant to the provisions of an act, approved -----, and known as California resort district act, to which said act particular reference is hereby made.

State engineer.

When contained upon more than one instrument one copy only of said petition need be published but the names attached to all said instruments must appear in such publication. Signatures to the petition may be withdrawn at any time before the publication is commenced as in this section required, by filing a declaration signed by the petitioner, with the state engineer, stating that it is the intention of the petitioner to withdraw therefrom, which declaration shall be acknowledged in the same manner as conveyances of real estate are required to be acknowledged.

SEC. 4. At the time and place fixed in said notice the state engineer shall proceed to hear said petition and to determine whether or not the same complies with the requirements hereinbefore set forth and whether or not the notice required herein has been published as required, and must hear all competent and relevant testimony offered in support of or in opposition thereto. Said hearing may be adjourned from time to time for the determination of said facts, not exceeding thirty days in all. No defect in the contents of the petition or in the title to or form of the notice or signatures, and no lack of signatures thereto, or to the petition as published, shall vitiate any proceedings thereon; *provided*, such petition or petitions have a sufficient number of qualified signatures attached thereto. The determination of said engineer shall be expressed by an order establishing the facts. If said state engineer shall determine that any of the requirements hereinbefore set forth have not been complied with the matter shall be dismissed, but without prejudice to the right of the proper number of persons to present a new petition covering the same matter or to present the same petition with additional signatures, if such additional signatures are necessary to comply with the requirements of this act. If the state engineer shall determine that all the said requirements have been complied with the said engineer shall forthwith proceed to hear said petition and all evidence offered in support of the petition and in support of said written objections, and the written application of any holder of title or evidence of title to lands included in said proposed resort district, to have said lands excluded therefrom, and to also receive the written application of the holder of title or evidence of title to other lands already served or susceptible of being served by the same system of improvements or works for either sewage disposal and/or

drainage and/or fire protection and/or roads and/or trails in said petition more particularly referred to and described, to have said lands included in said district and to participate in the benefits of such resort district. Said engineer shall ascertain and determine the practicability, feasibility, and utility of the proposed project set forth in said petition, and for that purpose may make, or cause to be made, all necessary studies, examinations, surveys, plans, and estimates of cost, and in connection therewith said state engineer may employ all necessary engineers, attorneys, and other assistants, or acquire and use estimates, surveys, and reports theretofore made, for the accomplishment of said purposes, and the cost thereof shall not in the aggregate exceed a sum in dollars equal in amount to one-fourth the number of acres in such proposed district and shall be deemed a part of the expense of said project, and said state engineer shall issue warrants therefor, which warrants shall be considered and treated in all respects as warrants of the district and which shall be payable out of the funds of said district when the organization thereof has been completed, and the same, if necessary, may be included in any bond issue authorized for the purposes of said district. If said district shall, as a result of any election hereinafter provided for, be not organized, any warrants so issued by said state engineer shall be a charge upon the undertaking, or undertakings, hereinbefore and in section 3 of this act provided for, and shall thereupon become due and payable by the sureties therein named, and the holders of said warrants shall have a cause of action against said sureties thereon.

SEC. 5. Upon the final hearing of said petition the state engineer shall make an order reaffirming his conclusions as to the genuineness and sufficiency of the petition, affirming the regularity and sufficiency of the notice of hearing thereon, and determining the practicability, feasibility and utility of the proposed project. The said engineer shall also in his said order establish the boundaries of the proposed district or describe the lands included therein, and provide an estimate of the probable cost of the proposed project. The order of said state engineer, made as in this section provided, shall be signed by him and entered in full upon the records kept by him. A copy of such order certified by said state engineer, together with a map showing the exterior boundaries of the district and indicating the lands if any excluded therefrom, shall forthwith be filed for record in the office of the county recorder of each county in which any of the lands within the said district are situated. The finding of said state engineer in favor of the genuineness and sufficiency of the petition and the regularity and sufficiency of the notice of hearing thereon shall be final and conclusive against all persons except the State of California upon suit commenced by the attorney general. Any such suit must be commenced within ninety days after the date of first filing in the office of any county recorder of such certified copy of said order as hereinabove required.

SEC. 6. Said state engineer shall, within sixty days after the filing of said order, give notice of an election to be held in the proposed district for the purpose of determining whether or not the same shall be organized under the provisions of this act. Such notice shall describe the boundaries so established, or the lands so included, and shall designate a name for the proposed district, and said notice shall be published once a week for at least three weeks previous to such election in each county in which any land in the proposed district is situated. Such notice shall require ballots to be cast which shall contain the words "Resort district—yes" or "Resort district—no," or words equivalent thereto, and also the names of persons to be voted for at said election. For the purposes of said election the state engineer must in his order designate voting place or places and appoint three landholders of the district to act as a board of election at each voting place. Such election shall be conducted as nearly as practicable in accordance with the general resort district election as in this act provided, but no particular form of ballot shall be required. Nominating petitions for officers to be elected at such election shall be filed as provided in section 37 of this act except that the same shall be filed in the office of the state engineer.

SEC. 7. At such election there shall be elected a board of seven directors. Said officers shall qualify in the same manner as is provided for the qualification of the same officers elected at a general resort district election as hereinafter in this act provided.

SEC. 8. Only the holders of title or evidence of title to lands situated within the district shall be entitled to vote at such election, and every such holder of title or evidence of title shall be entitled to vote, in person or as hereinafter provided, and to cast one vote for each one hundred dollars, or fraction thereof, worth of land in said district so owned by him. Each male or female voter over the age of twenty-one years shall be entitled to vote in person or by proxy. Any guardian, administrator, or executor of a person or estate owning land within the district shall be considered the holder of title or evidence of title to such lands for the purposes of this act, where the owner in fee is not entitled to vote. Any corporation holding title or evidence of title to lands within the district shall be entitled to vote as such land owner through any officer or agent thereunto duly authorized in writing under the seal of the corporation. Entrymen upon public lands situated within the district shall be considered as the holders of title or evidence of title to such lands for the purposes of this act. No person shall vote by proxy unless his authority to cast such vote shall be evidenced by an instrument in writing duly acknowledged and certified in the same manner as grants of real property and filed with the board of

election. The provisions of this act relating to general elections shall, except as herein otherwise specifically provided, apply to elections on organization of any resort district under this act.

SEC. 9. The state engineer shall on the second Monday succeeding such election proceed to canvass the votes cast thereat and if upon such canvass it appears that a majority of all the votes cast are "Resort district—yes" said engineer shall, by an order entered in the records kept by him, declare the territory duly organized as a resort district under the name theretofore designated, and shall declare the candidates for directors receiving at such election the highest number of votes to be duly elected directors. If upon such canvass it appears that a majority of all the votes cast are "Resort district—no," then the result of such election shall be declared accordingly and entered of record in the records kept by the state engineer.

SEC. 10. If such order on election shall declare the territory duly organized as a resort district the said state engineer shall forthwith cause a copy of such order, duly certified, to be filed for record in the office of the county recorder of each county in which any portion of the lands embraced in such district is situated, and from and after such filing the organization of such district shall be complete and said district shall have the powers and rights conferred upon it by the provisions of this act. Said state engineer shall at the same time issue certificates of election to the persons declared in said order to be elected directors.

SEC. 11. The directors elected at such election after qualifying by receiving their certificates of election and subscribing the official oath and giving the required bonds, shall immediately enter upon their duties and shall hold office, respectively, until their successors are elected and qualified.

SEC. 12. The directors shall on the first Tuesday after their election and qualification meet and organize as a board and select and designate an office of the board, which shall also be the office of the district, at which the board shall thereafter hold its meetings. The board shall elect a president from their number and shall appoint a secretary and treasurer, each of whom shall hold office during the pleasure of the board. The amount of the bond to be given by the secretary for the faithful performance of his duties shall be fixed by the board.

The office of the board and its place of meetings may be changed by a majority vote of the board of directors, but no such change shall become effective until after the resolution making such change shall be published once a week for two successive weeks in the county in which the office of the board of directors has theretofore been located.

SEC. 13. The board of directors shall thereafter hold regular meetings on the first Tuesday of each month at the place selected as the office of the board. Special meetings of the board of directors may be held as may be required for the proper transaction of the business of the district, but a special meeting must be ordered by a majority of the board. The order must be entered of record, and five days notice thereof must be given by the secretary to each director not joining in the order. The order must specify the business to be transacted, and no other business than that specified in the order may be transacted at such special meeting, unless all the members are present and consent to the consideration of any business not specified in said order. All meetings of the board must be public and a majority shall constitute a quorum for the transaction of business. A smaller number of directors than a quorum may adjourn from day to day. All records of the board shall be open to public inspection during business hours.

SEC. 14. The board of directors shall have in addition to the powers and authority hereinbefore and hereinafter conferred upon it, such further powers and authority as may be necessary to enable it to fully perform the duties imposed upon it by this act.

SEC. 15. The board of directors must and shall at its first regular meeting or within ninety (90) days thereafter levy an assessment of an equal amount upon each acre or parcel of land in said district sufficient to pay all warrants issued by the state engineer, in accordance with the provisions of this act, and to defray all other expenses as estimated by the board, incurred and to be incurred for the general benefit of the district up to the time of the levy of the assessment provided for in section 18 of this act, including expenses incurred prior to the organization of the district, but in the judgment of the board properly incurred for the general benefit of the district, the amounts required to be raised to pay warrants of the state engineer and to pay such expenses to be separately stated in the resolution levying the assessment. In the event the assessment so levied for such purposes shall not be sufficient for the same, it shall be the duty of the board of directors from time to time to levy an additional assessment or assessments of the same character for said purposes; *provided, however*, that the total of all such assessments, exclusive of the amount assessed for the purpose of paying warrants of the state engineer, shall not exceed fifty (50) cents per acre, except as hereinafter provided.

If, after the total amount raised by all such assessments shall have been expended or its expenditure authorized, such total amount is found to be insufficient to meet all of such expenses of the district, the directors may, in the manner hereafter provided, levy an additional assessment or assessments of like character for such purposes up to an amount not in excess of fifty (50) cents per acre. Before levying

any such additional assessment the board of directors shall pass a resolution declaring its intention so to do and in such resolution shall appoint a time not less than two weeks and not more than four weeks from the passage of such resolution of intention at which the matter of levying such additional assessment will be considered in open meeting. A copy of such resolution of intention shall be published once a week for at least two weeks before the time so appointed in a newspaper of general circulation in each county in which land within the district is located. At the time so appointed the board shall meet and in open meeting consider the matter of levying such additional assessment and hear any objection thereto and at or after such meeting may upon approval of the state engineer levy such additional assessment, if in its judgment the best interests of the district so require. Every assessment levied under this section shall constitute a lien upon the lands affected thereby, until the full amount thereof is paid, which lien shall be prior to all other liens, except state, county and municipal taxes and assessments, or taxes levied or assessed by or under statutory authority, and shall be collected in the same manner as other assessments provided for in this act.

SEC. 16. The board of directors shall upon the organization of a resort district as in this act provided, proceed to make or cause to be made, all such examinations, surveys, detailed plans and specifications, and estimates of costs as may be necessary or requisite to enable said board of directors to ascertain and estimate the requirements and works necessary for the purpose of said resort district, and the probable cost and expense thereof, and to make a report thereof as hereinafter provided, in which connection said board may use and adopt all previous estimates, surveys, reports and other data it may have acquired or which are available to it, adapted to that purpose, and may employ all necessary engineers, attorneys and other assistants for the accomplishment of said purposes, and the cost thereof shall be deemed a part of the expense of said project, and such board may issue warrants therefor, which shall be payable out of the funds of said district and may be included in any bond issue authorized for the purposes of said district.

If the board of directors proposes to acquire any property of any kind or character, or any interest or easement therein for the purposes or use of said resort district by purchase or lease, or in any manner other than by condemnation proceedings, that fact shall be stated in their said report and a true copy or copies of any instrument or instruments evidencing such proposed acquisition of such property, interest or easement therein, or the right to acquire same shall be made a part of said report.

No property of any kind or interest therein belonging to any corporation which is a public utility, shall be acquired by a resort district, nor shall any such properties of a public utility be included in the report of the directors in this paragraph provided for.

Said board of directors may at their option segregate and divide the plans, specifications and estimates of cost into one or more units of construction, and may in said plan provide that one or more individual units of construction shall not be entered upon immediately, but shall be authorized and undertaken in such order and at such future time as the board of directors shall thereafter determine. Upon the completion of said examination and study of the proposed project by the said board of directors, the said board shall prepare and file in the office of the state engineer, and a true copy thereof in the office of the secretary of said board, a report thereof, in which said report shall be set forth in full and in detail the character and nature of the proposed works, a description of the rights to lands it will be necessary to acquire to carry said project to completion, accompanied by detailed plans and specifications, and a detailed estimate of the cost of said project, including the acquisition of all rights, necessary to the completion and operation thereof. The board of directors shall attach to said report a recommendation that said projects shall be carried out in accordance with the plans and specifications in said report contained, or that said project be abandoned. Such report when completed shall be signed by a majority of the board of directors, and entered in full upon the minutes of said board. If said board shall determine to segregate and divide the plans, specifications and estimates into more than one unit of construction, such plans, specifications and estimates shall be complete as to each unit, and the board shall in its report specify the particular unit or units the construction of which shall be immediately entered upon the particular unit or units reserved for future action.

SEC. 17. If the said board of directors recommends that said project be abandoned the state engineer shall make such further investigation of said project as is in his judgment desirable and shall within sixty days after the filing of said report make and enter upon the records kept by him an order either (a) approving and confirming the said report and recommendation and declaring said project abandoned, which said order shall be without prejudice to the presentation of another petition covering the same matter, or (b) approving and adopting the said report but taking no action with respect to the said recommendation, and calling another election to be held in the district for the purpose of determining whether or not the recommendation of said board of directors shall be adopted or rejected. In the event the said order so made and entered by the state engineer shall call an election, said state

engineer shall within thirty days after the entry of said order give notice of such election. Said notice shall be published once a week for at least three weeks previous to such election in each county in which any land in the district is situated. Said notice shall require ballots to be cast, which shall contain the words "Completion of project—yes" or "Completion of project—no." For the purposes of said election the state engineer at the time of calling said election shall in his order designate voting places and appoint three landholders of the district to act as a board of election at each voting place. Such election shall be conducted as nearly as practicable in accordance with the provisions of this act relating to general resort district elections, but no particular form of ballot shall be required. The qualification of voters at said election shall be the same as prescribed for the original election on organization of district, and the votes cast at said election shall be canvassed in the same manner as votes cast at said original election, and the result of such election shall be declared and entered of record in the minutes of the board. If such result shall show more than one-half of all the votes cast are "Completion of project—no," or that more than one-half of the qualified voters who voted at said election voted "Completion of project—no," the state engineer shall make and enter in his records an order declaring said project abandoned, and requiring all persons, except the holders of warrants issued pursuant to the provisions of this act and which have been duly presented for payment, having claims against said district, or proposed district, to file them with the necessary vouchers within three months from the making of said order in the office of said state engineer. Notice of said order requiring presentation of claims stating the time and place thereof shall be published in the county in which the office of the district is located by said state engineer once a week for four successive weeks, the first publication of which said notice shall be made within ten days after the making of said order. After all warrants issued under the provisions of this act which have been duly presented for payment and all claims that have been duly presented and have been allowed and approved by said state engineer or the board of directors of said district, have been paid, said state engineer shall forthwith cause a copy of said order declaring said project abandoned, duly certified by said state engineer, to be filed for record in the office of the county recorder of each county in which any portion of the land embraced in said district is situated, and from and after such filing said district shall be deemed dissolved and all liens which may have attached to any of the lands therein under any provisions of this act shall be discharged and any undertaking given pursuant thereto shall be annulled and of no further effect. If the canvass of the votes cast at such election show more than one-half of all votes cast are "Completion of project—yes" and also shows that more than one-half of the qualified voters who voted at said election voted "Completion of project—yes" said state engineer shall thereupon appoint the commissioners provided for in section 18 of this act and thereafter such proceedings shall be taken and followed as are provided in said section 18 and subsequent sections of this act.

Sec. 18. If the board of directors recommends that said project be carried out in accordance with the plans and specifications in its said report contained, the state engineer shall make such further investigation of such project as is in his judgment desirable and shall as soon as possible after the expiration of sixty days after the filing of said report make and enter upon the records kept by him an order either approving and confirming said report and recommendation or disapproving the same. Pending final approval or disapproval by the state engineer, the board of directors may amend, modify, or supplement their report and the plans, specifications and estimates and other matters accompanying the same, either on their initiative or in response to suggestions by the state engineer.

Immediately after making and recording such order, the state engineer shall call a district election for the purpose of determining whether such recommendation and report shall be adopted, such election to be noticed, held, and conducted and the result thereof determined and declared in all respects as nearly as possible as provided in section 17 of this act, the notice of election to state whether such report and recommendation is approved or disapproved by the state engineer.

If the result of such election shows that more than one-half of all votes cast are "Completion of project—no" or that more than one-half of the qualified voters who voted at said election voted "Completion of project—no," the project shall be deemed abandoned and proceedings shall be thereafter taken as provided in section 17 in case of abandonment. If the result of such election shows a majority of all votes cast are "Completion of project—yes" and also shows that a majority of the qualified voters who voted at said election voted "Completion of project—yes," said report and recommendation shall be deemed to be adopted by the district. In case of the adoption of said report and recommendation the state engineer shall forthwith appoint three (3) commissioners whose duty it shall be to assess the cost of the project, or in the event said board shall have divided the project into units of construction, the cost of the unit or units specified for immediate construction, upon the benefited lands within the district, and the said cost shall be apportioned in accordance with the benefits that will accrue to each tract of land held in separate ownership in said district by reason of the expenditures of said sums of money, and the completion of the project, or such unit or units thereof as have been specified for immediate construction, such assessment to be in gold coin of the United States; and provided, further, that where any such tract of land consists of more than one section such apportionment to such tract of land shall be made according to

legal subdivisions thereof or to other boundaries sufficient to identify the same in subdivisions not greater than one section in area, but any failure or defect in complying with this requirement shall not invalidate said apportionment or said assessment. One of said commissioners shall be a civil engineer, and none of said commissioners shall have any interest in any land in the district either directly or indirectly, and each commissioner before entering upon his duties shall take and subscribe an oath that he is not in any manner interested directly or indirectly in any land in the district and that he will perform the duties of commissioner to the best of his ability, and said commissioners shall be paid as compensation for the services rendered by them such sum, or sums, as the state engineer shall fix and determine, which shall be considered a part of the cost of the project, and said state engineer may issue warrants therefor, which shall be payable out of the funds of said district and may be included in any bond issue authorized for the purposes of said district. The said commissioners shall receive from the board of directors of the district a copy of the detailed plans, specifications, and estimate of the costs of the project, which have been duly filed with the state engineer. The said commissioners shall thereupon prepare and certify to the state engineer in triplicate rolls which shall contain:

(1) A description of each tract held in separate ownership by legal subdivisions, governmental surveys or other boundaries sufficient to identify the same; *provided, however*, that if any area composed of more than one tract held in separate ownership is not assessed because the lands therein will not be benefited by the expenditure of the funds to be raised by the assessment, a description of such area as a whole without a description of each tract thereof shall be sufficient;

(2) The number of acres in each tract;

(3) The name and address of the owner of each tract, if known, and if unknown, that fact, but no mistake or error in the name of the owner or supposed owner of the property assessed, and no mistake in any other particular, shall render the assessment thereof invalid;

(4) The rate per acre of such assessment upon each tract assessed or if no assessment is made upon any tract, or area composed of more than one tract, a statement of that fact;

(5) The total amount of the assessment as computed;

(6) Any other statement which may be required by the state engineer and as to which notice is given in writing to the commissioners at the time of transmitting the plans and specifications and costs of the work for the district before mentioned.

The roll shall be separately made for lands lying within different counties contained within said district. Said rolls when completed shall be accompanied by the written report of the commissioners wherein is set out with particularity the exact nature and quantum of the benefits so assessed. In such report lands embraced within a comprehensive area or a political subdivision of the state may be referred to generally as lands lying within such area or subdivision without further description.

Said rolls when completed shall be duly certified by said commissioners and forthwith by them filed in the office of the state engineer. Said state engineer shall forthwith transmit two copies of said rolls to the board of directors of said district, who shall file one copy in their records and thereupon transmit to the county treasurer of each county within such district that portion of the roll relating to the lands within such county. Thereafter the directors of the resort district in which the lands described in said rolls are situated shall become and constitute a board, in the nature of a board of equalization, which shall be known and designated as the "adjustment board" and whose functions shall be to consider and act upon objections, if any, presented as herein provided to the assessment made by said commissioners. For that purpose said adjustment board shall thereupon appoint times and places not less than thirty days after said rolls have been filed in the records of said board of directors when and where it will meet within each county wherein lands of said district are situated for the purpose of hearing objections to said assessments, and notice of such hearing shall be published at least once a week for two successive weeks in each county in which any lands within said district may be situated. Said objections, if any, must be in writing verified and filed with the state engineer, and shall set forth the grounds of such objections. Such verification shall be made by the affidavit of the objector or some other person who is familiar with the facts. Said adjustment board may postpone such hearings from time to time. At such hearings the adjustment board shall hear such evidence as may be offered touching the correctness of such assessment, and may modify, amend, or approve the said assessment in any particular and may reapportion the whole or any part thereof; *provided, however*, that no assessment shall be increased except after personal notice or notice by registered mail given to the owner, if known, by depositing in the post office at the place in which the office of said district is located, in a sealed envelope addressed to each of such owners at his last known if any, place of residence or business, otherwise at the county seat of the county in which any portion of his lands are situated, with full postage paid, at least two weeks before said hearing, or if unknown by publication at least once a week for two successive weeks in the county in which said land in the district may be located, and upon a hearing of objections thereto if made.

Said adjustment board, after said hearings, must make an order approving such assessment as finally fixed or modified, which order shall be filed with and entered in the records of the state engineer, and the apportionment and determination of said adjustment board shall be final and conclusive, and no action or defense shall ever be maintained attacking the same in any respect. Two copies of said assessment roll as finally fixed and approved by the adjustment board shall be forthwith certified by the secretary, and the secretary shall file one copy in the records of the board of directors, and thereupon immediately transmit to the county treasurer of each county within such district that portion of the roll relating to the lands within such county together with a copy of the order of approval of such assessment roll by said adjustment board. Thereafter said assessment roll shall be conclusive evidence before any court or tribunal that said assessment has been made and levied according to law.

When the secretary shall file with the county treasurer of a county within such district the said assessment list or roll as finally approved as hereinbefore provided the charges assessed thereby upon the several tracts of land within the county shall constitute a lien thereon which shall be prior to all other liens except state, county and municipal taxes, and assessments or taxes levied or assessed by or under statutory authority and shall impart notice thereof to all persons. Where bonds of such district have been issued upon any such assessment no act or conduct on the part of such board of directors, or any officer herein mentioned, shall invalidate any such assessment after the same shall have become a lien in the manner herein provided.

In the event of the division of the project into units of construction, and the specification of one or more units for future construction, the board of directors shall at such time as it shall determine upon the construction of any such unit or units, pass a resolution to that effect and cause a certified copy thereof to be transmitted to the state engineer. At such time the board may amend the plans, specifications and estimates of costs of such unit or units by making such changes therein, modifications thereof, and additions thereto, as it shall deem desirable, and in the event of any such change, modification, or addition, the board shall cause to be filed with the state engineer, the plans, specifications and estimates of costs of such unit or units as amended. Upon receipt by the state engineer, of such certified copy of resolution and such amended plans, specifications and estimates of cost, if any, the same proceedings for levying, approving and collecting an assessment to meet the cost of the unit or units to be constructed shall be had as hereinbefore provided for an assessment to meet the cost of the unit or units first constructed.

SEC. 19. When any tract of land upon which any assessment provided for by this act has been levied shall be subdivided into smaller parcels, the board of directors of the district shall, upon the written request of the owner of such tract or of any of such smaller parcels and after hearing, reapportion the said assessment in such manner as will in the judgment of the board charge each of said smaller parcels with a just portion of such assessment. Supplementary assessment rolls, showing such reapportionment, shall be made and shall be made separately for lands lying within different counties. Said board of directors shall thereafter file copies of said supplementary assessment rolls with the state engineer and shall also file with the county treasurer of each county in which any portion of said tract so subdivided is situated the supplementary assessment roll relating to the lands in such county, and from and after such filing the said assessment shall be an assessment upon each of said smaller parcels in accordance with such reapportionment and not an assessment upon said tract as a whole; and such supplementary assessment rolls shall be deemed to be a part of and amendatory of the assessment roll or rolls theretofore filed for all purposes. Such reapportionment shall in no wise affect the assessment except as to the lands included in the supplementary assessment rolls.

SEC. 20. The assessment list of each county must remain open for payment in full in the office of the county treasurer of the respective counties within the district for a period of thirty days; and during the time they so remain any person may pay the amount of the charge assessed against any tract of land to the county treasurer in gold coin of the United States or in warrants of the district drawn by the state engineer or the board of directors, or the proper officers thereof.

SEC. 21. At the end of thirty days the county treasurer must make return to the board of directors of the district of all assessments paid. All unpaid assessments shall bear interest at the rate of seven per cent per annum. Thereafter all unpaid assessments and accrued interest shall be collected when and as called, and paid to the treasurer of the county or counties, who shall collect and hold such moneys to the credit of the district. Unless bonds shall have been authorized as hereinafter provided, all such payments shall be made in such amounts or installments and at such times respectively as the said board, from time to time, in its discretion, by order entered in its minutes, may direct. Upon making any order fixing and calling such installment or amount, the secretary shall also enter in the minutes of the board, and certify to each county treasurer for signature and mailing or publication in the counties in which any lands within the district are situated a notice in substantially the following form:

(Name) resort district. (Location of the principal place of business.) Notice is hereby given that at a meeting of the board of directors held on ----- an installment of ----- per cent of assessment number ----- was ordered paid

within sixty days from the date thereof to the respective county treasurers of the counties wherein lands of such district are situate. Any installment which shall remain unpaid on the (day fixed) will be delinquent, together with the accrued interest thereon, with ten per cent of such installment and interest added as penalty.

(Signed) _____

Treasurer of _____ County.

Such notice must be sent through the mail, addressed to each owner of land in the district at his place of residence if known, and if not known, at the place where the principal office of the district is situated, or in lieu thereof such notice shall be published once a week for two consecutive weeks in each such county.

If any such installment shall remain unpaid at the expiration of said sixty days from the date of the order, then the said installment of said assessment shall become delinquent, together with the accrued interest thereon and a penalty of ten per cent of the amount of said installment and interest shall be added thereto and collected for the use of the district.

Immediately after the said installment has become delinquent the said county treasurer or county treasurers must prepare and as soon as the same is complete publish once a week for two consecutive weeks in each county wherein lands of the district are situated, in one notice a list of all delinquencies in such county, which notice shall contain a description of the property assessed, the name of the person to whom it is assessed or a statement that it is assessed to unknown owners, if such is the fact, the amount then due on said property, and a notice that the property assessed will be sold on the date therein stated in front of the courthouse of said county to pay the amount then due on said property. The date of said sale shall not be less than ten days after the date of the last publication of said notice. At the time stated in said notice, or such other time to which said sale may have been postponed, the county treasurer must sell said property to the highest bidder for gold coin of the United States. Out of the proceeds of said sale the county treasurer must deposit the amount due on said property as shown in said notice to the proper fund of the said district. The county treasurer must pay to the owner of said property any surplus remaining after said deposit to the credit of the district, after first deducting any expense of sale. Except where bonds have been issued upon an assessment the board of directors may direct the county treasurer to postpone said sale from time to time, for not less than ten nor more than thirty days at one time, by a written notice posted at the place of sale.

If no bid is made for said property equal to the amount due thereon, it must be struck off to the district for the said amount so due. A certificate of such sale shall be executed by the county treasurer to the purchaser, or to the district if the property shall have been struck off to the district, and this certificate of sale shall be recorded in the office of the county recorder of said county. Any person interested in said property may redeem the same at any time within three years after the date of said sale, by paying to the county treasurer the amount for which the said property was sold, and interest on the said sum at the rate of one per cent per month from the date of said sale, which amount shall be credited to the proper fund of said district.

If no redemption shall be made within said three years, the purchaser or the district, if the property shall have been sold to the district, shall be entitled to a deed executed by the county treasurer or his successor in office, and the effect of such deed shall be to convey said property free and clear of all liens and incumbrances except state, county and municipal taxes, assessments or taxes levied or assessed by or under statutory authority and any resort district assessment or portion thereof remaining unpaid at the date of said sale, each installment whereof may be called and collected as herein provided. The board of directors may sell such property sold to the district at any time at public auction after notice given for the same period and in the same manner as is herein provided for sale of delinquent assessments, but not for a sum less than the amount for which said property was sold, with interest at seven per cent per annum, and the deed executed in pursuance of such sale shall convey said property free of all incumbrances except as hereinabove provided for said deed by the county treasurer.

SEC. 22. Whenever after completion of the works of a district in whole or in part, it becomes necessary in the opinion of its board of directors to raise any sum for the maintenance, repairs or operation of its works or for the conduct and management of the district or its works, the board of directors shall first cause to be prepared and when prepared, adopt a report showing the stage to which the said works have been completed and paid for, the sum or sums that will be required for the maintenance or repair or operation of said works, or for the conduct or management of the district or its works, with reasonable particularity, together with any plans and specifications for any work to be done, and an estimate of the aggregate cost thereof, a copy of which said report with the said plans and specifications shall be placed on file with the secretary of said board, and a notice of the filing of said report stating the purpose of the same, and where the same may be inspected by any person interested, and fixing a time within which protests against the adoption of said report and the levying of any assessment thereunder may be filed, and the time and place when a hearing on such protests will be had. Such hearings shall be public, and held at the ordinary place of business of the board of directors

of said district within said district, at which said hearing all protestants shall be permitted to appear in person or by attorney and present their objections to such report, if any. At the conclusion of such hearing said board may adopt such report or modify the same or cause a new report to be made and prepared to be again set for hearing as in the first instance, or abandon either in whole or in part the levying of any assessment pursuant to such report. If after such hearing said board shall determine that such assessment be necessary, said board may make an order of supplementary assessment. Such supplementary assessment shall be spread between the respective tracts of land in the proportions which the total amounts assessed against such tracts by the original and all subsequent assessments for construction purposes bear to one another. The order making such supplementary assessment shall be entered in the minutes of the board, shall state the total amount necessary to be raised and shall fix the rate of assessment which shall be the percentage of the total amount assessed by the original and all subsequent assessments for construction purposes which is required to produce the amount necessary to be raised. Upon the making of such order, the board shall cause to be prepared a supplementary assessment roll showing by description each tract assessed, the total assessments against the same for construction purposes, the rate of assessment and the amount assessed against the same by such supplementary assessment in dollars and cents computed at such rate. Upon the completion of such supplementary assessment roll, the board shall file with the county treasurer of each county wherein are situated lands subject to such assessment, a copy of so much of such assessment roll as pertains to the lands within that county, and thereupon such assessment shall constitute a lien upon each tract shown to be assessed by the copy of the assessment roll so filed for the amount assessed against it, such lien to be of the same character and to have the same incidents as the lien of an original assessment for purposes of construction. At any time within sixty (60) days from the filing of the copy of the assessment roll as aforesaid, the same may be amended by the board of directors to correct errors either on its own initiative or at the instance of any landowner affected, such amendment to be made by endorsement upon the assessment roll by the county treasurer upon the certification of the error to him by the board of directors. Such supplementary assessment shall be collected in the manner herein provided for the collection of original assessments and the board of directors may call the same as a whole or in installments from time to time, as it may deem best.

The original assessment levied for construction purposes and all assessment rolls for such assessment or for supplementary assessment for such purposes shall continue in force as the basis for allocating and spreading assessments for maintenance repair or operation of the works of the project or for the management and conduct of such works or of the district. All provisions of this act with respect to the levy and collection of assessments shall, so far as appropriate, be applicable to such supplementary assessments.

For the purpose of the care, operation, management, repair or improvement of such portions of the project as are in use, including salaries of officers and employees, and all other operating and maintenance expenses, the board may in lieu (either in part or in whole) of levying assessments as in this section provided for, fix rates of tolls and charges for services rendered by the district, and collect the same from all persons receiving the benefit of such services, such tolls and charges to be proportional as nearly as possible to the service rendered.

Whenever any tolls or charges for services rendered by the district provided for by this act have been fixed by the board of directors, it shall be lawful to make the same payable in advance, and in case any tolls or charges remain unpaid for a period of thirty days after the same become payable, the same shall become delinquent and a penalty of ten per cent shall be added thereto and such delinquent tolls and charges shall bear interest at the rate of twelve per cent per annum. The board of directors may, after any toll or charge becomes delinquent, file in the office of the county recorder of the county in which are situated the lands as to which such tolls or charges are delinquent, a list showing the names of the owners of such lands, if known, and if not known, a statement of that fact, a description of such lands sufficient for identification and the amounts of tolls and charges which are delinquent, and upon the filing of such list the tolls and charges so listed, together with the penalties and interest thereon, shall become a lien upon the lands as to which such tolls and charges are delinquent in the same manner and of the same character as the lien of a district assessment. The board of directors of any resort district may at any time after any toll or charge provided for in this act has become delinquent, direct that proceedings be not taken to enforce the lien therefor, and in place of such proceedings bring suit in the name of the district against the delinquent to enforce collection of such delinquent toll or charge. In such suit the district may recover the amount of such toll or charge, together with penalties and interest, and costs of suit.

SEC. 23. In the event that the original assessment for the project or any unit thereof is insufficient to provide for the completion of the project or of such unit, the board of directors shall levy and collect a supplementary assessment or assessments to cover the estimated cost of completion thereof. Each such supplementary

assessment shall be spread between the different tracts of land in the proportion which the amounts assessed against such tracts by the original assessment bear to one another. Such supplementary assessment shall be made by order entered in the minutes of the board, which order shall state the total amount necessary to be raised and shall fix the rate of assessment which shall be the percentage of the total amount assessed by the original assessment which is required to produce the amount necessary to be raised. Upon the making of such order, the board shall cause to be prepared a supplementary assessment roll showing by description each tract assessed, the amount assessed against the same by the original assessment, the rate of assessment and the amount assessed against the same by such supplementary assessment in dollars and cents computed at such rate. Upon the completion of such supplementary assessment roll, the board shall file with the county treasurer of each county wherein are situated lands subject to such assessment a copy of so much of assessment roll as pertains to lands within that county and thereupon such assessment shall constitute a lien upon each tract shown to be assessed by the copy of the assessment roll so filed for the amount assessed against it, such lien to be of the same character and to have the same incidents as the lien of the original assessment. At any time within sixty (60) days from the filing of the copy of the assessment roll as aforesaid, the same may be amended by the board of directors to correct errors either on its own initiative or at the instance of any landowner affected, such amendment to be made by endorsement upon the assessment roll by the county treasurer upon the certification of the error to him by the board of directors. Such supplementary assessment shall be collected in the manner herein provided for the collection of original assessments, and the board of directors may call the same as a whole or in installments from time to time as it may deem best.

The board of directors may also determine upon the acquisition of property or for the construction of work not contemplated in the report and recommendation, with accompanying plans and specifications, originally adopted in accordance with the provisions of section 18. In such event, the same proceedings for the preparation and adoption or rejection of the report and recommendation as to the acquisition of such additional property or construction of such additional work, and in case of the adoption of such report and recommendation, the levying and collection of the assessment or assessments to meet the cost thereof, shall be taken in connection with the property and work to be acquired or constructed as hereby provided shall be taken in connection with the acquisition or construction of the property or work contemplated by the original project.

In the event the cost of any unit is less than the funds collected therefor, the excess shall be held and used for the benefit of such unit only and shall be applied to the bond fund of such unit, if any, and if there be no bond fund then to the maintenance and operation of such unit.

SEC. 24. Whenever in any resort district any assessment has been levied and assessed upon the lands of said district and remains unpaid in whole or in part, and, in the judgment and opinion of the board of directors of said district, it shall be for the best interest of the district or the landowners therein to issue bonds for the purpose of obtaining money to pay the costs of the proposed project, the indebtedness of the district, or any other lawful charge, or when a petition signed by the owners of more than one-fourth in assessed value of the lands of the district, requesting it is filed with the secretary of said board, the board of directors of such district shall by order entered upon the records of said board order a special election to be held in said district, at which special election shall be submitted to the owners of assessed land in said district the question whether or not bonds of said district shall be issued in an amount equal to the amount of such assessment, or the part of such assessment remaining unpaid, which said amount shall be entered by said board of directors in its records and stated by them in the order for such special election.

The notice of such special election must state in addition to other statements required to be made therein, the aggregate face value of bonds proposed to be issued. Only owners of lands which have been assessed as provided herein shall be qualified to vote at such election. Such election shall be conducted, save and except as in this section otherwise specifically provided, in accordance with the provisions of this act relating to other elections in the district.

The ballots cast at such election shall contain the words "Bonds—yes" or the words "Bonds—no." A list of the ballots cast shall be made by the board of election containing the name of each voter who has voted at such election, and if the ballot be cast by proxy also the name of the person casting it, and the number of votes cast by each voter. At the close of the polls the board of election shall at once proceed to canvass the votes and declare the result and shall deliver a certificate showing such result and the number of votes cast for and against the issuing of such bonds to the county clerk of the county wherein the office of the district is situated, and shall deliver a duplicate thereof to the board of directors of the district, and shall also deliver to the said county clerk all ballots cast at such election within said county and all documents and papers used at such election, and except as in this section specifically provided the provisions of this act with reference to all matters pertaining to elections shall govern and control. The county clerks of the respective counties shall immediately upon receipt of the ballots, papers, and documents from the board of election certify to the board of directors at its office a statement

of the result of said election held in each of said counties with a statement of the number of votes for and in favor of the proposition of "Bonds—yes" and opposed "Bonds—no." The board of directors shall thereupon in a certificate in writing recorded in their minutes declare that the proposal to issue bonds has carried or has been defeated, and stating therein the vote cast throughout the entire district, and a duplicate of such certificate shall be immediately transmitted to the state engineer.

If a majority of the votes cast at such election are in favor of the issuance of bonds, the board of directors of the district shall cause bonds in the amount stated in the order for the election to be executed and delivered, together with the assessment list segregated as to counties within said district, to the treasurer of said district. Said bonds shall be of the denomination of not less than one hundred dollars nor more than one thousand dollars each; they shall be signed by the president of the board of directors of the district and attested by the treasurer of said district, and shall be numbered consecutively in order of their maturity, and shall bear interest at a rate not to exceed six and one-half per cent per annum payable semiannually on the first day of January and the first day of July in each year at the office of said treasurer, and at any other place within the United States which may be designated by said board, upon the presentation of the proper coupons therefor. Coupons for each installment of interest shall be attached to said bonds and shall bear the facsimile signature of the treasurer of said district. The principal of said bonds shall be made payable on the first day of July, or the first day of January, and in such years as the directors may prescribe. Said bonds shall be payable serially within forty years from their date in the manner following, to wit:

(1) Not less than ten per centum of the aggregate face value of such bonds issued shall be payable within fifteen years from their date;

(2) Not less than two and one-half per centum of the aggregate face value of such bonds remaining unpaid at the end of fifteen years shall be payable each year beginning with the sixteenth year from their date, until the whole amount of said bonds has been paid.

The treasurer of said district shall place the bonds prepared pursuant to this act to the credit of the district. Thereafter when directed by resolution of the board of directors of the district, the treasurer shall sell the whole or any designated number of said bonds for the best price obtainable, but in no event for less than ninety per cent of the face value of said bonds and the accrued interest thereon. Before making a sale of said bonds, notice shall be given by the said treasurer by publication at least once a week for two successive weeks in the county in which the office of said district is located, that he will sell a specified amount of said bonds, and stating the day, hour and place of such sale, and asking sealed proposals for the purchase of said bonds or any part thereof. At the time appointed said treasurer shall open the bids and award the bonds to the highest responsible bidder. The treasurer upon written request of a majority of the directors must reject any or all bids. Any sale by the treasurer and delivery of the bonds thereunder shall be conclusive evidence in favor of the purchaser and all subsequent holders of the bonds that such sale was made upon due authority and notice. The proceeds of sale of said bonds shall be placed in the treasuries of the respective counties in which land included in the district is situate to the amount of the unpaid assessment in each county and credited to the bond fund of the district, and a proper record of such transaction shall be made upon the books of said treasurer. At any time within thirty days after the issue of any bonds as the result of such election an action may be commenced in the superior court of any said counties by the board of directors of said resort district in the name of the district as plaintiff, and the defendants shall be described as "all persons claiming any interest in any lands within the said (name) resort district," to have it determined that said bonds are a legal obligation to such resort district, and in the event no such action is brought then the same may be commenced by any landowner in the district within sixty days after the expiration of the period within which said action might have been brought by the board of directors. It shall be sufficient to describe said lands as all lands in the district (naming it) without a more specific description. The summons shall be published once a week for two successive weeks in the county where the action is pending. Within thirty days after the first publication of summons any owner of land in such district or any person interested may appear and answer the complaint, which answer shall set forth the facts relied upon to show the invalidity of said bonds. The default of all defendants not so appearing may be entered. Such action shall be given precedence in hearing and trial over all other civil actions in such court, and judgment rendered declaring such matter so contested either valid or invalid. Any party not in default may have the right to appeal to the supreme court within thirty days after the entry of judgment. Judgment for the plaintiff in such proceedings shall be considered as a judgment in rem and shall be conclusive against said district and against all lands therein, and all owners thereof and other interested persons.

All moneys collected by a county treasurer upon any assessment upon which bonds shall have been issued, including all moneys derived from sale of land for delinquent installments, or from redemption thereof, or from sale of lands brought by such treasurer at any such sale as trustee of the bond fund of the district shall be by such treasurer forthwith paid into the county treasury of the county from which the same arose to the credit of the bond fund of such resort district, and shall be used exclusively for the payment of principal and interest of said bonds issued on such assessment.

Whenever the board of directors shall by resolution declare that it deems it desirable that any contemplated or outstanding bonds of a resort district organized under this act, including any bonds of such district authorized but not sold, shall be made available for the purpose provided for in section 7 of an act of the Legislature of the State of California entitled "An act relating to bonds of irrigation districts, providing under what circumstances such bonds shall be legal investments for funds of banks, insurance companies, and trust companies, trust funds, state school funds and any money or funds which may now or hereafter be invested in bonds of cities, cities and counties, counties, school district or municipalities, and providing under what circumstances the use of bonds of irrigation districts as security for the performance of any act may be authorized," approved June 13, 1913, as amended, the said board of directors shall thereupon file a certified copy of such resolution with the commission created by, and provided for in said act of June 13, 1913, which commission, and the state controller in connection therewith, are hereby given the same power and authority in respect of the investigation and certification of bonds issued under this act as is given to them in respect of the investigation and certification of irrigation district bonds by said act, as amended, except as the same may be limited by, or inconsistent with, any provision of this act, and bonds of resort districts provided for in this act which have been so investigated and certified and by authority of such investigation and certification are declared to be legal investments for the purposes stated in said act of June 13, 1913, as amended, may be lawfully purchased, or received in pledge for loans by savings banks, trust

companies, insurance companies, guardians, executors, administrators, and special administrators, or by any public officer or officers of this state or of any county, city, or city and county, or other municipal or corporate body within this state having or holding funds which they are allowed by law to invest or loan; *provided, however*, that where said irrigation district bond commission has passed upon one issue of bonds of districts formed hereunder, that all subsequent issues of said districts shall be submitted to said commission as in said act provided.

The lien of any unpaid assessment upon which bonds shall have been issued shall continue until all said bonds shall have been paid in full, and if for any reason any part of the principal or interest of said bonds shall remain unpaid after enforcement of said assessment as in this act provided, the board of directors shall order an additional or supplemental assessment to be made as provided in this act sufficient to pay such unpaid principal and interest; which additional or supplemental assessment shall be enforced and collected in the same manner as the original assessment.

If any district having authorized the issuance of a series of bonds shall issue an additional series of bonds based on another assessment, the dates of maturity of such additional series of bonds shall be such that the latest maturities thereof shall not exceed fifty years and the earliest maturity of bonds of such additional series shall be later than the latest maturity of bonds of any earlier series. All provisions of this section relative to the original issue of bonds shall apply to such additional series of bonds.

Upon a sale of any of the bonds provided herein the treasurer of the district is hereby authorized to accept in payment for said bonds, either in whole or in part, outstanding warrants of such district at their face value, together with the accrued interest thereon.

Where bonds of the district have been authorized to be issued on such assessments all unpaid assessments shall bear interest at the rate of seven per cent per annum from the date of the bonds issued thereon until such bonds shall have been fully paid and discharged, and the interest due at any time on said unpaid assessments may be called without calling any installment of the said assessment. The word installment as used in this section shall be construed as applying to interest as well as to principal as the case may be.

At least ninety days before any interest date of the bonds, the treasurer of the district shall certify to the county treasurer of each county in which lands of the district are situated an estimate of the amount of money and the percentage of the assessment together with the interest thereon, or only of the interest, necessary to pay interest and principal or the interest maturing on such interest date after crediting thereon the funds in the treasury applicable to the payment thereof to be collected by such county treasurer, and shall add thereto fifteen per cent of such aggregate sum to cover possible delinquencies, and each said county treasurer shall thereupon cause to be published, once a week for two successive weeks in the county of which he is county treasurer, a notice substantially in the following form:

(Name of resort district.) Notice is hereby given that an installment of assessment (describing it) or (amount or proportion thereof including interest thereon or only for interest) is payable within thirty days from date by all assessed landowners of said district in the county of (name of county) to the treasurer of said county. All or any part of said installment of interest which remains unpaid on the (day fixed) will be delinquent, together with accrued interest thereon, with ten per cent of such installment and interest added as penalty.

Treasurer of _____ County.

If no newspaper is published in said county, such publication shall be made in a newspaper published in an adjoining county. If any part of such installment or any interest thereon shall remain unpaid at the expiration of thirty days from the date of said notice it shall become delinquent and ten per cent of the unpaid amount of said installment and interest shall be added thereto and collected by said county treasurer. When any installment shall have become delinquent, said treasurer shall, within ten days, publish in said county once a week for two successive weeks a notice containing a description of each parcel of land assessed in the district in said county wherein such installment is delinquent, as such description appears on the assessment list, the name of the person to whom it is assessed, to unknown owners, if such is the fact; the amount of the installment delinquent on such parcel, the amount of interest thereon reckoned to the day of sale, the amount of said ten per cent penalty thereon, and a notice that each of said parcels will be sold at public auction by said county treasurer in front of the courthouse of said county, at a specified day and hour, which shall not be less than thirty nor more than sixty days from the date of delinquency, to pay said delinquent installment, with said accrued interest and penalty. At the time stated in said notice, the county treasurer shall sell each parcel of land described in said notice to the highest bidder, unless prior thereto he shall have received payment in full of said delinquent installment, together with interest and penalty. No bid for any parcel shall be accepted less than the aggregate sum then due on said installment thereon with interest and penalty, and such sale shall be made for cash, except the treasurer

may receive from any purchaser at their face value in lieu of cash bonds of said district or their interest coupons, issued on said assessment and then matured or to mature within sixty days after such sale. Any bond or coupon so received in payment shall be by the county treasurer forthwith canceled and filed in the office of the treasurer of the district. If the entire amount of such bond or coupon tendered in payment shall not be required to complete payment of the purchase money, the county treasurer shall endorse thereon as paid the amount of such purchase money credited thereon. If no bid is made for any parcel at such sale equal to the amount of the installment delinquent thereon, with interest and penalty, the county treasurer shall bid in and sell said parcel to himself and his successors in office, as trustee of the bond fund of said district, as purchaser, for the amount of said installment, interest, and penalty. The county treasurer shall execute to each purchaser, including himself as trustee a certificate of sale, and shall record a duplicate in the county recorder's office. Any person interested in the said property may redeem the same at any time within three years after the date of sale by paying to the county treasurer for such purpose a sum equal to the purchase price stated in the certificate, with interest thereon at the rate of twelve per cent per annum from the date of sale to such redemption. If no redemption shall be made within three years, the said county treasurer upon demand and surrender of such certificate of purchase, shall execute to the purchaser, his heirs or assigns, a deed of conveyance of the parcel of land described in such certificate, which deed shall convey to the grantee therein named the said land free and clear of all encumbrances, except state, county and municipal taxes, assessments or taxes levied or assessed by or under statutory authority, and any water storage district assessment, or portion thereof, remaining unpaid at the date of said sale each installment whereof may be called and collected as herein provided, except that no parcel sold and conveyed to the district shall thereafter be subject to sale by the county treasurer for delinquent installments. Every deed by a county treasurer purporting to be executed under this section shall be prima facie evidence of the truth of the matters therein recited, and of ownership by the grantee of the lands therein described. The county treasurer of each county shall credit to the bond fund of the district all moneys collected by him by sale or otherwise, upon assessments against which bonds shall have been issued, including interest and penalties, and he shall likewise credit to said fund the amounts of purchase money paid in bonds or coupons on sales made under said assessment. Each county treasurer shall charge to the general fund of the district, or to the bond fund if he has no money to the credit of the general fund, the expense of publication of notices and of recording certificates of sale, and shall notify the treasurer of the district thereof. The county treasurer shall transmit to the treasurer of the district all canceled bonds and coupons received in payment on any delinquent sale, and a memorandum of all sums endorsed as paid upon account of purchase money on any bonds or coupons, specifying the same. All moneys collected by any county treasurer upon account of an assessment on which bonds shall not have been issued shall be similarly accounted for to the treasurer of the district, and shall be credited to the general fund of the district. Any parcel of land bid in and purchased by any county treasurer as aforesaid, as trustee of the bond fund of the district, may be sold and conveyed by him or his successor in office at any time after the expiration of said redemption period of three years, at public or private sale and with or without notice, to any person paying him the amount for which said parcel was bid in by said treasurer at delinquent sale, with interest thereon at the rate of seven per cent per annum, compounded yearly, from the date of said delinquent sale, and also the amount of all subsequent installments then delinquent, with accrued interest and penalties thereon. Such payment may be made either in cash or in matured bonds and coupons issued on said assessment, taken at their face value, and such treasurer shall execute a deed to such purchaser upon such sale, conveying said property free of encumbrances, except as hereinbefore provided for deeds where no redemption is made. If any land so held by a county treasurer as trustee of the bond fund of a district shall remain unsold after the final installment of the assessment shall have been collected by payment or sale, then each such treasurer shall sell all said land so held by him at public auction to the highest bidder for cash, notice of which sale shall be given by publication once a week for two successive weeks in some newspaper published in the county in which said land is situated, and shall deposit the proceeds of such sale in the treasury of the county to the credit of the bond fund of the district. Any balance remaining in such bond fund, after payment in full of the principal and interest of all outstanding bonds of the district, shall be by the treasurer transferred to the general fund of the district. The county treasurer of each of the several counties shall report all transactions of delinquencies and sales to the treasurer of the district who shall keep a record thereof in the office of the district.

Sec. 25. The board of directors shall have the power and it shall be its duty to manage and conduct the business and affairs of the district; to adopt a seal; to make and execute all necessary contracts; to employ and appoint such agents, officers and employees as may be required, and prescribe their duties. The board and its agents shall have the right to enter upon any lands to make surveys, locate works, or for any other necessary and lawful purpose. The board shall have the power to acquire, construct, maintain, improve and operate the necessary improvements or works for

either sewage disposal and/or drainage and/or fire protection and or roads and/or trails. The board shall also have the right to acquire by purchase, lease, contract, condemnation or other legal means, all lands, or any use thereof or interest therein, and any other property or rights by it deemed necessary for the construction, maintenance, improvement or operation of the works or the carrying out of the project of the district, including the property and rights of private owners even though already devoted to a public use, and may give in payment therefor bonds of such district upon such terms and conditions as the board of directors may deem best, but private property devoted to the use of any district or to any city or county may not be taken by any resort district; *provided*, before any purchase of property located in the district at a price exceeding five hundred thousand dollars, the price shall be approved by the state engineer, who shall give his approval if he finds the price not excessive, and otherwise refuse it; and *provided, further*, that no bonds shall be so used at a valuation less than ninety per cent of the face value of the same and the accrued interest thereon. Said board may also enter into, and do any acts necessary or proper for the performance of any agreement with the United States or with any state, county, district, public corporation, or municipality of any kind, for a purpose appertaining to or beneficial to the project of the district. The said board is hereby authorized and empowered to take conveyances, leases, contracts or other assurances for all property acquired by it under the provisions of this act, in the name of such district, to and for the uses and purposes herein expressed, and to institute and maintain any and all actions and proceedings, suits at law or in equity necessary or proper in order to fully carry out the provisions of this act, or to enforce, maintain, protect or preserve any and all rights, privileges and immunities created by this act or acquired in pursuance thereof. All contracts and other documents executed by the board shall be signed by the president and by the secretary. And in all actions, suits or proceedings, the said board may sue, appear, and defend in person or by attorneys, and in the name of such district. The board of directors shall have power whenever it deems it necessary for its own guidance or for the best interests of the district to submit any question or proposition relating to the construction, maintenance, improvement or operation of the works or the carrying out of the project of the district, to the qualified voters of the district at any general election or at a special election called for the purpose, which election shall be in all respects conducted as is provided for other elections in the district. The said board shall have power generally to perform all such acts as may be necessary to fully carry out the purposes of this act.

SEC. 26. The board of directors shall have the right and power to acquire by condemnation all lands, or any use thereof or interest therein, and any other property or rights by it deemed necessary for the construction, maintenance, improvement and operation of the works, or the carrying out of the project of the district. In case of condemnation proceedings the board shall proceed in the name of the district under the provisions of section 14 of article one as amended of the constitution of the State of California, and title seven, part three of the Code of Civil Procedure of California, and all pleadings, proceedings and process in said title provided shall be applicable to the condemnation proceeding hereunder.

SEC. 27. The board of directors shall proceed to carry out the project of the district in accordance with the plans and specifications of the duly approved and adopted report of said board. Before making any contract for the construction of any works in carrying out said project, or for the subsequent improvement thereof, said board shall advertise for bids. When such work is to be done said board shall give notice by publication thereof in the county in which the office of the board is located once a week for four consecutive weeks, calling for bids for the same. If less than the whole work provided for in said plans and specifications is to be done, the portion to be done must be particularly described in such notice. Said notice shall set forth that plans and specifications of the work to be done can be seen at the office of the board, and that the board will receive sealed proposals therefor, and that the contract will be let to the lowest responsible bidder, stating the time and place for opening said proposals, which, at the time and place appointed, shall be opened in public; and as convenient thereafter the board shall let said work either in portions or as a whole, to the lowest responsible bidder; or it may reject any or all bids and readvertise for proposals or may proceed to construct the work under its own superintendency; *provided*, that in case of emergency or urgent necessity the board of directors, by unanimous vote of those present at any regular or special meeting, may award contracts without advertising for bids, but the amount of any contract so awarded shall not exceed ten thousand dollars. Contracts for the purchase of materials only shall be awarded to the lowest responsible bidder; *provided, however*, that the board may reject any or all bids and thereafter either readvertise for bids, or solicit offers from not less than three responsible persons to furnish materials, and upon receipt of an offer or offers for a less price than that specified in the lowest rejected bid enter into a contract for the furnishing of the materials with the person who so offers to furnish the same at the lowest price. Any person or persons, to whom a contract may be awarded shall enter into a bond, with good and sufficient sureties, to be approved by the board, payable to said district for its use, for twenty-five per cent of the amount of the contract price, conditioned for the full and faithful performance of said

contract. The work shall be done under the direction and to the satisfaction of, and be approved by the board.

SEC. 28. All claims against the district shall be paid by warrants of said district. To provide a fund for that purpose the board of directors may from time to time draw from the general fund deposited and kept to the credit of the district in the office of the county treasurer of a county having funds belonging to the district in his possession such sums as may be necessary for said purpose, which said sums shall be deposited with the treasurer of the district and paid out by him upon warrants of the district, and he shall report to the board of directors in writing at its regular meeting in each month the amount of money in the district treasury and the amount of receipts and the amount and items of expenditures for the month preceding, which said report shall be verified and filed with the secretary of the board.

SEC. 29. During the construction of any works in carrying out the project of any resort district the board of directors of such district shall, within one week after each regular meeting of said board, forward to the state engineer a report of the progress of such construction together with a statement of the amount, or amounts, paid for the doing of such work. The board of directors at their regular monthly meeting in January of each year shall render and immediately thereafter cause to be published in the county where the office of said board is situated at least once a week for two successive weeks a verified statement of the financial condition of the district, showing particularly the receipts and disbursements of the last preceding year, together with the source of such receipts and purpose of such disbursements. Immediately after the publication of said statement the board of directors shall cause a copy thereof accompanied by a report stating the progress of the work under construction and the general condition of the project and whether or not the same is being successfully and satisfactorily carried out, and any other matter which the board may deem proper, to be filed with the state engineer, who shall examine said statement and report and make to the board of directors such recommendations and comments as he may deem proper and may publish said recommendations and comments in such manner as may be deemed advisable. Said state engineer may at any time make or cause to be made an examination of the affairs of any resort district within the state or call upon the board of directors of such district for such information as he may desire, and may make and publish such report thereon as he may deem advisable.

The state engineer may prescribe the form of all reports and accounts in this section provided for and may require such methods of accounting and itemization as shall in his judgment tend to the uniformity of reports and accounting. Such requirements of the state engineer may from time to time be changed by him. The records of the board including copies of the project, copies of assessment rolls and reports to the state engineer shall be deemed to be public records and shall be kept in the office of the board and open to inspection during office hours.

SEC. 30. The board of directors shall have power to construct the said works across or intersecting any stream of water, watercourse, street, avenue, highway, railway, canal, ditch or flume, in such manner as to afford security for life and property; but said board shall restore the same, when so crossed or intersected, to its former state as near as may be, or in a sufficient manner not to have impaired unnecessarily its usefulness; and every company whose railroad shall be intersected or crossed by said works shall unite with said board in forming said intersections and crossings, and grant the privileges aforesaid; and if such railroad company and said board, or the owners and controllers of said property, thing or franchise to be so crossed, can not agree upon the amount to be paid therefor, or the points or the matter of said crossings or intersections, the same shall be ascertained and determined in all respects as is herein provided in respect to the taking of land. The right of way is hereby given, dedicated and set apart for the location, construction and maintenance of said works over and through any of the lands which are now or may be the property of this state.

SEC. 31. The members of the board of directors when sitting as a board or acting under the orders of the board, shall each receive not to exceed ten dollars per day and ten cents per mile for each mile actually traveled from his place of residence to the office of the board, and actual and necessary expenses paid while engaged in official business under the order of the board. The board shall fix the compensation to be paid to all other officers and employees named in this act, to be paid out of the treasury of the district, except as herein otherwise provided.

SEC. 32. No director or any other officer named in this act shall in any manner be interested, directly or indirectly, in any construction or supply contract awarded or to be awarded by the board, or in the profits to be derived therefrom, but no other character of contract shall be invalid because of interest on the part of a director or officer, unless such director or officer participate in or influence the making or authorization of such contract on behalf of the district; and for any violation of this provision, such officer shall be deemed guilty of a misdemeanor, and conviction shall work a forfeiture of his office, and he shall be punished by a fine not exceeding five hundred dollars, or by imprisonment in the county jail not exceeding six months, or by both such fine and imprisonment.

SEC. 33. The board of directors or other officers of the district shall have no power to incur any debt or liability whatever, either by issuing bonds or otherwise, in excess of the express provisions of this act; and any debt or liability incurred in excess of such provisions shall be and remain absolutely void; *provided*, that nothing contained in this section shall be construed as limiting the right of the board to enter into any contract for the use of or lease for any lands or other property, as in this act provided, and by such lease or contract to bind the district for the payment of the rental or consideration specified in such lease or contract.

SEC. 34. Only the holders of title or evidence of title to lands situated within the district shall be entitled to vote at a general election, and every such holder of title or evidence of title shall be entitled to vote, in person or as hereinafter provided, in each precinct in which any of the lands so owned by him are situated and to cast one vote for each one hundred dollars', or fraction thereof, worth of land in said precinct so owned by him. Each male or female voter over the age of twenty-one years shall be entitled to vote in person or by proxy. Any guardian, administrator or executor of a person or estate owning land within the district shall be considered the holder of title or evidence of title to such lands for the purposes of this act, where the owner in fee is not entitled to vote. Any corporation holding title or evidence of title to lands within the district shall be entitled to vote as such landowner through any officer or agent thereunto duly authorized in writing under the seal of the corporation. Entrymen upon public lands situated within the district shall be considered as the holders of title or evidence of title to such lands for the purposes of this act. No person shall vote by proxy unless his authority to cast such vote shall be evidenced by an instrument in writing duly acknowledged and certified in the same manner as grants of real property and filed with the board of election.

SEC. 35. An election, which shall be known as the general resort district election, shall be held in each resort district on the first Wednesday in February in each odd-numbered year, at which a successor shall be chosen to each officer whose term shall expire in March next thereafter. The person receiving the highest number of votes for each office to be filled at such election shall be elected thereto. The term of office of each elective officer of the district elected after the election on organization provided for in section 6 of this act shall be four years, or until his successor is elected and has qualified.

SEC. 36. Not less than twenty-four days before a general election held under this act, the secretary of the board of directors shall give notice of such election by causing a notice thereof to be published once a week for three successive weeks in each county in which any land in the district is situated and by causing notices thereof to be posted in the office of the board and in three public places in each election precinct, such notices stating the time of holding the election, and the polling place. Affidavits of the publication and posting of such notices must be filed with the county clerk of each county in the district, together with a copy of the order calling the election, certified by the president of the board of directors, and duplicates filed with the board of directors. Prior to the election, the board must appoint, from the voters, one inspector and two judges, who shall constitute a board of election for such precinct. If the board fail to appoint a board of election, or the members appointed do not attend at the opening of the polls on the morning of election, the voters present at that hour may appoint the board, or supply the place of an absent member thereof.

SEC. 37. Not less than ten days before the election, any ten or more qualified voters in any division of the district may file with the board of directors a petition, requesting that certain persons, specified in such petition, be placed on the ballot as candidates for the office named in the petition. The names proposed by the various petitions so filed, and no others, shall be printed on the ballots. But there shall be sufficient blank spaces left in which voters may write other names if they so desire. The petitions shall be preserved in the office of the secretary of the district.

SEC. 38. The inspector is chairman of the election board and may administer all oaths required in the process of an election; and appoint judges if, during the progress of the election, any judge ceases to act. Any member of the board of election may administer and certify oaths required to be administered during the progress of an election. Before opening the polls, each member of the board must take and subscribe an oath to faithfully perform the duties imposed upon him by law. Any voter may administer and certify such oath. The polls must be opened at six a.m. on the morning of the election, and be kept open until seven p.m., when the same must be closed.

SEC. 39. The ballots used at the election shall be provided by the board of directors, and one of the judges of the election shall deliver to each of the qualified voters the number of ballots to which he is entitled as provided in this act. Each ballot shall have a perforated tab which shall be marked with the initials of a member of the board of election immediately before being handed to the voter. The perforated tab shall be torn from the ballot by the inspector immediately before the voted ballot is placed in the ballot box, and shall be preserved by him and sent with the ballots to the secretary of the board of directors.

The ballots shall have printed on them the names of all candidates whose names have been filed as provided in this act, with a voting square behind each name. The names shall be arranged in groups alphabetically, under the designation of the office for which each person named is a candidate. Each voter shall be supplied with one ballot for each one hundred votes or fraction thereof to which he is entitled; and each ballot cast shall contain the number of votes it represents, in accordance with the provisions of this act which number shall be written or stamped upon it by an election officer and initialed by him when handed to the voter. A list shall be kept by the election board, containing the names of each voter (and if the ballot be cast by proxy also the name of the person casting it) who has voted at such election and the number of votes cast by such voter.

SEC. 40. Voting may commence as soon as the polls are opened, and may be continued during all the time the polls remain opened, and shall be conducted as nearly as practicable in accordance with the provisions of the general election laws of this state. As soon as all votes are counted, a certificate shall be drawn upon each of the papers containing the poll lists and tallies, or attached thereto, stating the number of votes each one voted for has received, and designating the office to fill which he was voted for, which number shall be written in figures and in words at full length. Each certificate shall be signed by a judge and the inspector. One of said certificates, with the poll list and the tally paper to which it is attached, shall be retained by the inspector, and preserved by him at least six months. The ballots shall be strung upon a cord or thread by the inspector, during the counting thereof, in the order in which they are entered upon the tally list by the judges; and said ballots, together with the other of said certificates, with the poll list and tally paper to which it is attached, shall be sealed by the inspector in the presence of the judges and indorsed "Election returns of (naming) resort district," and be directed to the secretary of the board of directors, and shall be immediately delivered by the inspector, or by some other safe and responsible carrier designated by said inspector, to said secretary, and the ballots shall be kept unopened for at least six months; and if any qualified voter of the district be of the opinion that the vote has not been correctly counted, he may appear on the day appointed for the board of directors to open and canvass the returns, and demand a recount of the vote of the precinct that is so claimed to have been incorrectly counted. No list, tally paper or certificate returned from any election shall be set aside or rejected for want of form, if it can be satisfactorily understood.

SEC. 41. The board of directors must meet at its usual place of meeting on the first Monday after each election to canvass the returns. If, at the time of meeting, the returns in the district in which the polls were opened have been received, the board of directors must then and there proceed to canvass the returns; but if the returns have not been received, the canvass must be postponed from day to day until the returns have been received, or until six postponements have been had. The canvass must be made in public and by opening the returns and ascertaining the vote of the district for each person voted for and declaring the result thereof.

SEC. 42. The secretary of the board of directors must, as soon as the result is declared, enter in the records of such board a statement of such result, which statement must show: (a) the whole number of votes cast in the district; (b) the names of the persons voted for; (c) the office to fill which each person was voted for; (d) the number of votes given to each of such persons; (e) the number of votes given for the office of director. The board of directors must declare elected as director the person having the highest number of votes for that office. The secretary must immediately make out and deliver to such persons certificates of election, signed by him, and authenticated with the seal of the district.

In case of a vacancy in the office of director, the vacancy shall be filled by appointment by the state engineer. An officer appointed as above provided shall hold his office for the remainder of the unexpired term to fill which he is appointed, and until his successor is elected and qualified.

SEC. 43. Within ten days after receiving their certificates of election herein provided for, said officers shall take and subscribe the official oath, and file the same in the office of the board of directors, and execute the bond hereinafter provided for. The treasurer of the district shall execute an official bond in the sum of fifty thousand dollars to be approved by the board of directors; *provided*, that the board may, if it shall be deemed advisable, fix the bond of the treasurer to suit the conditions of the district, the maximum amount thereof not to exceed fifty thousand dollars, and the minimum amount thereof not to be less than ten thousand dollars. Each member of the board of directors shall execute an official bond in the sum of five thousand dollars, which said bonds shall be approved by a judge of the superior court and shall be recorded in the office of the county recorder of the county in which the office of the board is situated, and filed with the secretary of said board; *provided, however*, that the official bonds of the first directors of any district may be approved by a judge of the superior court of any county in which any of the lands in the district are situated and may be recorded in the office of the county recorder of such county. All official bonds herein provided for shall be made payable to the proper resort district and shall be in the form prescribed by law for the official bonds of county officers and the premiums thereon may be paid by the district; *provided*, that in case

any district organized under this act is appointed fiscal agent of the United States or by the United States in connection with any federal reclamation project, each of said officers shall execute a further and additional official bond in such sum as the secretary of the interior may require, conditioned for the faithful discharge of the duties of his office and the faithful discharge of the district of its duties as fiscal or other agent of the United States under any such appointment or authorization, and any such bond may be sued upon by the United States or any person injured by the failure of such officers of the district to fully, promptly and completely perform their respective duties.

SEC. 44. If an election is not held as herein provided, then upon the filing of a petition with the secretary of the board of directors of such district, signed by the owners of more than fifteen per cent of the total assessed valuation of the lands within the district, requesting that a special election be called for the election of such officers, the directors of such district shall thereupon call a special election thereof for the election of such officers, such election to be held within not less than fifteen, nor more than thirty days after the filing of such petition.

SEC. 45. At noon of the first Tuesday in March next following their election, except as provided in section 11 of this act, the officers who shall have been elected at the preceding general district election shall enter upon the duties of their respective offices. On the first Tuesday in March next following each election, the directors shall meet and organize as a board, elect a president and appoint a secretary and a treasurer, who shall each hold office during the pleasure of the board.

SEC. 46. The holder of any elective office of any district may be removed or recalled at any time by the voters; *provided*, he has held his office at least six months. The procedure to effect such removal or recall shall be as follows: A petition demanding the election of a successor to the person sought to be removed shall be filed with the secretary of the board of directors of such district, which petition shall be signed by qualified voters constituting at least twenty-five per cent of the highest vote cast within such district for candidates for the office, the incumbent of which is sought to be removed, at the last general election in such district at which an incumbent of such office was elected; and said petition shall contain a statement of the grounds on which the removal or recall is sought, which statement is intended solely for the information of the voters. Any insufficiency of form or substance in such statement shall in no wise affect the validity of the election and proceedings held thereunder. The signatures to the petition need not all be appended to one paper. Each signer shall add to his signature his place of residence. Each such separate paper shall have attached thereto an affidavit made by a qualified voter of the district and sworn to before an officer competent to administer oaths, stating that the affiant circulated that particular paper and saw written the signatures appended thereto; and that according to the best information and belief of the affiant, each is the genuine signature of the person whose name purports to be thereunto subscribed and of a qualified voter of the district. Within ten days from the date of filing such petition, the secretary of the board shall examine and from the records of qualified voters ascertain whether or not said petition is signed by the requisite number of such qualified voters, and he shall attach to said petition his certificate showing the result of said examination. If by the said certificate the petition is shown to be insufficient, it may be supplemented within ten days from the date of such certificate, by the filing of additional papers, duplicates of the original petition except as to the names signed. The secretary shall, within ten days after such supplementing papers are filed, make like examination of a supplementing petition, and if a certificate shall show that all the names to such petition, including the supplemental papers, are still insufficient, no action shall be taken thereon; but the petition shall remain on file as a public record; and the failure to secure sufficient names shall be without prejudice to the filing later of an entirely new petition to the same effect. If the petition shall be found to be sufficient, the secretary shall submit the same to the board of directors without delay, whereupon the board shall forthwith cause a special election to be held within not less than thirty-five nor more than forty days after the date of the order calling such election, to determine whether the voters will recall such officer; *provided*, that if a general resort district election is to occur within sixty days from the date of the order calling for such election, the board may in its discretion postpone the holding of such election to such general election or submit such recall election at any such general election for officers of such district occurring not less than thirty-five days after such order. If a vacancy occur in said office after a recall petition is filed, the election shall nevertheless proceed as in this section provided. One petition is sufficient to propose a removal and election of one or more elective officials. One election is competent for the removal and election of one or more elective officials. Nominations for any office under such recall election shall be made in the manner prescribed by section 57 of this act.

There shall be printed on the recall ballot, as to every officer whose recall is to be voted on thereat, the following question: "Shall (name of person against whom the recall petition is filed) be recalled from the office of (title of the office)?" following which question shall be the words "yes" and "no" on separate lines, with a blank space at the right of each, in which the voter shall indicate by stamping a cross (X) his vote for or against such recall. On such ballots, under each such

question, there shall also be printed the names of those persons who have been nominated as candidates to succeed the person recalled, in case he shall be removed from office by said recall election; but no vote shall be counted for any candidate for said office unless the voter also voted on said question of the recall of the person sought to be recalled from said office. The name of the person against whom the petition is filed shall not appear on the ballot as a candidate for the office. If a majority of those voting on said question of the recall of any incumbent from office shall vote "no," said incumbent shall continue in said office. If a majority shall vote "yes," said incumbent shall thereupon be deemed removed from such office, upon the qualification of his successor. The election shall be conducted, canvass of all votes for candidates for said office shall be made, and the result declared in like manner as in a regular election within such district. If the vote at any such recall election shall recall the officer, then the candidate who has received the highest number of votes for the office shall be thereby declared elected for the remainder of the term. In case the person who received the highest number of votes shall fail to qualify within ten days after receiving the certificate of election, the office shall be deemed vacant and shall be filled according to law. If the vote at any such recall election shall not recall the officer, no further petition for the recall of such officer shall be filed before the expiration of six months from the date of such first recall election.

SEC. 47. Notice of any special election to be held pursuant to the provisions of this act must be given by posting notices in three public places in each election precinct in the resort district for at least twenty days, and also by publication of said notice once a week for three successive weeks in each county in which any land in said district is located. Such notice must specify the time and place of holding the election and the purpose thereof. Unless otherwise in this act expressly specified said election shall be held and the result thereof determined and declared as nearly as may be in accordance with the provisions of this act relating to general resort district elections; *provided*, that no informalities in conducting such election shall invalidate the same if the election shall have been otherwise fairly conducted.

SEC. 48. Any election held under the provisions of this act may be contested by any person owning property within the district, or proposed district, liable to assessment. Such contest shall be brought in the superior court of any county in which some portion of the land within the district or proposed district is situated and shall be conducted in the manner provided for contests of election by title two of part three of the Code of Civil Procedure of California, except that in the case of a contest not involving the right of a person declared elected to an office to hold such office the directors of the district shall be made parties to the contest. The court having jurisdiction shall speedily try such contest and determine upon the hearing whether the election was fairly conducted and in substantial compliance with the requirements of this act and enter its judgment accordingly. Such contest must be brought within twenty days after the canvass of the vote and declaration of the result. The right of appeal is hereby given to either party to the record within thirty days from entry of judgment. The appeal must be heard and determined by the supreme court within sixty days from the time of the filing of the notice of appeal.

SEC. 49. For all purposes of this act relating to signing petitions and voting at any election, and for all other purposes when the question of title to or value of land claimed to be owned by a petitioner or voter is involved, the county assessment roll last equalized at the time of the election or filing of the petition, in each county wherein any such land is situated shall be sufficient evidence of ownership and value. If any parcel of land is assessed on any such assessment roll to unknown or hesitantly named owners, or to unnamed owners in addition to any owner or owners named thereon, said parcel of land shall be deemed for any of the purposes of this act to have but one owner in addition to any owner or owners whose true name or names may be purported to be given on such assessment roll. The holder of title or evidence of title to an undivided interest in any land affected by any of the provisions of this act may sign any petition or vote at any election provided for in this act, and such undivided interest shall be counted and valued as though it were a separate interest, and if the assessment roll shall fail to indicate the extent of any such undivided interest the holders of title or evidence of title whose undivided interests in any land are not specifically defined shall be deemed to have equal shares therein. Where property has been conveyed prior to the election and such change of interest does not appear by such assessment roll the original deed of conveyance, or a copy thereof duly certified by the county recorder of the county wherein the same has been recorded, or otherwise authenticated, shall be sufficient evidence to entitle the holder thereof to vote the acreage therein described. Any person not legally qualified to vote who shall make any false statement in respect to his right to vote shall incur all of the penalties provided in the Penal Code of the State of California for persons illegally voting at elections. The certificate of the register of the United States land office for the district in which the lands are situated, or of the surveyor general of the State of California, shall be sufficient evidence of possessory right in any lands entered under the laws of the United States or of the State of California. Guardians, personal representatives and other persons holding land in a trust capacity under appointment of court may

sign any petition and may vote at any election in behalf of the estate represented by them without obtaining any special authority therefor. A certificate of acknowledgment taken before a notary public or justice of the peace of any state, or an affidavit by any person in the presence of whom a petition was signed, shall be sufficient evidence of the genuineness of such signature and of the fact of place of residence of any petitioner under this act. The state engineer shall, prior to the election on organization, and at all subsequent elections the board of directors shall, cause to be prepared and certified and furnished to the election board at each voting place in the district a copy of each of said assessment rolls so far as the same pertains to any land in the respective precincts, and shall likewise cause to be prepared and furnished to the election boards lists certified by the register of the United States land office or the surveyor general of the State of California, as the case may be, showing the lands entered under the laws of the United States or of the State of California, respectively, which said lists, so far as disclosed by the records of said offices, shall contain the names of the persons entitled to possessory rights therein and the quantity of land held by each of said persons by virtue of said rights. Said assessment rolls and said lists shall be used by the election boards in determining the qualifications of voters and the number of votes each voter is entitled to cast.

SEC. 50. Whenever any notice or publication, or notice of publication, or official advertising, or publication of process is required to be given or made by the provisions of this act the same, unless otherwise specifically provided in this act, shall be given or made in a newspaper of general circulation as defined by the laws of this state, printed and published in each county in which any of the lands in a resort district, or a proposed resort district, are situated, and if in any such county or counties there be no such newspaper then in a newspaper printed and published in an adjoining county, the time of the giving or making of said notices, publication or advertising shall be, unless otherwise specifically provided in this act, once a week for two successive weeks.

SEC. 51. The state engineer shall have authority and it shall be his duty to give information, so far as may be practicable, to persons contemplating the organization of a resort district, and whenever the department of engineering of this state shall deem it in the public interest that preliminary surveys and field investigations of proposed resort district projects shall be made at the expense of the state the state engineer shall make such surveys and investigation and prepare a report thereof which shall be kept on file in his office.

SEC. 52. The state engineer and the board of directors of every resort district shall, respectively, cause to be entered in books to be kept for that purpose a complete and connected record of all their acts and transactions and shall execute all contracts and other written instruments in duplicate, one copy of each of which, together with any other documents, instruments, or other papers filed with them, shall be kept and preserved on file in their respective offices and open to inspection by the public during business hours. Said records and all documents, instruments, or other papers filed as above provided, or a copy or copies of any thereof certified by the state engineer or secretary of the board, shall be received in evidence without further proof in any court of this state, or before any board or tribunal authorized to hear or consider a matter wherein the same shall be properly admissible in evidence.

SEC. 53. The legal title to all property acquired under the provisions of this act shall by operation of law, immediately upon the acquisition thereof, vest in the resort district by which it is acquired, and shall be held by such district in trust for the uses and purposes set forth in this act, and is hereby dedicated and set apart to said uses and purposes. The board of directors is hereby authorized and empowered to hold, use, manage, occupy, and possess said property and may determine by resolution duly entered upon its minutes, that any property, real or personal, held by the district is not necessary for the uses and purposes thereof and may sell the same for an adequate consideration; and a conveyance or transfer of any of the property of a district executed by the president and secretary of its board of directors in pursuance of a resolution of the board adopted as above provided, shall convey good title to the property.

SEC. 54. Warrants drawn by the state engineer shall be signed by him and shall be drawn upon the treasurer of the resort district. CONSIDERATION OF COMMITTEE AMENDMENTS.

Pursuant to the report of the Committee on Irrigation, the following amendments to Senate Bill No. 686 were read and adopted:

AMENDMENT NUMBER ONE.

On page 1 of the printed bill, strike out the title, and insert in lieu thereof the following:

"An act to amend section 30 of and to add a new section to be numbered 15e to the California irrigation district act, relating to the powers and duties of the board of directors."

AMENDMENT NUMBER TWO.

On page 1 of the printed bill, strike out lines 1 to 3, inclusive, and insert in lieu thereof the following:

"SECTION 1. The California irrigation district act, approved March 31, 1897, as amended, is hereby amended by adding a new section thereto to be designated section 15e, as follows:

Sec. 15e. The board of directors may by resolution establish special accounts from the general fund as may be necessary or convenient in the efficient and economical operation of the district and designate the person or officer to have custody of the several accounts so established and fix bond for the faithful discharge of their several duties, the cost of which bond may be paid by the district. Such special accounts shall severally be supplied from the general fund by warrant as provided by section 54, the same as in payment of any other claim against the district. The person in custody of any of said accounts shall make to the board a verified report in writing between the first and tenth of each month showing the amount of money received by him for said account since the last report and the amount and items of expenditures therefrom; said report shall be filed with the secretary of the board. No payment shall be made from any of said accounts except upon the written order of the person or one of the persons designated for the purpose by the board indicating in said order the purpose for which and the person to whom payment is to be made and with the approval in writing of the person or one of the persons designated for the purpose by the board.

SEC. 2. Section 30 of said act is hereby amended to read as follows:

Sec. 30. For the purpose of constructing or purchasing necessary irrigation canals and works, and acquiring the necessary property and rights therefor, and for the purpose of acquiring waters, water rights, reservoirs, reservoir sites, and other property necessary for the purposes of said district, and otherwise carrying out the provisions of this act, or any other act under which said district is or may be authorized to acquire property or construct works, the board of directors of any such district must, as soon after such district has been organized as may be practicable, and also whenever thereafter the board of directors shall find that the construction fund raised by the last previous bond issue is insufficient, or that the construction fund has been exhausted by expenditures herein authorized therefrom and it is necessary to raise additional money for said purposes, estimate and determine the amount of money necessary to be raised. For the purpose of ascertaining the amount of money necessary to be raised for such purposes, or any of them, said board shall cause such surveys, examinations, drawings and plans to be made as shall furnish the proper basis for said estimate. Said surveys, examinations, drawings and plans, and the estimate based thereon may provide that the works necessary for a completed project shall be constructed progressively during a period of years. In the estimate of the amount of money necessary to be raised by any issue of bonds in any district, the board of directors may include a sum sufficient to pay the interest on all of such bonds for three years or less. All such surveys, examinations, drawings and plans shall be made under the direction of a competent irrigation engineer and shall be certified by him.

Bill ordered to print, and re-referred to Committee on Irrigation.

CONSIDERATION OF COMMITTEE AMENDMENTS.

Pursuant to the report of the Committee on Municipal Corporations, the following amendments to Assembly Bill No. 222 were read and adopted:

AMENDMENT NUMBER ONE.

In line 1 of the title of the printed bill, as amended in Assembly March 5, 1931, between the figures "2," and "3," insert the figure "4," and between the figures "8," and "40," insert the figures "9," "10,".

AMENDMENT NUMBER TWO.

In the last line of the title of the printed bill, as amended in Assembly March 5, 1931, strike out the final period and in lieu thereof insert the following: ". limiting the amount of special assessments that may be imposed, providing that the bar of a majority protest can not be overruled, relating to the form of protests, relating to the manner of collection of special assessment taxes and providing for the acceptance of matured unpaid bonds and interest coupons in payment for property sold by the state for delinquency in the payment of special assessment taxes of the district for which such bond was issued."

AMENDMENT NUMBER THREE.

On page 4 of the printed bill, as amended in Assembly March 5, 1931, following line 9, insert the following:

"SEC. 2. Section 4 of said "Acquisition and improvement act of 1925," as amended, is hereby amended to read as follows:

Sec. 4. The legislative body desiring to initiate proceedings for the making of any acquisition or improvement, or both an acquisition and improvement, under the provisions of this act, may, by an order to be entered upon its minutes, designate some county officer, if the legislative body be that of a county, or some municipal officer, if it be that of a municipality, or some other competent person, in either case, and direct him to prepare and furnish specifications for the proposed acquisition or improvement, or both. The said specifications, in the case of an improvement, shall include all plans, profiles, cross-sections and specifications necessary therefor, together with a statement of the estimated cost of the improvement (inclusive of incidental expenses and costs of the proceeding), a description of the district to be benefited by the proposed improvement and a map or plat showing the same and also the different zones within said district (if any are necessary because of varying benefits) containing the lands to be benefited in like measure but in a different measure from those in other zones therein, with a statement as to what percentage of the sum to be raised each year for the payments on the principal and interest of the bonds should be raised from each zone, and shall show the grades to which the contemplated improvements are to be constructed. In the case of an acquisition, the said specifications shall include descriptions of all property to be acquired, together with a map or plat showing the same, the total sum of the estimated expense of said acquisition (which expenses shall include the estimated amount of just compensation and damages, the estimated expenses chargeable to the plaintiff in the condemnation action, and the estimated incidental expenses of the proceeding) and a description of the district to be benefited by the proposed acquisition and a map or plat thereof; and the other matters relating to zones and percentages as above required in the case of improvements. In the event that the contemplated proceeding includes both an acquisition and improvement, all of the above requirements shall be included in the specifications; the district, zones and percentages set forth to comprehend both the contemplated acquisition and improvement. Said specifications shall be signed by the person designated and directed to prepare them and be presented to the legislative body ordering them. Said legislative body shall examine the said specifications and may approve them or order modifications or changes to be made therein. When approved by the legislative body they shall be filed with the clerk of said body. At any time before the adoption of a resolution of intention the specifications may be corrected or modified by the order of said body.

Such legislative body shall not have jurisdiction to adopt a resolution of intention in any case unless the specifications as finally corrected or modified shall show that the estimated cost of any acquisition or improvement, or both, less any amount proposed to be paid toward such cost from a source other than special assessments upon the lands proposed to be specially assessed, will not exceed one-half the aggregate assessed value of such lands, and that the net amount to be paid by special assessment in any zone in the proposed district will not exceed the aggregate assessed value of the lands in such zone, unless said legislative body shall find by the unanimous vote of all the members thereof entered upon its minutes that the proposed project is feasible, and that the lands to be assessed will be able to carry the burden of such proposed assessment. The assessed value shall be the value shown upon the last equalized assessment roll of the county or municipality, the legislative body of which is conducting the proceeding, except that where the proposed district lies partly in incorporated and partly in unincorporated territory or within the territory of two

municipalities, the last equalized county assessment roll shall be used. If the assessed value of any parcel of land is not separately shown upon said assessment roll, an estimated assessed value of such parcel shall be made by the city or county assessor and such estimate shall be considered the assessed value of such parcel for the purposes of this act.

If a statute known as "Special assessment investigation and limitation act of 1931" shall become law, the provisions of such statute shall apply to all proceedings under this act, except that such statute shall not operate to permit any proceeding which this section would require to be abandoned, and in no proceeding under this act may the limitations provided in this section or by said statute be exceeded except by such unanimous vote of the legislative body.

The limitations hereby imposed shall not apply to any proceeding in which an ordinance or resolution of intention has been finally adopted before the date when this section as amended in 1931 shall become effective.

Any error or informality in the appointment of any officer or other person to prepare specifications, or the omission of a formal order of appointment altogether, shall not invalidate or in any way affect the proceedings.

In case the consent of any legislative body other than the one conducting the proceeding is required, as provided in section 2 of this act, then, after the specifications shall have been approved and filed, the legislative body conducting the proceeding shall, by resolution, request such consent (or consents, if more than one is necessary), and a copy of the resolution requesting such consent, together with a copy of the specifications, shall be filed with the legislative body, or bodies, whose consent is requested. Such legislative body, or bodies, may consent by resolution."

AMENDMENT NUMBER FOUR.

On page 4, line 10, of the printed bill, as amended in Assembly March 5, 1931, strike out the figure "2", and in lieu thereof insert the figure "3".

AMENDMENT NUMBER FIVE.

On page 8, line 38, of the printed bill, as amended in Assembly March 5, 1931, strike out the figure "3", and in lieu thereof insert the figure "4".

AMENDMENT NUMBER SIX.

On page 9 of the printed bill, as amended in Assembly March 5, 1931, following line 42, insert the following:

"SEC. 5. Section 9 of said "Acquisition and improvement act of 1925," as amended, is hereby amended to read as follows:

Sec. 9. At any time not later than the hour set for hearing objections as provided in the preceding section, any owner of land within the boundaries of the assessment district as set forth in said resolution may, severally, or with other such owners, file with the clerk of the legislative body conducting the proceedings written objection to the thing or things proposed to be done, whether it be an improvement or acquisition, or both, or to the grade or grades to which the improvement is proposed to be constructed, or to the extent of the assessment district, or to the zones, if any, into which the said district is divided, or to the percentages proposed to be raised from each of said zones, or to any or all of the foregoing. Upon such hearing all objections and protests to the doing of the thing or things proposed to be done shall be heard and considered. If upon said hearing it appears that the owners of more than one-half of the area of the property included within the entire assessment district, as proposed, have in writing made objection to the doing of the thing or things proposed to be done, i. e., the improvement or acquisition, or both, as the case may be, in their entirety, and to the ordering of the same, the legislative body shall, by a resolution to be entered upon its minutes, so find and thereupon such legislative body shall have no power to proceed further under said resolution of intention nor to adopt any resolution for doing the same thing or things during a period of one year next succeeding the time of such finding. In order that such objections operate as a bar, as aforesaid, they must specifically state that the objections are to the doing of the thing or things proposed in their entirety and not merely to some item, class, kind or part of the thing or things proposed to be done. If the fact be that the owners of more than one-half of the area of the property included within the entire district as proposed have not so in writing made objection going to the ordering of the thing or things proposed to be done, as an entirety, the legislative body shall so find, and may thereupon proceed with the hearing, but such finding need not be in writing and may, for the purpose of proceeding with the hearing, be a mere announcement of the body. Next shall be heard, in any order desired by such body, such objections as shall be made to the extent of the district and to the zones, if any, into which said district is divided and to the percentages to be raised therefrom as set forth in the resolution of intention, and objections to the grade or grades to which the improvement is proposed to be constructed.

The hearing may be continued from time to time by the legislative body by an order to be entered upon its minutes.

Owners of land within the meaning of this section are those, and those only, who appear to be such upon the records in the recorder's office of the county in which the district is situated on the day before the day set for said hearing, and an executor

or administrator shall be deemed representative of his decedent, and a trustee of an express trust in land, other than as security for the payment of money, of the land held in such trust, and a trustee in bankruptcy of the bankrupt, and a guardian of his ward. Owners of land within the meaning of this section shall also include any person who holds a valid contract to purchase land, which fact must either be shown to be such upon the records in said recorder's office or the owner signing the protest must exhibit his contract to purchase; *provided, however*, that if both the owner of record and the contract purchaser shall present protests for the same land, only one protest shall be counted. The objection of any owner may be made by the signature of his agent; *provided*, that there must be attached to the objection the affidavit of the agent that he is duly authorized to sign said objection. Every written objection must contain a description of the property in which each signer thereof is interested sufficient to identify it, and must set forth the nature of his interest therein and, if signed by more than one objector, must be accompanied by the affidavit of one of the signers thereto that each signature thereto is the genuine signature of the person whose name is thereto subscribed. No informality or technical insufficiency in the form of any protest shall invalidate such protest if such protest shall be sufficient to identify the property in which the signer is interested, to show that such protest is based upon a ground or grounds authorized hereby and to show that such signer is entitled to file such protest.

SEC. 6. Section 10 of said "Acquisition and improvement act of 1925," as amended, is hereby amended to read as follows:

Sec. 10. Unless the power to proceed shall have ceased, as hereinbefore provided, the legislative body shall in conclusion of the aforementioned hearing and as a determination of all questions arising thereat, by resolution to be entered upon its minutes, declare its finding that the owners of more than one-half of the area of the property included in the assessment district have not made written objection going to the entirety of the thing or things proposed to be done. Said legislative body may at the conclusion of the hearing thereon and in said resolution determine the extent and boundaries of the assessment district and may exclude from the district described in the resolution of intention any parcels of land which it may find will not be benefited by the doing of the thing or things proposed to be done. It may also change or modify the zones, if any, into which said district is divided, so that each zone shall be composed of the lands within said district which will be benefited in like measure; and it may also change the percentage of the amount to be raised in each such zone, so that such zoning and the raising of the special assessment taxes therefrom shall best, in its judgment, reflect the benefits to be derived by the parcels of land included therein. If no changes be made in the boundaries of the assessment district, as the same are set forth in the resolution of intention, or no changes are made in the zones or the percentages to be raised therefrom as set forth in said resolution, it shall be sufficient to state that the boundaries of the district, the zones and the percentages to be raised therefrom, are those set forth in the resolution of intention; but if any changes be made in the boundaries of the assessment district, the boundaries as finally determined shall be fully set forth in said resolution, and the plat or map of the assessment district on file in the office of the clerk of said legislative body and referred to in the resolution of intention shall be made to show said boundaries as finally determined, and if any changes be made in the zones referred to in the resolution of intention, the description of the boundaries of said zones, as finally determined, shall be fully set forth, and said plat or map on file in the office of the clerk of the legislative body shall be changed to show the boundaries of said zones as finally determined, and, if any changes be made in the percentages to be raised from the several zones, the resolution shall so state, giving the percentage to be raised from each zone, as finally determined. The boundaries of the district, as the same are set forth in the resolution of intention, shall not be so changed as to include within the district any territory not within its boundaries as set forth in said resolution.

Said legislative body may also change or modify the grades as set forth in the plans and specifications and referred to in the resolution of intention. If no change or modification be made as to the grades, as the same are set forth in the plans and specifications and referred to in the resolution of intention, it shall be sufficient to state in the resolution adopted at the conclusion of said hearing, that the grades as finally determined, are those set forth in such plans and specifications, but if any changes are made in the grades, as set forth in the plans and specifications and referred to in the resolution of intention, such changes shall be set forth in said resolution adopted at the conclusion of said hearing.

If any changes or modifications be made in the boundaries of the assessment district, the zones, the percentages to be raised from the several zones, the grades, or any or all of the foregoing, such changes or modifications shall be made by a four-fifths vote of the legislative body.

The boundaries of the assessment district, the location and extent of the zones, if any, and the percentages to be raised therefrom, so determined, shall then be established and prevail for all purposes of the proceeding and until any bonds to be issued for the expenses of the thing or things to be done shall have been fully paid and discharged, and the grades so determined shall be the grades for all the purposes of the proceeding and the improvement to be done thereunder. The findings and

determination of said legislative body upon the matters of the extent and boundaries of the assessment district, the zones, if any, into which said district is divided, the percentage of the expenses to be raised from each of said zones, the grades to which the improvement is to be constructed, and the necessity for the acquisition, or improvement, or both, comprehended by the proceeding, shall be final and conclusive."

AMENDMENT NUMBER SEVEN.

On page 9, line 43, of the printed bill, as amended in Assembly March 5, 1931, strike out the figure "4", and in lieu thereof insert the figure "7".

AMENDMENT NUMBER EIGHT.

AMENDMENT NUMBER ELEVEN.

On page 12 of the printed bill, as amended in Assembly March 5, 1931, following line 25, insert the following:

"Such special assessment taxes shall be collected and enforced together with, and not separately from, taxes for county purposes or for municipal purposes, as the case may be.

(3) The holder of any matured bond or interest coupon, remaining unpaid for lack of sufficient moneys in the interest and sinking fund of any district created under the provisions of this act, is authorized to apply the credit represented by such unpaid bond or coupon as a medium of exchange in the purchase of lands sold by the State for delinquency in the payment of special assessment taxes of the same district, in the manner hereinafter provided. Upon presentation and surrender to the treasurer of the county or municipality, (as the case may be), whose legislative body has conducted the proceedings, of such matured bonds or interest coupons, or both, the treasurer shall issue to the holder a memorandum in writing, in duplicate, indicating the amount of credit represented by such bonds or coupons to which such holder is entitled to apply upon such tax sale. In the event that such sale is conducted by the county tax collector in accordance with the provisions of the Political Code of the State of California, and the holder of such credit memorandum becomes the purchaser, the tax collector shall accept the credit memorandum in lieu of lawful money for that portion of the total price for which any parcel of land is sold, equivalent to the special assessment taxes of such district, together with penalties, on account of which such sale is made; the balance of the price for which such parcel is sold shall be payable in money. The tax collector shall endorse upon said credit memorandum, and the duplicate thereof, the amount of credit applied on such tax sale and the balance, if any, not so applied.

The county treasurer shall accept, and the county auditor, in all settlements with the county tax collector, shall treat such credit memoranda, to the extent that the same have been applied upon such sales, as the equivalent of money. The treasurer shall accept the unused credit, represented by duplicate credit memoranda, as the equivalent of lawful money upon redemption by the purchaser, to the extent of the delinquent special assessment taxes of such district, together with penalties and interest, in the same manner as the tax collector is herein authorized to accept the same upon a sale. The treasurer of the county or municipality, (as the case may be), whose legislative body conducted the proceedings, shall thereupon cancel the bonds and coupons, upon the credit of which sales or redemptions have been made, if the entire amount of the credit memoranda has been applied thereto, and in the event that only a portion of the credit represented thereby has been applied upon sale or redemption, or both, then the treasurer shall endorse upon the face of such bond or coupon the fact that the same has been paid in part, to the extent of the credit so applied, and shall return the bond or coupon, so endorsed, to the holder. If no part of the credit represented by such memoranda is applied to sale or redemption, as herein provided, the treasurer shall, upon surrender of the credit memoranda, cancel the same and deliver the bond or coupon to the owner.

In the event that such sale is conducted by a municipal officer the holder of unpaid matured bonds or interest coupons shall be entitled to apply the same to the purchase of lands sold for delinquency in the payment of special assessment taxes in substantially the same manner, as herein provided for the application of such credit upon sales conducted by the county tax collector. In the event that the procedure prescribed for such municipality contemplates a sale for the full amount of all special assessments, delinquency penalties, interest and costs accruing to the time of sale and involves no redemption, then an original credit memorandum only shall be issued by the treasurer."

COMMUNICATION.

The following communication was received, read, and ordered printed in the Journal:

April 17, 1931.

*Hon. Frank Merriam,
Lieutenant Governor,
Capitol, Sacramento, California.*

Before budget bill is voted upon would appreciate having Senate's attention called to following: State Corporation Department has been operating without Fraud Investigation Division worthy of the name for past several years. Necessity for Fraud Division was not made apparent to Department of Finance until after Budget submitted. Corporation Department has been operated without cost and in fact with substantial profit to the State since its inception. Surplus of the department which should have been used to maintain Fraud Division during last several years was appropriated by Legislature to build wing on State building in San Francisco and to purchase furnishings for same. Total amount taken for this purpose reaches more than half million dollars. My understanding that when budget readjusted an additional \$90,000 would be allowed this department to maintain Fraud Division during next biennium. Instead \$17,000 has been lopped off present budget. Impossible to maintain any semblance of a Fraud Division necessary to control securities offered for sale after permit issued without this fund. Believe it obvious that purpose of State Corporation Fund is to regulate sale of securities and not to build State buildings while commercial frauds are being perpetrated on the people of this State at the rate of many millions of dollars per month. Only conclusion from present attitude is the fees charged too high or service of department not as broad as contemplated. Believe further consideration this item of budget deserves your further attention.

RAYMOND L. HAIGHT, Commissioner of Corporations.

Communication referred to the Committee on Finance.

Water other than surplus water may be exported under the provisions of this article from one area or watershed and imported into another area or watershed when and if exchanged for or replaced by an equivalent quantity of water from another area or watershed. The superior court of any county in an area or watershed wherein surplus water is alleged to exist shall have jurisdiction to determine, upon the application or complaint of the water finance commission, whether or not such surplus exists, and the amount if any thereof, and to fix the terms and conditions under which such surplus water or a part thereof may be exported from the area or watershed where it originates. The Legislature of the State of California is hereby authorized to enact all legislation necessary to provide for the actions and proceedings specified in this section, and to provide for the expeditious hearing and determination hereof, including provisions for actions in rem, to determine the existence of surplus water or water in excess of the then existing requirements in any area or watershed. In any eminent domain proceedings brought under the provisions of this article to acquire the right to exchange water, the court rendering the decree or judgment shall have the jurisdiction to fix and determine the terms and conditions upon which such exchange shall be made, and shall have and retain continuing jurisdiction at all times in such proceeding after the judgment or decree shall have become final, to enforce the terms and provisions of such decree or judgment. Whenever and so long as surplus water or water in excess of the then existing requirements of the area or watershed wherein the same originates, shall be exported under the provisions of this article into another area or watershed without exchange of water, a sufficient supply shall be reserved at all times for the requirements of the area or watershed wherein such water originates, when and as the same is needed therein. The importation under the provisions of this article into any area or watershed from another area or watershed of surplus water or of water in excess of the then existing requirements of another area or watershed, and the use of such water in the area into which it is imported, shall never create or vest in the watershed so receiving and using such water nor in any person, corporation, or entity therein, any right to such water supply or any part thereof, nor any right to any continued importation or use of such water as against the area or watershed and the inhabitants thereof, wherein such water originates".

PRESENTATION OF PETITION.

By Senator Inman:

SACRAMENTO CHAMBER OF COMMERCE.
SACRAMENTO, CALIFORNIA.

Recognizing the vital importance of the development of agriculture, which is California's basic industry, the board of directors of the Sacramento Chamber of Commerce look with serious concern upon the proposed reduction of the appropriation to the various agricultural activities of the State, especially the cut of \$150,000 from the appropriation of the College of Agriculture at Davis; \$25,000 from the appropriation of the experimental farm at Riverside and \$50,000 in the agricultural extension service.

Never in the history of California has there been a more serious need for the study and solving of the problems of agriculture.

The attention of the members of the California State Legislature who are now working upon the State budget is called to the importance of this situation and it is hoped that instead of a reduction of appropriations for the activities of agriculture that funds may be provided to the end that the State of California will officially do everything within its power to aid the agriculturists of the State and provide for the future development and expansion of agriculture.

A. S. DUDLEY, Secretary-Manager.

Approved April 20, 1931.

Within thirty (30) days after this act becomes effective a meeting shall be called and held in each of said districts, respectively, at a place to be determined by the

state oil and gas supervisor. At each of such meetings a member of the oil conservation commission for the district in which such meeting is held shall be elected by ballot by a plurality vote of the persons, corporations, copartnerships and associations entitled to vote for district oil and gas commissioners within such district, as provided by said section 10 of said act above referred to, each of whom shall be entitled to one vote. The place and time and details of such meetings, respectively, shall be fixed by the state oil and gas supervisor and at least two weeks' previous notice thereof shall be given by such supervisor by letter addressed to each of said persons, corporations, copartnerships and associations entitled to vote, as aforesaid, at his or its post-office address or principal place of business. At each such meeting each of those entitled to vote, as hereinabove provided, may be represented by one person holding the written authority of such voter to act for him at such meeting.

The members first elected for districts No. 1 and No. 2, as defined in said section 10, shall serve until the third Monday in September, in 1933; the members elected for districts No. 3 and No. 4, as defined in said section 10, shall serve until the third Monday in September, in 1934; and the member elected for district No. 5, as defined in said section 10, shall serve until the third Monday in September, in 1935; and thereafter until their respective successors are elected or appointed and qualified. The successors of all members shall thereafter serve for terms of four years each and until their successors are elected or appointed and qualified and shall each be elected on the third Monday in September of the year in which his term of office expires, at the meeting held for the election of district oil and gas commissioners in the district for which his predecessor was elected. The notice of each such meeting shall state that a member of the oil conservation commission is to be elected thereat and the election shall be held in the same manner as hereinabove specified for the election of the first members.

The chairman and secretary of each such meeting shall issue a written certificate to the state oil and gas supervisor, setting forth the results of the election and the name and address of the person elected as such member for said district, and such supervisor in turn shall notify each person so elected of his election and shall certify the same to the secretary of state of the State of California.

Each person so elected shall, within thirty (30) days after notice of his election, as aforesaid, qualify by taking oath of office and by filing the same with the secretary of state, as required by law.

In case of vacancy, the remaining members of the oil conservation commission shall appoint a person to serve until the next regular meeting called and held for the election of district oil and gas commissioners in the district for which the member whose office has become vacant served. The notice of such meeting shall state the fact of such vacancy and that a member of the oil conservation commission is to be elected thereat to fill such vacancy, and at such meeting the vacancy shall be filled by an election held in the same manner as hereinabove specified for the election of the first members, and the result of such election shall be certified and all subsequent proceedings taken as hereinabove specified for the regular election and qualification of members.

The state oil and gas supervisor shall be ex officio secretary of said commission and shall keep a record of its proceedings, and his office shall be the office of said commission. The powers and duties of such commission shall be as hereinafter set forth. Said commission shall have power to appoint such deputies and to employ such legal, technical, clerical and other assistants as may be necessary to enable it to perform its duties under this act and shall fix their compensation with the approval of the director of finance, which, together with all reasonable and necessary costs and charges of the enforcement of this act, shall be payable out of the petroleum gas fund hereinafter referred to.

Immediately upon the commencement of the respective terms of office of the oil conservation commissioners the state oil and gas supervisor shall call the first meeting thereof, giving at least five (5) days' written notice to each commissioner of the time and place thereof. At such meeting the said commissioner shall appoint a chairman and such officers other than secretary as it shall deem necessary and shall adopt rules and regulations for the conduct of its meetings.

The oil conservation commissioner elected for any district hereunder may be recalled from office in the following manner: Upon the filing in the office of the state oil and gas supervisor of a written petition, signed by not less than forty per cent (40%) of the voters entitled to vote on the election of such member, as hereinabove set forth, for such district, asking the recall of such member, said supervisor shall forthwith examine and verify the signatures to such petition, and if he shall find the same sufficient he shall, within ten (10) days from the date of the filing of such petition, give written notice to all of the voters entitled to vote for the election of such member of a meeting for a special election to be held at a place within the district for which such member was elected, and at a time, designated by said supervisor in such notice. Such notice shall be given at least two (2) weeks prior to the day fixed for such election, and shall be by letter addressed to each of the persons, corporations, copartnerships and associations entitled to vote for such member, as aforesaid, at his or its post-office address or principal place of business. Such election shall be held in the same manner as a regular election for a member for such district except that the election shall be for the unexpired portion of the term

for which such member was originally elected, and any other candidates may at the same time be voted upon with such member. It shall require a majority of the votes of all the voters entitled to vote for the election of such member to office to elect any candidate for such unexpired portion in his place. In the event no candidate other than such member shall receive a majority of all such votes, such recall shall be deemed to have failed and such member shall continue to serve until the expiration of said term as if no such election had been held. In case any candidate other than such member shall receive a majority of such votes at such election, then such recall shall be deemed to have become effective, and the candidate so receiving such majority of votes shall be deemed elected to such office for such unexpired portion of said term. The chairman and secretary of the meeting at which such election shall be so held shall issue a written certificate to the state oil and gas supervisor setting forth the results of such election, and, if a new member is elected, the name and address of the person so elected. If a new member is so elected said supervisor shall notify him of his election, and shall certify the same to the secretary of state of the State of California. Each person so elected shall qualify as required by law and shall thenceforth be the member of the commission for the district in which such election was held."

SEC. 2. Section 17 of said act is hereby amended to read as follows:

SEC. 17. The board of trustees of such district shall at the time for fixing the general tax levy for county purposes and in the manner of such general tax levy provided, levy and collect annually each year until said bonds are paid or until there shall be a sum in the treasury of such district set apart for that purpose to meet all sums coming due for principal and interest on said bonds, a tax sufficient to pay the annual interest on said bonds and also such part of the principal thereof as shall become due before the time for fixing the next general tax levy in which tax may be included a sum sufficient, in the judgment of the board of trustees, to take care of anticipated delinquencies; *provided, however*, that if the maturity of the indebtedness created by the issuance of bonds be made to begin more than one year after the date of issuance thereof, such tax shall be levied and collected at the time and in the manner aforesaid, annually each year, in an amount sufficient to pay the interest on said indebtedness as it falls due and also to constitute a sinking fund for the redemption thereof on or before maturity. The tax herein required to be levied and collected shall be in addition to all other taxes levied for the district purposes and shall be collected at the time and in the same manner as other district taxes are collected, and be used for no other purpose than the payment of said bonds and accruing interest.

Such tax shall be levied solely upon the lands within the district including any land which is the operative property of any public utility and excluding any lands belonging to any county municipality, or political subdivision within said district, or lands belonging to the State of California or the United States of America; *provided, however*, that nothing herein contained shall be deemed to exempt from assessment the lands of any political subdivision the corporate boundaries of which are wholly outside the boundaries of said district, and all such lands of any such political subdivision shall be subject to the taxes herein provided to be levied with the same force and effect as though such lands were held by private individuals.

If the district has been divided into zones and the percentage of the amount to be raised for the redemption of principal and interest of said bonds from each such zone has been determined as provided in this act, the said amount of said tax levied shall be divided according to said percentage, and the percentage to be raised from the lands within each zone shall be levied upon and against the property in such zone as hereinbefore provided.

The board of trustees may elect to avail itself of the assessment made by the assessor of the county of Sacramento and may take such assessment as the basis for district taxes and have its taxes collected by the county officials of such county; *provided*, the board of trustees shall declare its said election by resolution and file a certified copy of the same with the auditor of Sacramento county on or before the first day of August, and such board of trustees shall likewise file with such resolution a certified copy of the map or plat showing the zones and the percentages of the amount to be raised from each zone. Thereafter each year until otherwise provided by the board of trustees, all assessments shall be made and taxes collected for such district by the county assessor and tax collector, respectively, of said county of Sacramento. In such case, the auditor of such county must, on or before the second Monday of August of each year, transmit to the board of trustees of the district a statement in writing showing the total value of all property within the district, which value shall be ascertained from the assessment book of such county for that year as equalized and corrected by the board of supervisors of said county; and which said statement shall also show the total value of all property in each of the said zones respectively.

All land situated within said district and subject to assessment and/or taxation for district purposes, and not included on said county rolls for taxation for county

purposes, shall immediately upon the effective date of this act be placed upon and thereafter carried on said rolls, and the assessed valuation of said lands shall be determined and fixed by said county assessor and the amount of such assessed valuation corrected and equalized by said board of supervisors at the same time or times and in the same manner as the assessed valuation of other lands upon said assessment rolls are fixed, determined, corrected and equalized by said county officials."

The following resolution was offered:

By Senator Jones:

WHEREAS, The State revenues for the biennial period commencing July 1, 1931, will not be sufficient by \$10,000,600 to meet the State expenditures for that period; and

WHEREAS, The State revenue derived from bank taxes fell from \$1,700,000 in 1928 to \$550,000 in 1929, and \$908,000 in 1930, a loss in State revenue for the two years of \$7,942,000; and

WHEREAS, The State revenues derived from oil companies fell from \$960,129 in 1928, to \$188,464 in 1929, and \$320,933 in 1930, a loss in State revenue for the two years of \$1,410,791; and

WHEREAS, The report of the California Tax Commission of 1927-28 set forth that on the basis of the 1.73 ad valorem rate levied against general property, the gas and electric companies would have been paying a 10.25 per cent gross income tax instead of the 7.5 per cent tax actually paid, the difference in the State revenues actually collected under the lower rate and those that would have been collected under the higher rate being \$10,052,593 for the years 1929-30; and

WHEREAS, The report of the California Tax Commission of 1927-28 set forth that on the basis of the 1.73 ad valorem rate levied against general property the telephone and telegraph companies would have been paying 6.75 gross income tax instead of the 5.50 per cent tax actually collected under the lower rate, the difference in the State revenue actually collected under the lower rate and those that would have been collected under the higher rate being \$2,104,432 for the years 1929-30; and

WHEREAS, The report of the California Tax Commission of 1927-28 set forth that on the basis of the 1.73 ad valorem rate levied against general property, the short line railroads would have been paying a 9 per cent gross income tax instead of the 5.25 per cent tax actually paid, the difference in the State revenues actually collected under the lower rate and those that would have been collected under the higher rate being \$487,130 for the years 1929-30; and

WHEREAS, The State for the biennium 1929-30 suffered on these several items an apparent loss of revenue of \$21,996,947, which is more than double the excess of expenditures over revenue for the coming biennium; and

WHEREAS, The depletion of the State surplus is apparently due to undertaxing of the groups cited in these resolutions; therefore, be it

Resolved, That the Tax Research Bureau authorized by legislation enacted at this session be and it hereby is requested to submit to the Legislature of 1933, a schedule of equitable rates to be levied against the public utilities paying gross income taxes for State purposes, and suggested legislation under which banks and oil companies may be required to bear their proportionate share of the State tax burden; and be it further

Resolved, That the Director of Finance, in the event of the failure to establish such Tax Research Bureau, be and he hereby is requested to submit to the Legislature when it convenes in 1933, legislation under which banks and oil companies may be required to bear their proportionate share of the tax burden.

Sec. 3. There is hereby created a board to be known as California toll bridge authority, composed of the governor, lieutenant governor, the director of public works of the State of California, director of the department of finance of the State of California, the chairman of the California highway commission, or in the event the office of director of the department of public works of the State of California, director of the department of finance of the State of California, the office of chairman of the California highway commission or any of them hereafter be discontinued or abolished by law, then the governor shall appoint any person or officer of the State of California to fill any vacancy resulting from the abolition or discontinuance of such office. All of said members shall serve thereon without compensation, and a majority of them shall be empowered to act for said authority. The members shall receive their necessary actual traveling expenses incurred in the discharge of their duties. The authority shall maintain an office in the city of Sacramento. The California toll bridge authority may employ a secretary and such other persons as may be necessary to enable it to properly perform the duties imposed upon it by this act.

The state highway engineer may be appointed by the California toll bridge authority to serve as its chief engineer in addition to his regular duties as state highway engineer, with such additional duties and at such additional salary as such chief engineer as may be fixed by the California toll bridge authority.

The California toll bridge authority may employ such legal counsel as it may deem necessary to assist the attorney general in carrying out the objects of this act. The California toll bridge authority may sue and be sued in the name of the California toll bridge authority.

Sec. 2. Section 6 of said act is hereby amended to read as follows:

Sec. 6. All revenue bonds authorized under the terms of this act shall be issued and sold from time to time by the California toll bridge authority as and when money is needed by the department of public works for the acquisition or construction of any such toll bridges or other toll highway crossings, and to pay interest on outstanding bonds of any particular issue during the period of actual construction of any such bridge or bridges or other toll highway crossing and for a period of six months thereafter, and the proceeds thereof are hereby made available for such purposes. The California toll bridge authority shall determine the form, conditions and denominations of all such bonds, and from time to time as the sale of any portion of the bonds authorized for the construction of any particular toll bridge or bridges or other toll structures are to be issued and sold, said authority shall determine the dates which the bonds so to be sold shall bear, and the interest rate thereon, which rate shall be fixed by said authority according to the then prevailing market conditions, but shall at no time exceed six per cent per annum, and the determination of said authority as to the rate of interest shall be conclusive as to the then prevailing market conditions; and the said authority shall also fix the time of maturity of all bonds issued and the time and place of payment of principal and interest thereon. All interest payments shall be made semiannually. All such bonds shall be signed by the director of public works and countersigned by the governor. The signatures of the governor may be by facsimile. All interest coupons shall bear the facsimile signature of the director of the department of public works. In case any of such officers whose signature or countersignature appear on the bonds or coupons shall cease to be such officer before the delivery of such bonds to the purchaser, such signature or countersignature shall nevertheless be valid and sufficient for all purposes the same as if they had remained in office until the delivery of the bonds. Bonds authorized under this act may be sold below the par or face value thereof, such sale price, however, not to be less than that which will net the purchaser six per cent per annum according to the standard table of bond values, and such sale price shall also be sufficient to include the interest which has accrued thereon between the date of sale and the last preceding interest maturity date. Successive issues of bonds within the limits of the original authorization for the issuance of bonds for the acquisition or construction of any particular bridge or bridges or other toll highway crossing shall have equal preference with respect to the redemption thereof and the payment of interest thereon; *provided, however*, the California toll bridge authority may fix different maturity dates, serially or otherwise, for successive issues under any one original authorization. All bonds issued under the terms of this act shall be negotiable instruments under the law merchant. All bonds issued and sold under or by authority of this act shall be sold to the highest and best bidder after such advertising for bids as the California toll bridge authority may deem proper. The said authority may reject any and all bids made for such bonds.

SEC. 3. A new section to be numbered section 6a is hereby added to said act to read as follows:

Sec. 6a. Bonds issued under the provisions of this act shall be eligible for the certification by the state superintendent of banks as legal investments for trust funds and the funds for insurance companies, banks, both commercial and savings, and trust companies.

SEC. 4. Section 9 of said act is hereby amended to read as follows:

Sec. 9. When the department of public works can not acquire any toll bridge or any toll highway crossing, or the real or personal property, franchises, rights, privileges or easements needed for bridge or highway crossing purposes or approaches thereto, by agreement with the owner or owners, it shall be lawful for the department of public works, and said department is hereby authorized, to condemn and take in the name of the State of California, any such bridge or highway crossing, real estate, personal property, franchises, rights, privileges or easements deemed necessary for such bridge or highway crossing or approach thereto, under the provisions of the laws of this state relating to eminent domain proceedings. Said department shall not have power to commence any such proceedings in eminent domain unless and until the California toll bridge authority shall first have passed a resolution declaring that public interest and necessity require the acquisition, construction or completion by the state acting through the said department of public works of any such bridge or highway crossing, or the acquisition of any particular real estate, personal property, franchises, rights, privileges or easements, and that such bridge or highway crossing, real estate, personal property, franchises, rights, privileges or easements are necessary therefor. Such resolution shall be conclusive evidence (a) of the public necessity of such acquisition, construction or completion; (b) that such property and said franchises, rights, privileges or easements are necessary therefor; and, (c) that such proposed acquisition, construction or completion is planned or located in a manner which will be most compatible with the greatest public good and the least private injury. When it becomes necessary for the department of public works to condemn any toll bridge or toll highway crossing, real estate, personal property, franchises, rights, privileges or easements used or to be used in connection with any such bridge or highway crossing, the attorney general of the state shall represent the department of public works, and shall upon his request, be assisted by the district attorney of the county or the city attorney of the city or city and county wherein lies the bridge, highway crossing, real estate, personal property, franchises, rights, privileges or easements sought to be acquired, and shall also be assisted by the attorneys for the department of public works and any special counsel the department of public works or the California toll bridge authority may employ. In eminent domain proceedings to acquire property for any of the purposes of this act, any toll bridges or other toll highway crossing, real property, franchises, rights or other property appurtenant to any such bridges or highway crossing already appropriated to a public use by any person, firm or private corporation may be condemned and taken, and the acquisition and use thereof as herein provided for the same public use to which such property has been so appropriated, or for any other public purpose, shall be deemed a superior and permanent right and necessity, and a more necessary use than the public use to which such property has already been appropriated. When the state or any department of governmental agency thereof acquires any toll bridge or the real or personal property used for any toll bridge, said property and toll bridge shall continue to be subject to taxation by the county, city and county, political subdivision and municipal corporation wherein the same is located, and the state shall pay to the county or city and county granting the franchise for said bridge such amounts as may become due to such county or city and county for the franchise for the construction of such toll bridge.

SEC. 5. Section 12 of said act is hereby amended to read as follows:

Sec. 12. When any privately owned toll bridge is acquired or the location of any toll bridge or other toll highway crossing to be constructed under this act is determined upon, or revenue bonds of the character herein provided for have been authorized for such acquisition or construction, no city, county, city and county, joint highway district, bridge and highway district, or other public corporation or district of the state shall build or authorize the building of any bridge, subway or other highway crossing or establish or authorize the establishment and maintenance of any free ferry across the same body of water within five miles on either side of any such bridge so acquired or the location of any such bridge to be constructed under this act, nor shall the department of public works build any additional bridge, subway or other highway crossing or establish any free ferry within said distance of five miles until all of said revenue bonds issued for such acquisition and construction, together with interest thereon, shall have been paid; and provided, further, that no city, county, city and county, joint highway district, bridge and highway district or other public corporation or district shall build or authorize the building of any bridge, subway or other highway crossing or authorize the establishment of any free ferry across the same body of water within a distance greater than five miles and less than fifteen miles on either side of any bridge acquired or constructed or for which bonds may have been authorized under this act without the approval and consent of the California toll bridge authority, which approval and consent may be withheld in the discretion of said California toll bridge authority when the said authority reasonably

determines that the establishment of such additional bridge, subway or other highway crossing or ferry would be competitive with any toll bridge acquired or constructed or to be acquired or constructed under this act; *provided, further*, that the limitations as to distance contained in this section shall not apply to the construction of any bridge for which any bridge or highway district has been organized or incorporated, or proceedings instituted to organize or incorporate under the provisions of an act entitled "An act to provide for the incorporation and organization and management of bridge and highway districts and to provide for the acquisition and construction by said districts of bridges and approaches thereto, and for the acquisition of all property necessary therefor, and also to provide for the issuance and payment of bonds by said districts, for the levying of taxes and the collection of tolls by said districts and for the annexation of additional territory thereto" approved May 25, 1923, and all amendments thereto, or any bridge which may hereafter be built across said Golden Gate between the city and county of San Francisco and the county of Marin. If the California toll bridge authority shall authorize the acquisition or construction of any toll bridge designed for and limited to the carrying of a particular class or particular classes of traffic, or issue bonds therefor, the construction of other bridges designed for and limited to the carrying of different and distinct classes of traffic shall not be deemed competitive, and the limitations as to distance contained in this section shall not then apply. The provisions of this section relating to restrictions against the construction of competitive bridges, ferries, subways and other highway crossings may be recited in said revenue bonds as and as evidence of a contract to that effect between the California toll bridge authority and the holders of said revenue bonds. The California toll bridge authority may except any existing or proposed bridge, ferry, subway or other highway crossing from the limitations as to distance within which another bridge, subway or other highway crossing may be constructed by the proceedings authorizing the issuance of said revenue bonds provided recital of such exception is made on the face of said bonds.

SEC. 6. Section 17 of this act is hereby amended to read as follows:

Sec. 17. The department of public works, through its own engineers or through such other engineers or experts it may employ, shall design all bridges to be built under the authority of this act, and may build the same or any portions thereof either by its own employees or by contract with any person, firm or corporation. The cost of any or of all such bridges shall be paid from the proceeds of bonds issued and sold under the provisions of this act, or from contributions or appropriations from other sources as herein provided. Any such bridge or bridges or portions thereof shall be built by the department of public works under and in accordance with the provisions of an act entitled "An act to regulate contracts on behalf of the state in relation to the erection, construction, alteration, repair or improvement of any state structure, building, road or other state improvement of any kind and to repeal an act entitled 'An act to regulate contracts on behalf of the state in relation to erection and buildings approved March 28, 1876,'" approved March 22, 1909, and amendments thereto, in so far as the provisions of said act may be applicable; *provided, however*, that the amount of the cash or certified checks required to accompany any bid submitted, when bids relating to the construction of any bridge or highway crossing are called for, shall be fixed and determined by the department of public works.

SEC. 7. A new section to be numbered 25 is hereby added to said act to read as follows:

Sec. 25. This act shall be known and cited as the California toll bridge authority act."

Bill ordered to print, and re-referred to Committee on Governmental Efficiency.

Said tax shall be similar to that provided for by the federal revenue act of 1928, but shall be returned, calculated, ascertained and paid according to the system and rules hereinafter provided.

A resolution to propose to the people of the State of California, an amendment to the constitution of said State by amending section 15 of article XIII thereof, relating to the taxation of motor transportation companies operating under franchise.

Resolved by the Senate, the Assembly concurring. That the Legislature of the State of California at its regular session commencing on the fifth day of January, 1931, two-thirds of the members elected to each of the two houses of the said Legislature voting therefor, hereby proposes to the people of the State of California that the constitution of said State be amended by amending section 15 of article XIII thereof to read as follows:

Sec. 15. Taxes levied, assessed and collected as hereinafter provided upon companies operating under a franchise granted by the State Railroad Commission, which own, operate, or manage, any automobile, truck, or auto truck, jitney bus, stage or auto stage used in the business of transportation of persons or property as a common carrier for compensation over any public highway in this State between fixed termini or over a regular route, other than buses used exclusively for the transportation of pupils to or from any public school, when owned or operated by the school or school district, shall be entirely and exclusively for highway purposes, and shall be levied, assessed and collected in the manner hereinafter provided. The word "companies," as used in this section, shall include persons, partnerships, joint stock associations, companies and corporations.

(a) All such companies engaged in the business of transportation of persons, or persons and baggage, or persons and express, or persons, baggage and express where the same is transported on the same automobile, jitney bus, stage or auto stage transporting said persons shall annually pay to the state a tax upon their franchises, cars, equipment, and other property, or any part thereof, used exclusively in the operation of their business in this State, equal to four and one-quarter per cent of the gross receipts from operations of such companies, and each thereof within this State.

All such companies operating trucks or auto trucks engaged in the business of transporting property under a franchise from the State Railroad Commission shall annually pay to the State a tax upon their franchises, trucks or auto trucks, equipment and other property, or any part thereof, used exclusively in the operation of their business in this State, equal to five per cent of the gross receipts from operations of such companies, and each thereof, within this State.

When such companies are operating partly within and partly without this State, the gross receipts within this State shall be deemed to be all receipts on business beginning and ending within this State, and a proportion, based upon the proportion of the mileage within this State to the entire mileage over which such business is done, of receipts on all business passing through, into, or out of this State.

Such taxes shall be in lieu of all other taxes and licenses, state, county and municipal, upon the property above enumerated of such companies; *provided*, that nothing herein shall be construed to release any such company from the payment of any amount to be paid or required by law to be paid for any special privilege or franchise heretofore granted by any of the municipal authorities of this State.

The revenues from the taxes provided for in this section shall be deposited in the general fund and shall be applied and the same are hereby appropriated one-half to the State of California to be devoted exclusively to the maintenance and repair of public highways within this State; the remaining one-half shall be apportioned among the respective counties of this State, in the proportion that the number of motor vehicles registered within such county for the preceding calendar year bears to the total number of motor vehicles registered in the State of California under the Motor Vehicle Act of such State for the preceding year, and such sums so paid to said counties shall be devoted exclusively to the maintenance and repair of public highways within such county. In the event that all other State revenues are at any time deemed insufficient to meet the annual expenditures of the State, there may be levied in the manner to be provided by law, a tax, for State purposes, on all property in the State, including the classes of property enumerated in this section, sufficient to meet the deficiency. All property enumerated in this section shall be subject to taxation, in the manner provided by law, to pay the principal and interest of any bonded indebtedness created and outstanding by any city, city and county, county, town, township, or district on the first day of October, 1925. The taxes so paid for principal and interest on such bonded indebtedness shall be deducted from the total amount paid in taxes hereunder.

(b) All the provisions of this section shall be self-executing, and the Legislature shall pass all laws necessary to carry this section into effect, and shall provide for the valuation and assessment of the property enumerated in this section, and shall prescribe the duties of the State Board of Equalization and any other officers in connection with the administration thereof.

The rates of taxation fixed in this section shall remain in force until changed by the Legislature, two-thirds of all the members elected to each of the two houses voting in favor thereof. The taxes herein provided for shall become a lien on the first Monday in March of each year after the adoption of this section and shall become due and payable on the first Monday in July thereafter. The gross receipts herein mentioned shall be computed for the year ending the thirty-first day of December prior to the levy of such taxes and the value of any property mentioned herein shall be fixed as of the first Monday in March. Nothing herein contained shall affect any tax levied or assessed prior to the adoption of this section.

(c) No injunction shall ever issue in any suit, action or proceeding in any court against this State or against any officer thereof to prevent or enjoin the collection of any tax levied under the provisions of this section; but after payment action may be maintained to recover any tax illegally collected in such a manner and at such time as may now or hereafter be provided by law.

THE SECRETARY OF THE INTERIOR,
WASHINGTON, April 9, 1931.

*The Honorable, The Governor of California,
Sacramento, California.*

MY DEAR GOVERNOR: The Oil States' Advisory Committee, including representatives of the governors of the states of Oklahoma, California, Texas, Louisiana, New Mexico, Kansas, Wyoming, Ohio, Colorado, and Arkansas, under the chairmanship

of Mr. Cicero I. Murray of Oklahoma, presented to the Federal Oil Conservation Board on April 9 a program for coordination of conservation efforts of these states, by means of an interstate agreement. I inclose the statement which they submitted. Their recommendations were as follows:

"I. That the Federal Oil Conservation Board continue its Voluntary Committee on Economics, to make periodic examinations into the status of the oil industry and formulate national and regional forecasts of supply and demand, and that such forecasts be given due consideration by the Interstate Committee and recommended, with any necessary modifications, to the respective state conservation bodies.

"II. That the Legislature of each oil-producing state be requested as rapidly as possible to authorize negotiation of an interstate agreement for coordination of conservation measures, any such agreement being subject to ratification by the states.

"III. That pending the working out of such a compact, an advisory committee, representing the several oil-producing states, continue to function as a liaison and fact finding body, to present to the conservation authorities of the various states, at such times as may be deemed necessary, recommendations for more effective cooperation as between the states."

I am pleased to advise you that the Federal Oil Conservation Board believes that this program of the states is constructive and it will give the states what cooperation it may, looking toward a conservation agreement having congressional approval. The first of your committee's three recommendations will accordingly be carried out by continuing the work of the Board's Voluntary Committee on Economics in making periodical examinations and formulating national and regional forecasts of supply and demand, to be transmitted for consideration of the states through the interstate committee.

The other two recommendations call for action by the states, rather than the board. This board has in the past suggested an interstate agreement to provide for uniformity in state conservation laws on certain major points, such as (1) unit operation, (2) protection against waste consequent on overproduction, and (3) conservation of gas energy, coupled with coordination between the states of their conservation efforts under an arrangement for liaison which will insure that curtailment in one state may not be followed, as at present, by unproportional production from another state.

This board stands ready, therefore, to give what assistance it can in working out a rational plan which must, however, adequately safeguard the national interest. The states, which possess the necessary police power, must be the active factors.

We shall accordingly await the further action of the respective states on the two features of your committee's recommendation which call for state action, i. e., authorization by the legislature of negotiation of such an interstate agreement, and continuation, meanwhile, of some liaison body, such as your present committee. We assume that we will hear from you when we can be of further assistance. The sooner that unified and constructive action is taken by the states, the better for every one concerned.

Very truly yours,
(Signed)

RAY LYMAN WILBUR.

WASHINGTON, D. C., April 9, 1931.

*To the Honorable Ray Lyman Wilbur,
Chairman of the Federal Oil Conservation Board, City.*

HONORED SIR: We, the undersigned members of the Oil States Advisory Committee, duly appointed by the governors of the respective states which we represent, to consider the present dire conditions of chaos and distress existing in the oil industry and to make recommendations for the betterment of such conditions, having requested of the honorable Federal Oil Conservation Commission a conference as of this date, hereby submit the following:

First. Stabilization of the production of crude oil is necessary to stability of public supply, to the elimination of waste of an irreplaceable resource, to prevention of the threatened forced abandonment of hundreds of thousands of small wells throughout the oil producing areas of the United States, to preservation of the independent oil-producing areas of the United States, to preservation of the independent oil operator as a competitive force, thereby avoiding the creation of monopoly, and to the prevention of loss of many millions of dollars in tax revenues to the various states and to the nation.

Second. No individual oil-producing state, by its own laws, can adequately protect the national interest against such conditions of overproduction, attendant waste and resultant demoralization of a great industry, as now exist, unless the conservation efforts of the large producing states shall be coordinated. Otherwise, curtailment efforts within one state may at any time be automatically offset and nullified by increased flush production in the fields of another state, or by unjustified

increases in the importations, to the great damage of the areas of old and settled production throughout the country.

Third. Through bitter experience, the various oil-producing states have been forced to the realization that the conservation authorities of each state must give due consideration to the general situation in the oil industry throughout the United States. With such consideration duly given, the stabilization of the production of crude oil within any state is purely a problem for solution by that state and the industry therein, with such cooperation and advice as may be rendered by interstate advisory committees and with such aid and assistance as the federal government may be able to give. Limitations on unnecessary drilling, conservation of gas energy, encouragement of unitization of development, ratable takings of oil among producers within a given field, and equitable apportionment of outlet as between the various fields, should be the objectives of the various state laws, and for the better saving in the ground of oil and gas not immediately needed, the state laws should be made more uniform and more effective in their enforcement.

Fourth. Coordinated restrictions to prevent wasteful overproduction by the major oil-producing states, with federal cooperation, may be furthered immediately by continuing for such time as may be necessary an advisory group representing the various states and by the conservation bodies within those states adopting, as a basis of regulation of production, the regional forecasts of supply and demand such as have just been made by the Voluntary Committee on Economics of the Federal Oil Conservation Board, if and when same shall have been approved or modified by an interstate advisory committee.

Fifth. Equalization of the rate of foreign production, with due consideration for the promotion efforts of the domestic producers, should be sought, not only to curtail imports but to safeguard the country's balance in exports, and we hereby fully indorse, and tender our thanks to your honorable board for the efforts put forth in procuring voluntary restrictions of imports into this country.

Sixth. The above objectives, *i. e.* sound and uniform conservation laws within the various states, coordination of their enforcement and effect with those of other states, balancing of their joint effect against foreign production, all under a system which will be stable for sufficiently long periods to enable economic production expenditures but flexible enough to meet changing conditions, may and should be placed on a permanent basis by means of an agreement between the oil-producing states, which will retain for each state its own administration of its own resources but will guarantee harmonious administration and cooperation through an interstate advisory board.

In view of the foregoing conditions, we hereby recommend:

I. That the Federal Oil Conservation Board continue its Voluntary Committee on Economics, to make periodic examinations into the status of the oil industry and formulate national and regional forecasts of supply and demand, and that such forecasts be given due consideration by the interstate committee and recommended, with any necessary modifications, to the respective state conservation bodies.

II. That the legislature of each oil-producing state be requested as rapidly as possible to authorize negotiation of an interstate agreement for coordination of conservation measures, any such agreement being subject to ratification by the states.

III. That pending the working out of such a compact, an advisory committee, representing the several oil-producing states, continue to function as a liaison and fact-finding body, to present to the conservation authorities of the various states, at such times as may be deemed necessary, recommendations for more effective cooperation as between the states.

Respectfully submitted.

REPORT.

The following statement was received, read, and on motion of Senator Swing ordered printed in the Journal:

REPORT.

To the Chairman and Members of the Finance Committee of the Senate.

Your subcommittee, to which was referred the matter of the location of the California Institution for Women near Tehachapi, respectfully reports as follows:

At a meeting of the committee, many witnesses were heard upon the question of water supply, soil, climatic conditions and transportation.

From the evidence, the committee finds the following:

LAND.

That the site is located about nine miles from Tehachapi, that being the nearest railroad station, and consists of 1682 acres, of which, approximately, 1150 acres are tillable, the balance being grazing land; that the land is located in a valley, known as Cummings Valley, of which the soil is of a sandy loam; that it is an old ranch that has been under cultivation for 50 years or more; that the soil is suitable for the raising of garden truck of all kinds, and also suitable for apples and pears.

CLIMATE.

The elevation is between 3900 and 4000 feet in the valley, having a snowfall at times to the depth of 18 inches.

TRANSPORTATION.

The nearest railroad station is nine miles from the site. From the railroad station to the site there is a good gravel road.

WATER.

The water supply is obtained from wells, from which water is pumped. There are three wells upon the property, one capable, at the present time, of producing 80 to 90 inches of water. The site is located near the head of the valley, and at the lower end of the valley there is a flowing well from the same underground source as the wells on the said site. If the valley should be cultivated below the site in question, and irrigated by pumping of wells, the water supply would be diminished on the State land, according to the amount used for such irrigation; that the State has purchased and now owns 40 acres of mountain land, situated about four miles from

the institutional site, where it is expected an additional water supply can be obtained, in case of water shortage.

SECLUSION.

Statements of witnesses were to the effect that the site is desirable by reason of its seclusion from populated districts, which is desirable in an institution of that kind.

No information has been given to the committee of the amount or quantity of water required for such an institution, hence the committee can make no comparison with the needs of such an institution and the known available water supply.

The following persons gave statements before the committee:

Mrs. Ernest Wallace, president of board of trustees of the California Institution for Women.

Mr. Phil Marks, president of the Bank of Tehachapi.

Mr. L. D. Norris, secretary, Kern County Chamber of Commerce.

Mr. Vance Anderson, attorney at law, Bakersfield.

Mr. John McMillan, farmer, who has land near the site, but is not acquainted with the land in question.

Mr. W. M. Wiley, engineer, representing Kern County in the proposed State-wide water investigation.

Mr. Hugh S. Jewett, engaged in land development in Kern County.

Mr. Alfred Harrell, editor of the *Bakersfield Californian*, daily paper.

Mr. A. E. Hoagland, farm and land agent for Miller & Lux interests in Kern County.

M. Barlow, farmer and superintendent of large farms in San Joaquin Valley.

L. A. Burch, agricultural commissioner of Kern County.

Percy Slater, resident of Kern County.

Judge T. N. Harvey of Bakersfield, member of board of trustees of the institution.

L. J. Kansteen of Kern County.

Perry Brite, who was born and reared on this ranch, and is now chairman of the board of supervisors of Kern County.

W. L. Atkinson of Taft, California.

Mr. Brant of Kern County.

Whit Barber of Bakersfield.

W. H. Rockingham, engineer of State Division of Agriculture.

Owen Duffy, superintendent, Napa State Farm, and supervisor of agriculture in Department of Institutions.

WHEREAS, At a conference called by Governor W. H. Murray of Oklahoma and participated in by Governor R. S. Sterling of Texas and representatives of governors of New Mexico and Kansas, held at Fort Worth, Texas, February 28 and March 4, 1931, an agreement was entered into creating an "Oil States Advisory Committee" to study the present distressed condition of the petroleum industry and to make recommendations for uniform legislation looking to the relief of said industry and the conservation of oil and gas, and also providing for invitations to be issued to the governors of other oil-producing states to appoint representatives on said committee; and

WHEREAS, The first session is being held this March 9, 1931, at Texarkana, Texas, with representatives attending from the states of Oklahoma, California, Texas, Arkansas, Louisiana, Kansas, and Wyoming, at which meeting there has been a full discussion of the entire oil situation throughout the Nation;

Now, therefore, said committee hereby adopts the following resolution:

WHEREAS, The oil industry in the United States and over the entire world, is suffering from a general condition of overproduction and slack demand, resulting in depressed prices for crude oil and its products and great distress among all engaged in the industry, including particularly the producers of crude oil as well as those engaged in the refining and marketing business, as well as unemployment and threatened great waste of crude oil reserves by the forced abandonment of approximately 300,000 small wells in the oil producing areas of the United States alone, forever precluding the recovery of many millions of barrels of oil and thereby wasting a great irreplaceable natural resource; and

WHEREAS, This condition is the result of extreme and uncontrolled competition within the oil industry, resulting in the overdrilling of many areas and a mad race for production on every hand which has built up present potential production of oil far in excess of the ability of the market to absorb same at prices profitable to the

producers of such crude oil; such conditions calling for steps by the various legal authorities of the states and of the United States which will permit the oil industry to put its house in order and control its production to fit the market demand; and

WHEREAS, If present conditions continue unchecked and unabated, they will result not only in the abandonment of hundreds of thousands of small oil wells, but in the elimination of virtually, if not entirely, the army of small or independent producers in this country, with the survival of only a few of the great major companies, thereby resulting in a condition of monopolistic control of the entire industry, rather than in a desired state of reasonable competition, all of which must be avoided by such control and regulation of the business of producing and handling crude oil and its products as will result in continuing in the business independent and major producers and handlers alike; and

WHEREAS, Within the last few years, systems of proration of oil production have grown up within the states of Texas, Oklahoma, Kansas, New Mexico, and California, in the efforts to hold production of petroleum within the demand, but said proration efforts have failed to result in fair prices for crude oil, said prices having fallen steadily within the last year to such point that a great majority of the oil operators of the United States are now faced with ruin and financial extinction; and

WHEREAS, Concurrently with the development of the proration system, there have been vast increases, within the last five years, in the imports of crude oil and gasoline into the United States, thereby nullifying the curtailment efforts that have been put forth, depressing the market and adding to the distress of domestic producers; now, therefore, be it

Resolved by said "Oil States Advisory Committee," That it hereby recommends the following steps to the governors of the various oil producing states and to the legislatures thereof:

First: That this committee be continued in existence for the purpose of correlating the activities of the various conservation bodies of the oil producing states, in an advisory capacity, and also to make recommendations as to the amounts of oil which should be produced within the United States and as to the prices which should obtain therefor, so as to assure to all producers a fair and reasonable return on their necessary investments in handling their business of mining for and producing oil; and also to hold conferences and agree with the major purchasers of crude oil as to quantities of production wanted, and prices to be paid therefor, with due consideration to the various grades of oil in the various fields and the geographical locations and conditions of gathering, transporting and marketing such crude oils; and to handle all other matters treated herein.

Second: That said committee also be empowered to confer with and treat with the major importers of crude oil as to imports of crude oil and petroleum products, limiting the same to reasonable amounts with due regard to proration measures in force and to the situation of demand and supply within the United States so that such imports may not result in the pulling down or destroying of the crude oil price structures in the United States.

Third: That said committee further shall discuss, confer and agree with the various holders of crude oil in storage within the United States as to fair and reasonable schedules of withdrawals from storage of such crude oil so that withdrawals may be accomplished in a rational manner without interference with the market for fair amounts of crude oil currently being produced.

Fourth: That in all such negotiations and in the dealings of the various state and national authorities with the oil business it be immediately and widely recognized that a fair price for crude oil is essential to its conservation, so as to prevent wastes of oil from diverting it to uses below its intrinsic value, to prevent the too rapid exhaustion of underground supplies of crude oil and of the gas energy which is necessary to bring it into the wells and to the surface, to prevent the abandonment of countless wells which otherwise would produce large quantities of crude oil that could never be recovered if those wells should be abandoned.

Fifth: That said committee be empowered to proceed with proper negotiations with the Federal Oil Conservation Board and any and all other agencies concerned therewith to secure a recognition of the fact that it is necessary not only to conserve crude oil, but to procure fair prices therefor, in order to prevent abandonment of wells physical and economic waste and other conditions resulting from the present distressed situation; in other words that intelligent and fair control of the production of such a natural resource as oil and gas is necessary not only to the producers thereof, but to the public as well, by preventing the creation and growth of monopoly with the resultant dangers of high and unfair prices for petroleum products in the not far distant future.

Sixth: That pending the working out of such improvements and betterments as are contemplated in this resolution, all of the oil producing states continue in force the present systems of oil proration, without any abatements or lessening of restrictions, maintaining the principle of preventing waste by not allowing the production of crude oil to exceed the market demands therefor.

Seventh: That each of the major oil producing states, Texas, California, Oklahoma, New Mexico and Kansas, immediately take steps through their legislatures to

create oil and gas conservation commissions, or other proper authorities, to be appointed by the governors of those states, for as long terms as possible, for the sole business of enforcing the laws of the various states as to conservation of oil and gas, adopting and enforcing rules for the reasonable carrying out of such laws by said commissions; thereby removing from undue political influence the activities of such commissions and eliminating from the oil and gas conservation programs of the various states the dangers of considerations of vote-getting.

Eighth: That all of the oil producing states shall as rapidly as possible enact uniform laws for the conservation of these resources, similar to the laws now in force in Texas and Oklahoma, which laws are generally regarded as sufficient to handle the situation, provided systems of administration are provided which will insure full, fair and fearless enforcement of the aforesaid laws. By this it is not meant that all of the oil states must be immediately subjected to proration, but they should have their legal systems provided for in case they should have flush fields brought in within their borders of major proportions.

Ninth: That the recommendations of the "Oil States Advisory Committee," as hereinabove provided for, shall so far as possible be given due consideration by the various state conservation agencies, said committee serving to contact these agencies, for the purpose of providing fair allotments of production allowables, as between the various states, with due regard for the various conditions affecting production in those states.

Tenth: That when allocations shall have been made to the various states by said "Oil States Advisory Committee," as hereinabove provided, the conservation authorities of said states, each and severally, shall proceed to allocate and distribute, as between the various fields of said states, the market available for the crude oil produced, with due regard for ratable takings as between all producers in a given field and with due regard for preventing any unfair or unreasonable discrimination between various fields.

Eleventh: That in all of such allocations, as between producers and as between fields, due regard shall be given to the necessities of the so-called marginal or small producing wells. These wells which are in danger of abandonment, if production or price is curtailed too far, striving in all reasonable manners to preserve, and continue the life of all such small wells and fields so that they may produce the amounts of oil consistent with preventing waste therein.

Twelfth: That proration be immediately extended by the conservation authorities of Texas to the new East Texas fields, which are now threatening to destroy the entire crude oil markets, providing for those fields fair and reasonable markets and prices consistent with the production of the rest of the country; and that in all new areas of flush production, in whatever state, proration measures be fairly applied from the beginning of the development of said fields.

Thirteenth: That measures be taken in all of the oil producing states to prevent the over-drilling and wasteful production of oil and gas in those areas of any production which may be developed, holding the amount of drilling to such number of wells as may reasonably seem likely to produce said oil most economically and efficiently and also to save and preserve the gas energy of said fields; and further to encourage the idea of operators who own tracts of land too small to support wells individually, entering into partnerships creating blocks of sufficient size that they may reasonably and economically support a well or wells, thereby reducing and preventing both physical and economic wastes due to too close drilling; and that we further go on record, as favoring wherever possible and feasible, the principle of unit operations as providing the fairest and most economical possible way of producing oil and as not only effecting great savings in operations but far greater recoveries of oil and as well as rates of withdrawal that will prevent flooding the markets with new flush oil supplies that cannot be readily absorbed.

Fourteenth: That in all of the foregoing measures, it be borne in mind that it is necessary not only to prorate and curtail production of oil within the United States but to prorate and curtail the imports of foreign crude oil and petroleum products with due consideration for the preservation of the American markets; and furthermore that to prevent such importations as may hereafter arise from other countries like Russia and Roumania, effective measures should be provided by the Congress of the United States to prevent dumping of oil and oil products on the United States market.

Fifteenth: That if the plan of agreements herein suggested for the immediate and fair curtailment of oil imports shall fail of its purpose, then we recommend that the legislatures of the various oil states enact legislation which will have the effect of preventing importers from bringing in foreign oil to the hurt and injury of the United States producers.

Sixteenth: That this committee fully recognizes that for the benefit of the consuming public, fair and reasonable prices to the public must be maintained on gasoline and other petroleum products, and that to this end published recommendations be made from time to time by this committee as to constitute fair and reasonable prices for gasoline and other petroleum products with relation to the prevailing prices for crude oil.

Seventeenth: That this committee recommends discouragement of any increases in the gasoline taxes imposed by the various states, which taxes in all cases are paid

by the consuming public as part of the price of gasoline at the filling station, and that all of the states, by proper legislation, increase the efficiency of the collection of those taxes as now imposed, so as to prevent evasions by unscrupulous concerns.

Eighteenth: That this committee recommends that the oil industry of the United States, through the means herein suggested and through other means which may become apparent from time to time, set unto itself the goal of so conducting its business as to control and prevent the too rapid and reckless production of oil and to assure fair prices to producers at all times, for in any conservation of oil and gas, the factor of price is not less important than that of curtailment; it being the feeling of this committee that if the oil industry will avoid a long period of distress and ruin to many thousands of operators, both large and small, all branches of the industry must cooperate through every means available not only to assure fair prices and reasonable supplies of oil and its products, but to prevent unreasonable and monopolistic prices in the future.

Nineteenth: That this committee urges and requests those purchasing companies which have recently reduced prices of crude oil to restore its prices to February levels, pending the working out by the various states of such measures as are recommended herein, looking to immediate betterment of prices thereafter.

Twentieth: This committee finally recommends, in order to make permanent the foregoing program dealing with the oil industry in general, that the oil-producing states here represented and which may hereafter join in this committee, enter into an interstate compact, the terms of which shall be agreed upon by this committee at some future meeting, such interstate compact to be only obligatory upon those states giving legislative sanction thereto, and also subject to the consent of the Congress of the United States.

Immediately following the conference held at Texarkana on March 9, 1931, the committee members received an invitation through the Hon. Ross Sterling, governor of the state of Texas, to be present at a public hearing to be held by the railroad commission of the state of Texas, at which hearing the central proration committee of the state of Texas were to appear and apply for a proration order to curtail and prorate the new flush producing area of east Texas, a field conservatively estimated to comprise 100,000 acres of proven oil land with a maximum estimate of recovery of some two billion barrels of high gravity refining grade oil. The hearing progressed for seven days, at the end of which time the commission issued a proration order which was immediately enjoined in the district court. The operators, land owners, and royalty owners contesting the proration order and thereby placing in jeopardy the whole price structure within the state. Recently, however, report has reached me that a compromise was effected and the field was placed under the proration order limiting the daily output to 130,000 barrels.

The committee next proceeded to Washington, D. C., where on April 9, it appeared before the Federal Oil Conservation Board at a public hearing and submitted the following plan to the said board and received immediately, at the conclusion of the public hearing, the approval of said Federal Oil Conservation Board and a declaration of its intention to cooperate as fully as possible to carry out the plan herewith attached and which is as follows: Refer to report marked addendum "A".

I also take pleasure in accompanying this report with a transcript of the proceedings had before the Federal Oil Conservation Board at which the Oil States Advisory Committee plan was fully discussed and acted upon. The Oil States Advisory Committee, after the hearing at Washington, proceeded to St. Louis, Missouri, upon invitation of the American Petroleum Institute, where it met in joint session and submitted the following report which was accepted by that body in preference to a similar report made by that body's own economic committee and also the economic committee acting separately for and in behalf of the Federal Oil Conservation Board. The three separate reports as presented to the American Petroleum Institute are also herewith attached. I might state that the states of Ohio, Colorado and Kansas sent delegates to the Washington conference, making in all, ten states represented by delegates on the Oil States Advisory Committee. I might also state that a compact between the principal oil producing states is a possible means for accomplishing the following necessary object for effective conservation program:

One: Uniformity of conservation laws of the major producing states. Ratification of the compact would be an enactment by every state of certain uniform principles, leaving details to be filled in by legislation to accord with varying local conditions. The objective would be to balance the conservation efforts of the various adhering states so that a voluntary restriction of production in one would not be offset by increased production in another. Such a balance would be effected liaison provided by the compact between the various state enforcing bodies.

Two: By the creation or recognition of an individual body in each state with provisions for liaison between them so that periodical conferences between them would be required and the general orders of each body effecting production would be effective only after service on the others. A balance between conservation measures taken in each state would thus be maintained. A permanent Advisory Interstate Commission or committee composed of one member from each state commission would provide the necessary liaison.

Three: Establishment of a few major principles as the basic uniform law and these states should be directed toward: *a.* Necessity of preservation of gas content of all pools. *b.* Necessity for the most economic production of oil by first giving the uniform body power to equitably restrict production in times of overproduction. *c.* Giving the enforcement body power to refuse licenses to wasteful production operations. and *d.* Preserving the producing life of fields of stabilized or settled production.

Four: Permitting under proper unit development and operation of single oil pools. Protection of small operators through spreading the burden of conservation effects over several states instead of one, relieving the small producing well and the field with settled production from undue danger of permanent injury on account of curtailment.

The following elements may be considered for inclusion in a compact:

First, a clause whose subdivisions constitute a short uniform statute which will become on ratification of the compact, the municipal law of each state and will form the basis of the powers conferred by the compact on the agencies which are to enforce it.

The following draft of proposed state statute authorizing negotiations of Interstate Oil Conservation compact may be properly considered at this time. Copy of form is herewith attached. The compact could be entered into with or without the approval of the United States government.

All of the above is respectfully submitted for your consideration.

Senate Constitutional Amendment No. 6 ordered transmitted to the Assembly.

SENATE CONSTITUTIONAL AMENDMENT No. 22.

A resolution to propose to the people of the State of California an amendment of the constitution of said State by amending section 15 of article XIII thereof, relating to revenue and taxation.

Resolved by the Senate, the Assembly concurring. That the Legislature of the State of California at its regular session commencing on the fifth day of January, 1931, two-thirds of all the members elected to each of the two houses of said Legislature voting in favor thereof, hereby proposes to the people of the State of California that section 15 of article XIII of the constitution of the State of California be amended to read as follows:

Sec. 15. Taxes levied, assessed and collected as hereinafter provided upon companies owning, operating or managing any automobile, truck or auto truck, jitney bus, stage or auto stage used in the business of transportation of persons or property as a common carrier for compensation over any public highway in this State between fixed termini or over a regular route, other than buses used exclusively for the transportation of pupils to or from any public school, when owned or operated by the school or school district, shall be entirely and exclusively for State purposes, and shall be levied, assessed and collected in the manner hereinafter provided. The word "companies," as used in this section, shall include persons, partnerships, joint stock associations, companies and corporations.

(a) All such companies engaged in the business of transportation of persons, or persons and baggage, or persons and express, or persons, baggage and express where the same is transported on the same automobile, jitney bus, stage or auto stage transporting said persons shall annually pay to the State a tax upon their franchises, cars, equipment, and other property, or any part thereof, used exclusively in the operation of their business in this State, equal to four and one-quarter per cent of the gross receipts from operations of such companies, and each thereof, within this State.

All such companies operating trucks or auto trucks engaged in the business of transporting property shall annually pay to the State a tax upon their franchises, trucks or auto trucks, equipment, and other property, or any part thereof, used exclusively in the operation of their business in this State, equal to five per cent of the gross receipts from operations of such companies, and each thereof, within this State.

When such companies are operating partly within and partly without this State, the gross receipts within this State shall be deemed to be all receipts on business beginning and ending within this State, and a proportion, based upon the proportion of the mileage within this State to the entire mileage over which such business is done, of receipts on all business passing through, into, or out of this State.

Such taxes shall be in lieu of all other taxes and licenses, State, county and municipal, upon the property above enumerated of such companies; *provided*, that nothing herein shall be construed to release any such company from the payment of any amount to be paid or required by law to be paid for any special privilege or franchise heretofore granted by any of the municipal authorities of this State.

One-half of the revenues from the taxes provided for in this section shall be deposited in the general fund, and the remaining one-half shall be apportioned among the respective counties of this State, in the proportion that the number of motor vehicles registered within such county for the preceding calendar year bears to the total number of motor vehicles registered in the State of California under the Motor Vehicle Act of such State for the preceding year, and such sums so paid to said repair of public highways within such county. In the event that all other State revenues are at any time deemed insufficient to meet the annual expenditures of the State, there may be levied in the manner to be provided by law, a tax, for State purposes, on all the property in the State, including the classes of property enumerated in this section, sufficient to meet the deficiency. All property enumerated in this section shall be subject to taxation, in the manner provided by law, to pay the principal and interest of any bonded indebtedness created and outstanding by any city, city and county, county, town, township, or district on the first day of October, 1925. The taxes so paid for principal and interest on such bonded indebtedness shall be deducted from the total amount paid in taxes hereunder.

(b) All the provisions of this section shall be self-executing, and the Legislature shall pass all laws necessary to carry this section into effect, and shall provide for the valuation and assessment of the property enumerated in this section, and shall prescribe the duties of the State Board of Equalization and any other officers in connection with the administration thereof.

The rates of taxation fixed in this section shall remain in force until changed by the Legislature, two-thirds of all the members elected to each of the two houses voting in favor thereof. The taxes herein provided for shall become a lien on the first Monday in March of each year after the adoption of this section and shall become due and payable on the first Monday in July thereafter. SENATE JOINT RESOLUTION No. 14.

Relative to memorializing and petitioning Congress to enact legislation to eliminate the restrictions which now attach to the taxation of national banking associations, and creating a committee to further such purpose.

WHEREAS, The Joint Legislative Committee on Taxation of the forty-eighth session of the California Legislature has filed its report with the Senate and Assembly and sets forth the necessity of an amendment to section 5219 of the Revised Statutes of the United States, which statute is the sole authority for states to tax national banking associations and has recommended that the Legislature of the State take appropriate action designed to secure an amendment to section 5219 so that the State will be permitted greater latitude in the taxation of national banks; and

WHEREAS, It appears from such report that the present provisions of the said section 5219 so restrict the power of the states that this State is unable to enact a measure for the taxation of national banks that is capable of producing adequate revenues from such associations, and the State is required, in order to tax such associations, to adjust a large portion of its tax system to conform to the method selected for the taxation of national banking associations; and

WHEREAS, The forty-ninth session of the Legislature of the State of California approves recommendation number six of the said Joint Legislative Committee on Taxation as expressed in its report, and believes that such an amendment is essential before any revision of the State's tax system to distribute more equitably the tax burden can be achieved; now, therefore, be it

Resolved, That the Legislature of the State of California petitions the seventy-second session of the Congress of the United States to enact legislation to so amend section 5219 of the Revised Statutes of the United States that the states will be permitted greater latitude in the taxation of national banks; and be it further

Resolved, That the Legislature of the State of California requests the Honorable Senators and Representatives in the national Congress representing this State in the Senate and the House of Representatives of the United States to use every honorable means to secure such an amendment to section 5219; and be it further

Resolved, That a committee of four members, consisting of two members of the Assembly, to be appointed by the Speaker of the Assembly, and two members of the Senate, to be appointed by the President of the Senate, be appointed to attend the hearings of the Senate and the House Committees on Banking and Currency, or such other hearings and take such other action as said committee hereby authorized may deem necessary, to urge the national Congress to adopt such an amendment to section 5219 as is herein advocated; and be it further

Resolved, That the sum of \$5,000, or so much thereof as may be necessary, is hereby set apart, reserved and appropriated out of the legislative contingent funds of the Senate and Assembly which may have heretofore or may hereafter be appropriated for the contingent expenses of the Senate and Assembly by this session of the Legislature, said sum to be payable one-half from the contingent fund of the Senate and one-half from the contingent fund of the Assembly but not exceeding the sum of \$5,000 in all, for the purpose of paying the expenses incurred by the committee herein designated under the authority hereof, and for the purposes herein set forth, and said payments shall be disbursed from time to time by Controller's warrants to be drawn against such contingent funds upon the written orders of the members of said committee herein provided for; and be it further

Resolved, That the Secretary of the Senate be, and he is hereby directed to send copies of this resolution to each member of the Senate and the House of Representatives committees on banking and currency of the seventy-second Congress, and to each member of the Senate and House of Representatives from the State of California.

An action or proceeding against a county, or city and county, may be commenced and tried in such county, or city and county, unless such action or proceeding is brought by a county, or city and county, in which case it may be tried in any county, or city and county, not a party thereto. Whenever an action or proceeding is brought by a county, city and county, city, or public or municipal corporation, against a resident of another county, city and county, or city, or a corporation doing business in the latter, the action or proceeding must be, on motion of either party, transferred for trial to a county, or city and county, other than the plaintiff, if the plaintiff is a county, or city and county, and other than that in which the plaintiff is situated in whole or in part, if the plaintiff is a city or public or municipal corporation, and other than that in which the defendant resides or is doing business or is situated. Whenever an action or proceeding is brought against a county, city and county, city, or public or municipal corporation, in any county, or city and county, other than the defendant, if the defendant is a county, or city and county, or, if the defendant is a city or public or municipal corporation, other than that in which the defendant is situated in whole or in part, the action or proceeding must be, on motion of the said defendant, transferred for trial to a county, or city and county, other than that in which the plaintiff, or any of the plaintiffs, resides, or is doing business, or is situated, and other than the plaintiff county, or city and county, or county in which such plaintiff city or public or municipal corporation is situated, and other than the defendant county, or city and county, or county in which such defendant city or public or municipal corporation is situated: *provided, however,* that any action or proceeding against a city, county, or city and county, or public or municipal corporation, for injury occurring therein to person or property or person and property caused by the negligence or alleged negligence of such city, county, or city and county, or public or municipal corporation, or its agents or employees, shall be commenced and tried in such county, or city and county, or if a city or public or municipal corporation is a defendant, in such city or in the county in which such city or the major part of such public or municipal corporation is situated. When the action or proceeding is one in which a jury is not of right, or in case a jury be waived, then in lieu of transferring the cause the court in the original county may request the chairman of the judicial council to assign a disinterested judge from a neutral county to hear said cause and all proceedings in connection therewith. In any action or proceeding, the parties thereto may, by stipulation in writing, or made in open court, and entered in the minutes, agree upon any county, or city and county, for the place of trial thereof. When such action or proceeding is transferred to another county for trial a witness required to respond to a subpoena for a hearing within the original county shall be compelled to attend hearings in the county to which the cause is transferred. If the demand for transfer be made by one party and the opposing party does not consent thereto the additional costs of the nonconsenting party occasioned by the transfer of the cause

shall be assessed by the court hearing the cause against the party requesting the transfer. To the extent of such excess, costs shall be awarded to the nonconsenting party regardless of the outcome of the trial. This section shall apply to actions or proceedings now pending or hereafter brought except that as to any trial begun before the taking effect of this act amending this section said trial shall proceed to a conclusion unaffected by this amendment: *provided, however*, that if a retrial of said cause be ordered for any reason the provisions of this section shall apply to such retrial."
